## NOTIFICATION

### Addendum

The following communication, received on # Month Year, is being circulated at the request of the Delegation of NEW ZEALAND.

### **Import health standard for the importation into New Zealand of cooked poultry meat products for human consumption from Australia**

This import health standard sets the requirements to import cooked poultry meat products from compartments free of infectious bursal disease virus (IBDV) in Australia. Recognition of a compartment's freedom is based on the approval by MAF Biosecurity New Zealand of a biosecurity plan submitted by the Australian Veterinary Authority (AQIS) that follows the OIE Code guidelines. Poultry meat may originate either from an export farm in Australia that belongs to a compartment free of IBDV, or from specified poultry farm(s) in New Zealand. Processing into final cooked poultry meat products will take place in Australia, under strict biosecurity measures defined in the biosecurity plan.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force: adoption and publication: **09/02/09**; entry into force: **23/02/09**
- Other: -

Comment period:

- Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy):

Agency or authority designated to handle comments:  National Notification Authority,  National Enquiry Point. Address, fax number and E-mail address (if available) of other body:
