

MAF BIOSECURITY NEW ZEALAND
IMPORTING COUNTRIES PHYTOSANITARY
REQUIREMENTS
THE EUROPEAN UNION

Status: Approved

Date: 26 June 2003

Amendment Record

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|-------------------|---|--------------|
| 1. | 07 September 1999 | Removal of requirement for import conditions to be entered on the phytosanitary certificate as additional declarations (section 2.3) and addition of new nursery stock species (section 4.4.2) – <i>Actinidia</i> spp. (plants), <i>Bergenia</i> spp. (tissue culture), <i>Clethra</i> spp. (plants), <i>Eucryphia</i> spp. (plants), <i>Geranium</i> spp. (tissue culture), <i>Lapageria</i> spp. (plants), <i>Michelia</i> spp. (plants) and <i>Pieris</i> spp. (plants). | SCO |
| 2. | 28 October 1999 | Addition of requirements for <i>Rubus</i> spp. tissue culture nursery stock (section 4.4.2.222) and amendment to name of <i>Phaseolus</i> spp. (was <i>P. vulgaris</i> only) for seed for sowing (section 4.5.1.12). Addition to sections 3.4 and 4.4.1 regarding requirements for species of nursery stock not listed in the EPS. | SCO |
| 3. | 13 March 2000 | Amendment to <i>Solanum tuberosum</i> (Fresh fruit and vegetables section 4.1) and <i>Malus</i> spp. (Nursery stock section 4.4.2) requirements. | SMN |
| 4. | 4 May 2001 | Amendment to <i>Solanum tuberosum</i> (fresh fruit and vegetables section 4.1) | SCO |
| 5. | 14 February 2003 | Renaming and reformatting of standard. Amendment to Section 2.6 re MPLs. | WJH |
| 6. | 31 March 2003 | Amendment to Section 2.3 Phytosanitary Certificates, Fruit and Vegetable Requirements (Section 4.1), Cut Flowers and Foliage (Section 4.2), Nursery Stock Requirements (Section 4.3) and general reformatting of the ICPR | WJH |
| 7. | 11 April 2003 | Amendment of ICPR with regards to the EU requirement to identify Additional declarations upon phytosanitary certificates | WJH |
| 8. | 26 June 2003 | Reissue of ICPR | WJH |

