

**MAF BIOSECURITY NEW ZEALAND**  
**IMPORTING COUNTRIES PHYTOSANITARY**  
**REQUIREMENTS**  
**ARGENTINA**

Status:       Approved

Date:         3 July, 2001

Amendment Record

Amendment No.	Date:	Nature of amendment:	Approved by:
1.	3 July, 2001	Issue of EPS.	WJH
2.	14 February 2003	Renaming and reformatting of standard. Amendment to Section 2.5 re MPLs.	WJH
3.	12 February 2004	Amendment of phytosanitary requirements for <i>Trifolium repens</i> (White Clover) seeds, refer Section 4.4.1	WJH
4.	1 February 2005	Amendment of MAF contact details Sections 1.1 and 1.2. Minor reformatting of document.	WJH
5.	21 March 2007	Amendment of MAF contact details Section 1.1	SW
6.	3 October 2008	Inclusion of new phytosanitary requirements for <i>Pisum sativum</i> (pea seed) for sowing (refer Section 4.4.1)	JW
7.	14 January. 2009	Update of phytosanitary requirements for <i>Pisum sativum</i> (pea seed for sowing Sec 4.4.1)	SW
8.	18 February 2010	Addition of import requirements for carrot ( <i>Daucus carota</i> ), radish ( <i>Raphanus sativus</i> ) and onion ( <i>Allium cepa</i> ) seeds. SENASA correspondence 17.2.2010.	GI
9.	24 March 2010	Amendment of an additional declaration and addition of an inspection protocol for quarantine pests of <i>Actinidia deliciosa</i> and <i>A.chinensis</i> . SENASA/MAFBNZ agreed	GI

Amendment No.	Date:	Nature of amendment:	Approved by:
		protocol March 2010.	
10.	11 May 2010	Clarification of additional declaration required for <i>Actinidia deliciosa</i> and <i>A.chinensis</i> . SENASA/MAFBNZ agreed protocol March 2010	GI
11.	4 June 2010	Import requirements for <i>Trifolium</i> , <i>Festuca</i> , <i>Dactylis</i> and <i>Lolium</i> spp. seed. SENASA correspondence April 2010.	GI
12.	8 October 2011	Removal of freedom from <i>Striga</i> spp. requirement for <i>Dactylis glomerata</i> seed for sowing: (cocksfoot). SENASA correspondence October 2011.	CB
13	14 December	Section 4.4.1. Addition of import requirements for maize ( <i>Zea mays</i> ), barley ( <i>Hordeum vulgare</i> ), wheat ( <i>Triticum aestivum</i> ), cocksfoot ( <i>Dactylis glomerata</i> ) and rye ( <i>Triticum aestivum</i> x <i>Secale cereale</i> ) seed for sowing. SENASA correspondence 13.12.2011. Addition of MPL for seed for sowing.	CB

## DISCLAIMER

The information in this standard is provided on the following basis. The phytosanitary requirements found in this standard may be used as the basis of export certification. However, requirements may be changed by importing countries at any time at short notice or with no notice to New Zealand. This information is provided strictly on the basis that the Crown, the Ministry of Agriculture & Forestry, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

1. disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information; and
2. without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

***Compliance with this standard is not to be taken as a guarantee that any particular goods will be granted access to any overseas market.***

# 1 General Information

## 1.1 For enquires about this standard email the Plant Exports Group:

[plantexports@maf.govt.nz](mailto:plantexports@maf.govt.nz)

To help Plant Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone, fax or email the Plant Exports Group

- Telephone: 0800 008 333 (selecting option 3, then option 4) Fax : 64 4 894 0733; or
- Email: [PlantExports](mailto:PlantExports)

## 1.2 Scope

This standard specifies Argentina's phytosanitary requirements. If a commodity or commodity group is not identified within this ICPR exporters should contact:

- Argentina directly to ascertain requirements
- or
- MAF Biosecurity New Zealand (MAFBNZ). (Plant Exports)

Please note, the determination and provision of phytosanitary requirements, for a commodity not identified within an ICPR, is undertaken on a cost recovery basis. A link to the list of Plant Exports Fees and Charges is available on <http://www.biosecurity.govt.nz/regs/exports/plants/fees>

Users of this document are strongly advised to review all sections of the ICPR for the determination of a commodity's phytosanitary requirements.

