1 General Information

1.1 For enquires about this standard email the Plant Exports Group: plantexports@maf.govt.nz

To help Plant Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone, fax or email the Plant Exports Group

- Telephone: 0800 008 333 (selecting option 3, then option 4) Fax : 64 4 894 0733; or
- Email: PlantExports

1.2 Scope

This standard specifies China's phytosanitary requirements. If a commodity or commodity group is not identified within this ICPR exporters should contact:

- China directly to ascertain requirements
or
- MAF Biosecurity New Zealand (MAFBNZ). (Plant Exports)

Please note, the determination and provision of phytosanitary requirements, for a commodity not identified within an ICPR, is undertaken on a cost recovery basis. A link to the list of Plant Exports Fees and Charges is available on <http://www.biosecurity.govt.nz/regs/exports/plants/fees>

Users of this document are strongly advised to review all sections of the ICPR for the determination of a commodity's phytosanitary requirements.

1.3 Phytosanitary Legislation

Not specified

2 General Requirements

2.1 Prohibitions

Scientific name	Common name	Plant part prohibited
<i>Brassica chinensis</i>	Bok choy	True seed
<i>Brassica juncea</i>	Indian mustard	True seed
<i>Brassica napus</i>	Rapeseed	True seed
<i>Brassica nigra</i>	Black mustard	True seed

<i>Brassia oleracea</i>	Wild cabbage	True seed
<i>Brassia parachinensis</i>	False pak choi	True seed
<i>Brassia pekinensis</i>	Celery cabbage	True seed
<i>Brassia rapa</i>	Turnip	True seed
<i>Eruca sativa</i>	Rocket	True seed
<i>Raphanus raphanistrum</i>	Jointed charlock	True seed
<i>Raphanus sativus</i>	Radish	True seed
<i>Sinapis alba</i>	White mustard	True seed
<i>Thlaspi arvense</i>	Field penny-cress	True seed

Note Only fresh fruits identified in Section 4.1.1 are permitted entry

2.2 Phytosanitary Import Permits

- Phytosanitary import permits state the phytosanitary requirements for importation
- Phytosanitary import permits are required for permitted fresh fruits, Nursery stock and Seeds, Grains & Nuts for sowing
- It is believed phytosanitary import permits are required for all other commodities
- Designated ports for entry of live reproductive material (seeds, seedlings, rootstocks, scions, cuttings, bulbs and tubers, collectively known as plant seedlings)

Importers or agents importing plant seedlings should note that by law they need approval of entry quarantine and must select designated ports from published list below. Effective 1 April 2010.

2.5 Maximum Pest Limits (MPL's)

For all commodities exported to China requiring phytosanitary certificates, MPL's are:

Quarantine pests* specified by China	0.5%
Soil	25g/600unit

*Quarantine pests for China include organisms identified within:

- Quarantine pests of this ICPR
- Additional declarations
- Phytosanitary import permit

3 Commodity Class Requirements

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit

Conditions:

Phytosanitary import permit required. Phytosanitary certificate required. Refer Section 4.1.1 for fresh fruits that are permitted entry

- All consignments of fruits specified within Section 4.1.1 must be accompanied by a phytosanitary certificate and phytosanitary import permit.
- Prohibited to carry or mail fruit into China.
- Export packaging containing fruit must identify the fruit name, origin, and the name or code of the packhouse in Chinese or English.
- Fruit must be free from soil and plant remains of branches or leaves.
- When fruit is transported and enters by means of container, the phytosanitary certificate must indicate the container number.
- It will be prohibited to mix or load fruit with other fruit that is not listed on the accompanying phytosanitary certificate.
- The consignee or their agent must provide original documentation (phytosanitary import permit and MAFBNZ phytosanitary certificate) at the time of AQSIQ inspection on arrival in China.
- Fruit transshipped via Hong Kong and Macao Special Administrative Regions must be transported in a container and enter the border in its original container(s), original package(s), and with the original phytosanitary certificate. AQSIQ's authorized Hong Kong and Macao regional inspection agencies shall confirm whether the fruit is permitted entry. If the consignment is permitted, the AQSIQ authorized Hong Kong and Macao regional inspection agency will apply a seal to the container and issue a corresponding certificate indicating the new seal number, original certificate and original seal number, and, at the same time, send the 'confirmation certificate' to the inspection and quarantine agency at the entry port. For a batch of fruit that is shipped in multiple containers, only one quarantine certificate will be required upon confirmation by the Hong Kong and Macao regional inspection agencies.

3.3 Nursery Stock

General

A phytosanitary import permit and phytosanitary certificate required for all nursery stock

Exporters are strongly advised to confirm phytosanitary requirements for the specific plant material they intend to export prior to shipping

3.3.1 Whole Plants

Conditions:

Phytosanitary import permit and phytosanitary certificate required

3.3.2 Bulbs/tubers/corms/rhizomes (for propagation)

Conditions:

Phytosanitary import permit and phytosanitary certificate required

3.3.3 Bud wood and Cuttings

Conditions:

Phytosanitary import permit and phytosanitary certificate required

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Refer to Section 2.1 for prohibitions. Refer to Commodity Specific Requirements, Section 4.4.1

Conditions:

Phytosanitary import permit and phytosanitary certificate required

3.4.2 Seeds, Grains and Nuts for Consumption

Conditions:

Requirements not specified.

3.4.3 Seeds, Grains and Nuts for Processing

Conditions:

Requirements not specified.

3.5 Growing Media

Conditions:

Requirements not specified

3.6 Packing Material

Conditions:

Requirements not specified

4 Commodity Specific Requirements

4.1 Fruit and Vegetables

4.1.1 Fresh Fruit

Conditions:

Refer also Section 3.1.1

Only the following fresh fruits are permitted entry to China from New Zealand.

Actinidia deliciosa

Kiwifruit

Conditions:

Phytosanitary Import Permit Required. Phytosanitary certificate required.

Citrus aurantiifolia

Lime

Conditions:

Phytosanitary Import Permit Required. Phytosanitary certificate required.

Citrus limon

Lemon

Conditions:

Phytosanitary Import Permit Required. Phytosanitary certificate required.

Citrus reticulata

Mandarin

Conditions:

Phytosanitary Import Permit Required. Phytosanitary certificate required.

Citrus sinensis

Orange

Conditions:

Phytosanitary Import Permit Required. Phytosanitary certificate required.

Malus pumila

Apple

Conditions:

Phytosanitary import permit required. Phytosanitary certificate and additional declaration required. Must be produced and inspected in accordance with the Protocol of Inspection and Quarantine Requirements for the Export of Apples from New Zealand to China.

Additional declaration:

“This consignment is in compliance with requirements described in the Protocol of Inspection and Quarantine Requirements for the Export of Apples from New Zealand to China, and is considered to be free from the quarantine pests of concern to China.”