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|------------------|---|--------------|
| 9. | 29 July 2003 | Addition of requirements for <i>Desmoschoenus spiralis</i> , <i>Isotoma fluviatile</i> , <i>Pseudowintera</i> spp., <i>Wahlenbergia</i> spp., <i>Athyrium</i> spp., <i>Ensete</i> spp., <i>Colocasia</i> spp., <i>Crassula</i> spp., <i>Echevaria</i> spp., <i>Kalanchoe</i> spp., <i>Sempervirens</i> spp. refer Section 4.3.2 | WJH |
| 10. | 13 August 2003 | Addition of requirements for <i>Felicia bergeriana</i> , refer Section 4.3.2 | WJH |
| 11. | 2 October 2003 | Addition of requirements for <i>Curcuma</i> spp. , refer Section 4.3.2 | WJH |
| 12. | 23 December 2003 | Addition of requirements for <i>Fagus</i> spp. <i>Leptinella</i> spp. <i>Loropetalum</i> spp. and <i>Rhodohypoxis</i> spp., refer Section 4.3.2 | WJH |
| 13. | 12 March 2004 | Sec 2.5 Addition of requirements from ANNEX II, of EU Commission Directive 2002/36/EC: <i>Harmful organisms whose intro. Into and whose spread within certain protected zones shall be banned if they are present on certain plants or plant products.</i> | SW |
| 14. | 5 April 2004 | Amendment of requirements for Graminaceae, refer Section 2.6. Addition of requirements for <i>Polygala</i> spp., refer Section 4.3.2 | WJH |
| 15. | 29 June 2004 | Addition of requirements for <i>Ackama</i> spp., <i>Arundinaria</i> spp. (syn. <i>Fargesia</i> spp., <i>Pleiblastus</i> spp.), <i>Archontopheonix cunninghamiana</i> , <i>Arisaema</i> spp., <i>Arundinaria</i> spp. (syn. <i>Fargesia</i> spp., <i>Pleiblastus</i> spp.), <i>Beilschmiedia</i> spp., <i>Bromeliad</i> spp., <i>Collospermum</i> spp., <i>Dysoxylum</i> spp., <i>Eryngium</i> Royale, <i>Freycinetia</i> spp., <i>Gahnia</i> spp., <i>Habranthus</i> spp., <i>Marattia</i> spp., <i>Peperomia</i> spp., <i>Pomaderris</i> spp., <i>Stilbocarpa polaris</i> , <i>Thysanotis multiflorus</i> , <i>Trillium</i> spp., <i>Wasabi japonica</i> , refer Section 4.3.2. Inclusion of new member countries to the European Union, refer Section 1.3. | WJH |
| 16. | 6 September 2004 | Addition of requirements for <i>Aloe thraskii</i> , <i>Archontopheonix alexandrae</i> , <i>Beaucarnea recurvata</i> , <i>Beaucarnea recurvata</i> syn. <i>Nolina recurvata</i> , <i>Brahea armata</i> , <i>Butia capitata</i> , <i>Chamaedorea elegans</i> syn. <i>C. humilis</i> , <i>Chamaedorea metallica</i> , <i>Chamaedorea seifrizii</i> , <i>Chamaerops humilis</i> , <i>Crassula</i> spp., <i>Cycas taitungensis</i> , <i>Cycas revolute</i> , <i>Dracaena janet craig</i> (cultivar of <i>Dracaena deremensis</i>), <i>Dracaena deremensis</i> , <i>Dracaena draco</i> , <i>Dracaena fragrans</i> , <i>Dypsis baronii</i> , <i>Dypsis decaryi</i> syn. <i>Neodypsis decaryi</i> , <i>Howea forsterana</i> , <i>Jubaea chilensis</i> , <i>Livistona chinensis</i> , <i>Livistona decipiens</i> , <i>Lytocaryum weddellianum</i> syn. <i>Microcoelum weddellianum</i> , <i>Pachypodium lamerei</i> , <i>Philodendron bipinnatifidum</i> , <i>Phoenix canariensis</i> , <i>Phoenix reclinata</i> , <i>Phoenix roebelenii</i> , <i>Phoenix sylvestris</i> , <i>Ravenea rivularis</i> , <i>Rhapis excelsa</i> , <i>Rhopalostylis baurei</i> , <i>Rhopalostylis sapida</i> , <i>Sabal palmetto</i> , <i>Schefflera actinophylla</i> , <i>Strelitzia icolai</i> , <i>Syagrus romanzoffianum</i> , <i>Tibouchina organensis</i> , <i>Trachycarpus fortunei</i> syn. <i>Chamaerops fortunei</i> and <i>Washington robusta</i> , refer Section 4.3.2 | WJH |