## 1.3 Phytosanitary Legislation

The following legislation controls the importation of plants and plant materials into Argentina: *ref No596 21<sup>st</sup> December 2000*

- Regulation SAGyP No. 202/92, Regulation IASCAV No. 416/96
- Resolution SAGPyA No. 728/99
- Regulation IASCAV No. 234/95
- G/SPS/N/ARG/112

## 2 General Requirements

### 2.1 Prohibitions

The following commodities are prohibited entry to Argentina, *ref DCV19 29<sup>th</sup> January 2001*

Scientific name	Common name	Plant part prohibited
	Soil	All soil prohibited

### 2.2 Phytosanitary Import Permits (AFIDI)

2.2.1 Phytosanitary Import Permits state the phytosanitary requirements for importation

2.2.2 Phytosanitary Import Permits are required for the importation of the following Commodity Classes from New Zealand:

- Fresh fruit and vegetables
- Fresh cut flowers and foliage
- Nursery stock
- Seed (grains) / nuts (for sowing, consumption and processing)
- Growing media

2.2.3 Phytosanitary Import Permits are not required for:

- Dried fruit and vegetables. Refer Section 2.2.5
- Frozen fruit and vegetables
- Dried cut flowers and foliage. Refer Section 2.2.5

2.2.4 Phytosanitary Import Permits may be requested from:

Plant Quarantine Management  
Ing. Agr. Maria de Lourdes Fonalleras  
Av.Paseo Colon 367 7<sup>th</sup> Floor  
1305 Buenos Aires  
ARGENTINA

Telephone: 00541143316041 Ext. 1327

Facsimile: 00541143425137

Email: [mfonal@mecon.gov.ar](mailto:mfonal@mecon.gov.ar)

*ref No.596 21<sup>st</sup> December 2000*

### 2.2.5 Authorisation Notes

Authorisation notes are required for semi processed plant products such as those which have been subjected to a drying process, peeled or shelled. Exporters are advised to determine with their importer if an Authorisation Note is required. *ref DCV19 29<sup>th</sup> January 2001*

## 2.3 Phytosanitary Certificates

Phytosanitary certificates are required to accompany the following commodities from New Zealand:

- Fresh and dried fruit and vegetables
- Fresh and dried cut flowers and foliage
- Nursery stock
- Seed (grains) / nuts (for sowing, consumption and processing)
- Growing media

Phytosanitary certificates are required for packing material where that packing material requires an Authorisation Note. Exporters are advised to determine with their importer if an Authorisation Note is required. *ref DCV19 29<sup>th</sup> January 2001*

## 2.4 Quarantine Pests

*ref DCV19 29<sup>th</sup> January 2001, [www.cosave.org.py/lpcargentinaesp.html](http://www.cosave.org.py/lpcargentinaesp.html)*

### Acarina

*Brevipalpus californicus*  
*Brevipalpus lewisi*  
*Steneotarsonemus pallidus*  
*Tetranychus pacificus*

### Insects

#### Coleoptera

*Anoplophora* spp.  
*Anthonomus bisignifer*  
*Anthonomus eugenii*  
*Anthonomus grandis*  
*Anthonomus pomorum*  
*Anthonomus pyri*  
*Anthonomus signatus*  
*Anthonomus vestitus*  
*Brachycerus* spp.  
*Colaspis hypochlora*  
*Conotrachelus nenuphar*  
*Crioceris* spp.  
*Cryptorhynchus lapathi*  
*Dendroctonus* spp.  
*Epicaerus cognatus*  
*Euchroma gigantea goliath*  
*Geniocremmus chilensis*  
*Heterobostrychus aequalis*

*Hyllobius abietis*  
*Ips* spp.  
*Leptinotarsa decemlineata*  
*Monochamus* spp.  
*Odoiporus longicollis*  
*Otiorhynchus sulcatus*  
*Plocaederus ferrugineus*  
*Premnotrypes* spp. (except *P. latithorax*)  
*Psiloptera hirtomaculata*  
*Rhabdoscelus obscurus*  
*Rhynchophorus palmarum*  
*Saperda* spp.  
*Sinoxylon* spp.  
*Sophronica ventralis*  
*Trogoderma* spp. (except *T. granarium*)

#### Diptera

*Anastrepha* spp. (except  
*A. fraterculus*, *A. grandis*,  
*A. suspensa*)  
*Bactrocera* spp.

