Foot-and-mouth disease (FMD)
An outbreak would badly damage our economy, affecting the jobs and lives of many New Zealanders.

Have you seen any of these signs in cattle, sheep, pigs, deer or goats?

- Blisters or sores on the mouth, muzzle, feet and teats
- Limping
- Drooling, tooth grinding and chomping

Report immediately to MPI’s 24-hour hotline 0800 80 99 66