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|------------------|--|--------------|
| 17. | 1 February 2005 | Amendment of MAF contact details Sections 1.1, 1.2, 2.3 and 2.4. Minor reformatting of document. | WJH |
| 18. | 20 February 2005 | Addition of requirements for <i>Helianthus salicifolius</i> , and removal of Additional Declaration requirements 8,15,16 for <i>Lavandula</i> spp., refer Section 4.3.2. | WJH |
| 19. | 24 May 2005 | Addition of requirements for <i>Arabis procurrens</i> , <i>Cosmos</i> spp, <i>Sedum spectabile</i> , <i>Trachystemon orientalis</i> . Correction of spelling for <i>Pleioblastus</i> , refer Section 4.3.2 | WJH |
| 20. | 11 July 2006 | Amendment of additional declaration requirements for <i>Citrus</i> refer Section 4.1.1. Addition of requirements for <i>Agave</i> spp., <i>Apodasmia similes</i> , <i>Dianella caerulea</i> , <i>D. tasmanica</i> , <i>D. revolute</i> , <i>Eucomis</i> spp. <i>Gardenia augusta</i> , <i>Gardenia radicans</i> syn. <i>G. jasminoides</i> , <i>Melicytus crassifolius</i> , <i>Vriesea</i> spp. | WJH |
| 21. | 7 December 2006 | Addition of requirements for <i>Astartea</i> spp; <i>Brunia</i> spp; <i>Chlorophytum comosum</i> ; <i>Erica</i> spp; <i>Kniphofia</i> spp; <i>Laurus nobilis</i> ; <i>Mimetes</i> spp; <i>Paranomus</i> spp. | SW |
| 22. | 22 March 2007 | Amendment of MAF contact details Section 1.1 | SW |
| 23. | 7 December 2007 | Addition of requirements for <i>Anaphaloides bellidioides</i> ; <i>Ascarina lanceolata</i> ; <i>Disphyma australe</i> ; <i>Disphyma papillatum</i> ; <i>Elaeocarpus dentatus</i> ; <i>Elingamita johnsonii</i> ; <i>Freycinetia banksii</i> ; <i>Hedycarya arborea</i> ; <i>Hydrocotyle elongate</i> ; <i>Jovellana repens</i> ; <i>Jovellana sinclarii</i> ; <i>Leptostigma setulosa</i> ; <i>Lobelia anceps</i> ; <i>Lygodium articulatum</i> ; <i>Melicope mantelli</i> ; <i>Melicope simplex</i> ; <i>Melicope ternate</i> ; <i>Mentha cunninghamii</i> ; <i>Microsorium scandens</i> ; <i>Myrsine aquilona</i> ; <i>Ozothamnus leptophylla</i> ; <i>Pouteria</i> (syn. <i>Planchonella</i>) <i>costata</i> ; <i>Rhabdothamnus solandri</i> ; <i>Ripogonum scandens</i> ; <i>Vittadinia australis</i> | SW |
| 24. | 23 April 2008 | Addition of requirements for <i>Lepidothamnus intermedius</i> ; <i>Lepidothamnus laxifolius</i> ; <i>Manoao colensoi</i> | SW |
| 25. | 24 April 2008 | Additon of new member countries to Sec 1.3 Bulgaria and Romania. | SW |
| 26. | 10 July 2008 | Addition of requirements for <i>Cosmos atosanguineus</i> . Amendment of additional declarations for <i>Cosmos</i> spp. Refer section 4.3.2. | LK |
| 27. | 28 August 2008 | Addition of requirements for <i>Gentiana triflora</i> & <i>Gentiana scabra</i> | LK |

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|------------------|---|--------------|
| 28. | 16 January 2009 | Addition of requirements for <i>Gratiola sexdentata</i> , <i>Lantana camara</i> , <i>Mazus novaezealandiae</i> , <i>Mimulus repens</i> | SW/LK |
| 29. | 19 February 2009 | Addition of requirements for <i>Zantedeschia</i> bulbs. Amendment of requirements for <i>Anthurium crassinervium</i> bulbs. | SW/IV |
| 30 | 5 March 2009 | Addition of requirements for <i>Dierama</i> corms. | GI/IV |
| 31 | 12 May 2009 | Amendment of lists of harmful organisms, Commission Directive 2009/7/EC. Updated import requirements for <i>Dendranthema</i> spp and <i>Lycopersicon lycopersicum</i> plants for planting. Section 4.3.2 | GI |
| 32 | 26 June 2009 | Update of requirements for <i>Dianthus</i> spp. Section 4.3.3. Clarification of general requirements Section 1.2, 2.4, 3.3 and 4.3.2 The import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19 in section 4.3.3. (FERA correspondence 9 June 2009), however, if unsure contact MAFBNZ Plant Exports. Minor spelling corrections, addition of species to specific commodities and clarification of specific commodity additional declarations. Section 4.3.2 Addition of EU Directive 2000 conditions and alignment with ICPR additional declarations. Section 4.3.3 | GI |
| 33 | 24 August 2009 | Revision to botanical name of Gramineae to Poaceae (Gramineae) as per EU Directive 2009/74/EC | JW |
| 34. | 4 September 2009 | Addition of the requirements for <i>Freesia</i> spp. bulbs. Refer section 4.3.2. Correspondence with the Netherlands Plant Protection Service and MAFBNZ, 2003. <i>Phragmites</i> spp. (Poaceae = Gramineae), PROHIBITED commodity. | GI |
| 35. | 13 October 2009 | Import requirements for France for <i>Rosa</i> budwood/cuttings. http://fcs.maf.govt.nz/webtop/drl/objectId/090101b3804d87c0 Import requirements for <i>Sandersonia</i> tubers to the Netherlands . http://fcs.maf.govt.nz/webtop/drl/objectId/090101b3804dc400 | GI |