*Ceratitis* spp.  
*Dacus* spp. (except *D. cucurbitae*, *D. tryoni*, *D. dorsalis*)  
*Helicomyia saliciperda*

*Liriomyza trifolii*  
*Lonchaea pendula*  
*Rhagoletis* spp. (except *R.*

*pomonella*)  
*Toxotrypana curvicauda*

## Hymenoptera

*Megastigmus* spp.

*Neodiprion sertifer*

## Hemiptera

*Aleurocanthus spiniferus*  
*Aleurocanthus woglumi*  
*Celastogonia chrysur*  
*Ceroplastes destructor*  
*Maconellicoccus hirsutus*

*Perkinsiella saccharicida*  
*Planococcoides njalensis*  
*Planococcus lilacinus*  
*Pseudococcus citriculus*

## Lepidoptera

*Agrius convolvuli*  
*Anarsia lineatella*  
*Archips argyrospilus*  
*Carposina niponensis*  
*Conogethes punctiferalis*  
*Cossus cossus*  
*Cryptophlebia leucotreta*  
*Cydia* spp. (except *C. molesta* and  
*C. pomonella*)  
*Dyspepsa ulula*  
*Erionota thrax*  
*Helicoverpa armigera*  
*Hyphantria cunea*  
*Keiferia lycopersicella*  
*Leucinodes orbonalis*  
*Lobesia botrana*  
*Lymantria dispar*

*Lymantria monacha*  
*Nacoleia octasema*  
*Opogona sacchari*  
*Ostrinia nubilalis*  
*Othreis fullonia*  
*Paranthrene tabaniformis*  
*Platynota stultana*  
*Prays citri*  
*Prays oleae*  
*Proeulia* spp.  
*Rhyacionia* spp. (except *R.*  
*buoliana*)  
*Spodoptera littoralis*  
*Stenomoma catenifer*  
*Thaumetopoea pityocampa*  
*Zeuzera pyrina*

## Thysanoptera

*Liothrips oleae*  
*Palleucothrips musae*  
*Scirtothrips aurantii*

*Selenothrips rubrocinctus*  
*Thrips palmi*

## Nematodes

*Anguina agrostis*  
*Anguina tritici*  
*Aphelenchoides besseyi*  
*Bursaphelenchus xylophilus*  
*Ditylenchus angustus*  
*Ditylenchus destructor*  
*Ditylenchus dipsac* race *papa*  
*Globodera pallida*  
*Globodera rostochiensis*  
*Heterodera schachtii*

*Heterodera fici*  
*Meloidogyne chitwoodii*  
*Pratylenchus coffeae*  
*Pratylenchus fallax*  
*Pratylenchus scribneri*  
*Radopholus similis*  
*Radopholus citrophilus*  
*Rotylenchulus reniformis*  
*Xiphinema italiae*

## Prokaryotes

*Aplanobacter populi*  
 Apple proliferation MLO  
 Apple rubbery wood disease  
 Citrus greening bacterium  
*Clavibacter michiganensis* ssp.  
*insidiosus*  
*Clavibacter michiganensis* ssp.  
*sepedonicus*  
*Curtobacterium flaccumfaciens* p.v.  
*flaccumfaciens*  
*Erwinia amylovora*  
*Erwinia chrysanthemi* p.v.  
*diffenbachiae*  
*Erwinia ixiae*  
*Erwinia salicis*  
*Erwinia stewartii* (*Pantoea stewartii*  
 ssp. *stewartii*)  
 Grapevine flavescence dorée MLO  
 Lethal yellowing MLO  
 Peach rosette MLO  
 Peach yellows MLO  
 Peach X disease MLO  
 Pear decline MLO  
*Pseudomonas cichorii*  
*Ralstonia solanacearum* race 2

(*Pseudomonas solanacearum*)  
*Rhodococcus fascians*  
 (*Corynebacterium fascians*)  
*Spiroplasma citri* (Stubborn)  
 Witches-broom MLO  
*Xanthomonas axonopodis* p.v. *citri*  
 biotypes C and E (*Xanthomonas*  
*campestris* p.v. *citri*)  
*Xanthomonas axonopodis* biotype A-  
 B (*Xanthomonas campestris*  
 p.v. *citri*)  
*Xanthomonas campestris* p.v.  
*diffenbachiae*  
*Xanthomonas campestris* p.v.  
*gummisudans*  
*Xanthomonas campestris* p.v.  
*oryzae*  
*Xanthomonas campestris* p.v.  
*oryzicola*  
*Xylella fastidiosa* (Peach phony  
 disease and Pierce's Disease)  
*Xylella fastidiosa* (CVC)  
*Xylophilus ampelinus*

## Fungi

*Alternaria limicola*  
*Angiosorus solani*  
*Apiosporina morbosa*  
*Cercoseptoria pini-densiflorae*  
*Cercospora angolensis*  
*Chryphonectria parasitica*  
*Cronartium* spp.  
*Colletotrichum coffeanum* var.  
*virulans*  
*Corticium salmonicolor*  
*Dactuliochaeta glycines*  
 (*Pyrenochaeta glycines*)  
*Diaporthe cubensis*  
*Diaporthe vaccinii* (*Phomopsis*  
*vaccinii*)  
*Didymella ligulicola*  
*Gymnosporangium* spp.  
*Hemileia coffeicola*  
*Heterobasidium annosum*  
*Marssonina populi*  
*Monilinia vaccinii-corymbosi*  
*Mycosphaerella fijiensis*  
*Mycena citricolor*  
*Peridermium* spp.  
*Phialophora cinerescens*  
*Phytophthora boehmeriae*

*Phoma exigua* var. *foveata*  
*Phoma tracheiphila*  
*Phoma vaccinii*  
*Phomopsis viticola*  
*Phyllosticta solitaria*  
*Phyllosticta cearensis*  
*Phyllosticta imbe*  
*Phyllosticta philodendri*  
*Phyllosticta vaccinii*  
*Phymatotrichopsis omnivora*  
*Physopella ampelopsidis*  
*Phytophthora erythroseptica*  
*Plasmopara halstedii* (except races  
 3 and 7)  
*Polyscytalum pustulans*  
*Pythium splendens*  
*Rhizoctonia tuliparum*  
*Scirrhia acicola* (*Mycosphaerella*  
*dearnessii*)  
*Sphaceloma fawcetti*. *scabiosa*  
*Sphaerulina paulistana*  
*Stachylidium theobromae*  
*Synchytrium endobioticum*  
*Synchytrium vaccinii*  
*Tilletia indica*

## Viruses and viroids

Andean potato mottle virus  
 African cassava mosaic virus  
 Apple chlorotic leaf spot  
 Apple stem grooving virus  
 Apricot ring pox disease  
 Arabis mosaic virus  
 Banana bunchy top virus  
 Bean pod mottle virus  
 Bean southern mosaic virus  
 Cherry leaf roll virus  
 Citrus tristeza virus (several races)  
 Enation virus  
 Fiji disease virus  
 Grapevine A vitivirus (GVA)  
 Grapevine B vitivirus (GVB)  
 Grapevine Rugose Wood complex

disease (Rupestri Stem Pitting,  
 Kober Stem Grooving, LN33 Stem  
 Grooving, Corky bark)  
 Impietratura virus  
 Potato mop-top virus  
 Potato spindle tuber viroid (Tomato  
 bunchy top viroid)  
 Pea early browning virus  
 Pea false leaf roll virus  
 Pea mosaic virus  
 Pea seed borne mosaic virus  
 Plum pox virus  
 Sugarcane Sereh disease virus  
 Tobacco ring spot virus  
 Tomato ring spot virus

## Weeds

*Cirsium arvense*  
*Eragrostis plana*  
*Euphorbia esula*  
*Hieracium pilosella*

*Orobanche* spp.  
*Striga* spp.  
*Taeniatherum caput-medusae*

## Parasitic plants

*Arceuthobium* spp.