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|-------------------|---|--------------|
| 36. | 13 January 2010 | Import requirements for <i>Pinus</i> spp. and <i>Pseudotsuga menziesii</i> seed and cones for propagation. EU Directive 2007/433/EC, (Plants are prohibited). | GI |
| 37. | 24 March 2010 | Clarification of the requirements for Palmae. EU Directive Annex IV A I No.37 and 37.1 | GI |
| 38. | 28 May 2010 | Addition of import requirements for bulbs of <i>Cyrtanthus elatus</i> and <i>Clivia</i> spp.. EU Directive additional declarations for bulbs. | GI |
| 39. | 29 June 2010 | Amended import requirements for <i>Echeveria</i> spp. plants for planting and tissue cultures. | GI |
| 40. | 2 July 2010 | Import requirements for Paeony spp.. EU Directive 2009 | GI |
| 41. | 29 July 2010 | Note: Switzerland's import requirements alignment with EU Directive 2009. | GI |
| 42. | 7 October 2010 | Addition of import requirements for <i>Actinidia</i> spp. tissue cultures. EU Directive 2009.. See sections 3.3 and 4.3 | GI |
| 43. | 13 October 2010 | Addition of import requirements for <i>Eucomis comosa</i> tissue cultures, <i>Geum coccineum</i> & <i>Polemonium raptans</i> . EU Directive 2009.. See section 4.3. | VK |
| 44. | 2 May 2011 | Referencing Tree ferns to the EU Compliance Programme and Registration. See section 4.3.2. Addition of import requirements for <i>Actaea</i> spp. tissue cultures 4.3.2. | CB |
| 45. | 18 May 2011 | Section 4.3.2. additional declarations for bulbs of <i>Cyrtanthus elatus</i> bolded to indicate that the declarations are consignment dependent. | CB |
| 46. | 04 July 2011 | Section 3.4.2, addition of a pre-export treatment option for the export of seed for sowing to the UK. | CB |
| 47. | 29 August 2011 | Addition of import requirements for <i>Agave</i> spp. and <i>Beschorneria</i> spp. tissue cultures, EU Directive 2009. See section 4.3.2 | CB |
| 48. | 26 September 2011 | Section 2.4 notification that France requires phytosanitary certificates to be signed in ink ("wet signature") rather than in an electronic form. Section 4.3.3 clarification of condition No. 34 of Annex IV A I.. | CB |
| 49. | 14 November 2011 | Section 4.3.2 Updated Specific commodity requirements for <i>Dianella</i> spp | VK |
| 50. | 29 November 2011 | Section 4.3.2 updated specific tissue culture commodity requirements for <i>Cosmos</i> spp. | CB |
| 51. | 10 January 2012 | Section 2.4 Where a Phytosanitary Certificate is issued after a consignment has been dispatched the inspection date must be stated in the Additional Declaration section of the Phytosanitary Certificate. Section 4.3.2 updated <i>Actinidia</i> spp. requirements | CB |

| Amendment No. | Date: | Nature of amendment: | Approved by: |
|---------------|------------------|--|--------------|
| | | for whole plants and Section 4.3.3 updated the definition of a "nursery." | |
| 52. | 01 February 2012 | Section 4.3.2 updated tissue culture requirements for <i>Cyclamen coum</i> and <i>Leucanthemum</i> spp . | CB |

DISCLAIMER

- 1.
2. The information in this standard is provided on the following basis. The phytosanitary requirements found in this standard may be used as the basis of export certification. However, requirements may be changed by importing countries at any time at short notice or with no notice to New Zealand. This information is provided strictly on the basis that the Crown, the Ministry of Agriculture & Forestry, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:
- 3.
4.
 1. Disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information
- 5.