## 2.5 Maximum Pest Limits (MPLs)

Please note; for all commodities exported to Argentina requiring MAF phytosanitary certificates, the following levels have been set by MAF to facilitate exports while still meeting the importing country's minimum requirements for specified quarantine pests and soil. The MPL's are:

Quarantine pests* specified by Argentina	0.5%
Soil (excluding seed for sowing)	25g/600unit
Soil (seed for sowing)	0.1% by weight

\*Quarantine pests for Argentina include organisms identified within:

- Quarantine pests of this ICPR
- Additional declarations
- Phytosanitary import permit

## 2.6 Ports of Entry

Commodities requiring an Import Permit will state permitted port of entry. Commodities for which a permit is not required are not restricted to entry via specific ports. *ref No 596 21<sup>st</sup> December 2000*

## 2.7 Inspection on Arrival

All consignments of imported plant material are subject to inspection by Argentine authorities for phytosanitary purposes on arrival *ref No 596 21<sup>st</sup> December 2000*

## 2.8 Sampling Rate

Sampling for inspection on entry will generally be carried out at the following rates.

No. of units making up the lot to be sampled	Min. No. of units to be sampled
1 to 10	1
11 to 100	2
101 to 300	4
301 to 500	5
Over 500	1% of lot

## 2.9 Transit

Products from New Zealand transiting Argentina en-route to a third country must meet Argentine phytosanitary import requirements.

## 3 Commodity Class Requirements

### 3.1 Fruit and Vegetables

#### 3.1.1 Fresh Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate required. Refer Section 4.1.

#### 3.1.2 Dried Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Refer Section 2.2.5.

#### 3.1.3 Frozen Fruit and Vegetables

Conditions:

Phytosanitary import permit and phytosanitary certificate not required.

### 3.2 Cut Flowers and Foliage

#### 3.2.1 Fresh Cut Flowers and Foliage

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

#### 3.2.2 Dried Cut Flowers and Foliage

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Refer Section 2.2.5

### **3.3 Nursery Stock**

#### **3.3.1 Budwood/Cuttings**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

#### **3.3.2 Bulbs/tubers/corms/rhizomes etc.**

Conditions:

Phytosanitary import permit and phytosanitary certificate required. Must be free from soil.

#### **3.3.3 Whole Plants**

Conditions:

Phytosanitary import permit and phytosanitary certificate required. Must be free from soil.

#### **3.3.4 Tissue Culture**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

### **3.4 Seeds, Grains and Nuts**

#### **3.4.1 Seeds, Grains and Nuts for Sowing**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

#### **3.4.2 Seeds, Grains and Nuts for Consumption**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

#### **3.4.3 Seeds, Grains and Nuts for Processing**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

### **3.5 Growing Media**

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

## **4 Commodity Specific Requirements**

### **4.1 Fresh Fruit and Vegetables**

*ref Fax DCV19 January 2001*

*Actinidia delicososa and A. chinensis*

Kiwifruit

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Consignment freedom as per inspection protocol MAFBNZ/SENASA March 2010.

Inspection protocol agreed to by SENASA/MAFBNZ March 2010.

- Randomly select a sample of 600 fruit per homogeneous batch of fruit.
- Inspect each fruit thoroughly by rotating and inspecting the total area of the fruit.
- Examine the calyx and stem ends carefully for phytosanitary pests or rots, removing any debris from these areas when necessary to examine in detail. (If mites are nominated as a quarantine pest by the importing country this step is to be carried out using a x3 Maggi lamp.)
- If frass, webbing, holes or other signs of chewing are present which may indicate the presence of a pest, inspect further using any tools available, including a 10 x lens, to assist in detecting the presence of pests.
- Cut open fruit with holes to determine if pests are present.

Additional Declaration:

“The consignment is free from: *Brevipalpus californicus*, *Ceroplastes destructor*, *Ceroplastes Rubens*, *Cnephasia jactatana*, *Costelytra zealandrica*, *Ctenopseustis obliquana*, *Ctenopseustis serrana*, *Eotetranychus sexmaculatus*, *Epiphyas postvittana*, *Planotortrix excessana*, *Pseudococcus calceolariae*, *Scolypopa australis*, *Spodoptera litura*, *Stathmopoda plumbiflua*, *Stathmopoda skelloni*, *Thrips obscuratus*, *Tuckerella flabellifera*”

*Malus domestica* and *Malus communis*

Apple

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. The consignment must be free of leaves.

Additional Declaration:

“The fruit has been treated by immersion for one (1) minute in 100ppm of chlorine and found free from *Erwinia amylovora*”

## **4.2 Cut Flowers and Foliage**

### **4.2.1 Fresh Cut Flowers and Foliage**

Refer Section 3.2

### **4.2.2 Dried Cut Flowers and Foliage**

Refer Section 3.2

## **4.3 Nursery Stock**

### **4.3.1 Budwood / Cuttings**

Refer Section 3.3.1

### **4.3.2 Bulbs / tubers / corms / rhizomes etc.**

ref 1012-ARG-218-01 fax February 1998

*Crocus longiflora*

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Must be free from soil.

Additional declarations:

Either, “The crop was officially inspected during the period of growth and was found free

of *Ditylenchus destructor* and *Radopholus similis*"

or

"The consignment was found free by, laboratory analysis, of *Ditylenchus destructor* and *Radopholus similis*".

and

"The consignment is free from *Otiorynchus sulcatus*"

#### *Hyacinthus orientalis*

##### Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Must be free from soil.

##### Additional declarations:

Either, "The crop was officially inspected during the period of growth and was found free of *Ditylenchus destructor* and *Radopholus similis*"

or

"The consignment was found free by, laboratory analysis, of *Ditylenchus destructor* and *Radopholus similis*".

and

"The consignment is free from *Otiorynchus sulcatus*"

#### *Paeonia* spp.

#### Peony

##### Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Must be free from soil ref 1012/ARG/218-01 Fax March 1999

##### Additional declarations:

"The nursery from which the certified material originates is under the control of, or was inspected by, the New Zealand Ministry of Agriculture and Forestry"

and

Either, "The crop was officially inspected during the period of growth and was found free of *Ditylenchus destructor* and *Radopholus similis*"

or

"The shipment is free, according to laboratory analysis, from *Ditylenchus destructor* and *Rhadopholus similis*."

#### *Tulipa gesneriana*

##### Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Must be free from soil.

##### Additional declarations:

Either, "The crop was officially inspected during the period of growth and was found free of *Ditylenchus destructor* and *Radopholus similis*"

or

"The consignment was found free by, laboratory analysis, of *Ditylenchus destructor* and *Radopholus similis*".

and

"The consignment is free from *Otiorynchus sulcatus*"

### **4.3.3 Whole Plants**

Refer Section 3.3.3

#### 4.3.4 Tissue Culture

Refer Section 3.3.4

#### 4.4 Seeds, Grains and Nuts

##### 4.4.1 Seeds, Grains and Nuts for Sowing

Allium cepa

Onion

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required and additional declaration.

Additional declaration:

"This consignment is free from *Trogoderma* spp."

Dactylis glomerata

Orchard Grass/Cocksfoot

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

"The consignment is free of *Trogoderma* spp."

and either

"The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Anguina agrostis*"

or

"The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Anguina agrostis*"

Daucus carota

Carrot

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required and additional declaration.

Additional declaration:

"This consignment is free from *Trogoderma* spp."

Festuca x Lolium

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

"This consignment is free from *Trogoderma* spp."

And either

"The seeds come from a production area which is free from *Anguina agrostis*, *Anguina funesta*, *Cirsium arvense*, *Euphorbia esula* and *Hieracium pilosella*"

or

"The cultivation was officially inspected during the period of growth and found to be free from *Anguina agrostis*, *Anguina funesta*, *Cirsium arvense*, *Euphorbia esula* and *Hieracium pilosella*"

or

"The consignment is found to be free through laboratory analysis from *Anguina agrostis*, *Anguina funesta*, *Cirsium arvense*, *Euphorbia esula* and *Hieracium pilosella*"

Festuca arundinacea

Tall fescue

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Anguina agrostis*”

Festuca rubra

Red fescue

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

Hordeum vulgare

Barley

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

And either

“The seeds come from a production area which is free from *Cirsium arvense*, *Anguina tritici*, *Anguina agrostis* and *Euphorbia esula*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Anguina tritici*, *Anguina agrostis* and *Euphorbia esula*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Anguina tritici*, *Anguina agrostis* and *Euphorbia esula*”

Lolium boucheanum

Ryegrass hybrid

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration

required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

*Lolium hybridum*

Ryegrass hybrid

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

*Lolium multiflorum* and *Lolium multiflorum* x *Lolium perenne*

Annual ryegrass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

*Lolium perenne*

Perennial ryegrass

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella*, *Anguina funesta* and *Anguina agrostis*”

*Omithopus sativus*

Serradella/Birds foot trefoil

Conditions:

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required.

Additional declarations:

Either

“The seeds come from a production area which is free from *Cirsium arvense*”

or

“The cultivation was officially inspected during the period of growth and found to be free from *Cirsium arvense*”

or

“The consignment is found to be free through laboratory analysis from *Cirsium arvense*”

*Pisum sativum*

Pea

Conditions:

Phytosanitary import permit and phytosanitary certificate required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and

“The crop has been subjected to official inspection during the growing stage and found free of *Pea mosaic virus* and *Pea seedborne mosaic virus* as determined by laboratory testing.”

or

“The consignment is free of *Pea mosaic virus* and *Pea seedborne mosaic virus*”

*Raphanus sativus*

Radish

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required and additional declaration.

Additional declaration:

“This consignment is free from *Trogoderma* spp.”

*Trifolium fragiferum*

Strawberry clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and

“The seeds come from a production area which is free from *Orobanche* spp.”

or

“The crop was officially inspected during the period of growth and found free of *Orobanche* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

*Trifolium alexandrinum*, *T.ambiguum*, *T.balansae* (*T.michelianum*), *T.caucasicum*,  
*T.hibridum*, *T.incarnatus*, *T.resupinatum* (*T.suaveolens*), *T.vesiculosum* Red clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and

“The seeds come from a production area which is free from *Orobanche* spp.”

or

“The crop was officially inspected during the period of growth and found free of *Orobanche* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

*Trifolium pratense*

Red clover

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

and

“The seeds come from a production area which is free from *Orobanche* spp.”

or

“The crop was officially inspected during the period of growth and found free of *Orobanche* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

Trifolium repens

White clover

Conditions: ref email MFAT

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

And either

“The seeds come from a production area which is free from *Orobanche* spp.”

or

“The crop was officially inspected during the period of growth and found free of *Orobanche* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

Trifolium subterraneum

Subterranean clover

Phytosanitary import permit required. Phytosanitary certificate and additional declarations required.

Additional declarations:

“The consignment is free of *Trogoderma* spp.”

And either

“The seeds come from a production area which is free from *Orobanche* spp.” or

“The crop was officially inspected during the period of growth and found free of *Orobanche* spp.”

and either

“The seeds come from a production area which is free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

or

“The consignment is free (through laboratory analysis) from *Cirsium arvense*, *Euphorbia esula*, *Hieracium pilosella* and *Clavibacter michiganensis* spp. *insidiosus*”

Triticum aestivum

Wheat

Conditions:

Phyosanitary import permit required. Phyosanitary certificate and additional declarations required.

Additional declarations:

"The consignment is free of *Trogoderma* spp."

And either

"The seeds come from a production area which is free from *Cirsium arvense* and *Anguina tritici*"

or

"The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense* and *Anguina tritici*"

or

"The consignment is free (through laboratory analysis) from *Cirsium arvense* and *Anguina tritici*"

Triticum aestivum x Secale cereale Rye

Conditions:

Phyosanitary import permit required. Phyosanitary certificate and additional declarations required.

Additional declarations:

"The consignment is free of *Trogoderma* spp."

And either

"The seeds come from a production area which is free from *Cirsium arvense* and *Anguina tritici*"

or

"The crop was officially inspected during the period of growth and found to be free from *Cirsium arvense* and *Anguina tritici*"

or

"The consignment is free (through laboratory analysis) from *Cirsium arvense* and *Anguina tritici*"

Zea mays Maize

Conditions:

Phyosanitary import permit required. Phyosanitary certificate and additional declaration required.

Additional declaration:

"The consignment is free of *Trogoderma* spp."