1. General Information

1.1 For enquires about this standard email the Plant Exports Group:

plantexports@maf.govt.nz

To help Plant Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone, fax or email the Plant Exports Group

- Telephone: 0800 008 333 (selecting option 3, then option 4) Fax : 64 4 894 0733; or
- Email: PlantExports

1.2 Scope

As there are no New Zealand legislative requirements for certification of exported plant products, the technical phytosanitary requirements are determined by the importing country for plant produce being imported into their country. In this respect, ICPRs are MAF's summary of the importing country's legal requirements and thus forms a basis upon which export phytosanitary certification is provided.

Where an importing country operates on the basis of issuing import permits to their importers, the import permit conditions take precedence over any technical conditions contained in the MAF ICPR for that country.

This standard specifies the European Union's phytosanitary requirements for the stated commodities and commodity classes only. If a commodity or commodity grouping is not identified within this ICPR exporters should contact, if unsure:

- MAF Biosecurity New Zealand (MAFBNZ) (Plant Exports). Please note the determination of phytosanitary requirements is undertaken on a cost recovery basis. The import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

Please note, the determination and provision of phytosanitary requirements, for a commodity not identified within an ICPR, is undertaken on a cost recovery basis. A link to the list of Plant Exports Fees and Charges is available on <http://www.biosecurity.govt.nz/regs/exports/plants/fees>

Users of this document are strongly advised to review all sections of the ICPR for the determination of a commodity's phytosanitary requirements.

1.3 Member Countries of the European Union (27 countries at the 25th May 2009)

- Austria (A)
- Belgium
- Bulgaria*
- Cyprus* (CY)
- Czech Republic* (CZ)
- Denmark (DK)
- Estonia* (ES)
- Finland (FI)
- France (F)
- Germany
- Greece (EL)
- Hungary* (HU)
- Ireland (IRL)
- Italy (I)
- Latvia* (LV)
- Lithuania* (LT)
- Luxembourg
- Malta* (M)
- Netherlands
- Poland* (PL)
- Portugal (including Azores) (P)
- Romania*
- Slovenia* (SL)
- Spain (including Canary Islands) (E)
- Sweden (S)
- The Slovak Republic* (SV)
- United Kingdom (Great Britain including Northern Ireland, Isle of Man and Channel Islands) (UK)

Note. An asterisk signifies the country has recently joined the European Union. Exporters are advised to confirm requirements for these countries prior to shipping.

Note. Switzerland is not a member of the EU, however Switzerland's plant health regulation is to a wide extent identical to the EU regulations-EU directive 2000/29/EC (<http://eur-lex.europa.eu/en/index.htm>)

1.4 Phytosanitary Legislation

- Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community.
- Commission Directive 2002/36/EC amending Annexes to Council Directive 2000/29/EC
- Council Directive 2002/89/EC of 28 November 2002 amending Directive 2000/29/EC
- Commission Directive 2009/7/EC amending 2000/29/EC
- Commission Directive 2009/74/EC of 26 June 2009 amending Council Directives 66/401/EEC, 66/402/EEC and 2002/57/EC.
- Commission Directive 2007/433/EC

2. General Requirements

2.1 Definitions

Plants

Living plants and specified living parts thereof, including seeds. Living parts of plants include:

- fruit, in the botanical sense, other than that preserved by deep freezing
- vegetables, other than those preserved by deep freezing
- tubers, corms, bulbs, rhizomes

- cut flowers
- branches with foliage
- cut trees retaining foliage
- leaves and foliage
- plant tissue cultures
- live pollen
- budwood, cuttings, scions

Seeds

Seeds in the botanical sense, other than those not intended for planting

Plant products

Products of plant origin, unprocessed or having undergone simple preparation, in so far as these are not plants

Planting

Any operation for the placing of plants to ensure their subsequent growth, reproduction or propagation

Plants intended for planting

Plants which are already planted and are intended to remain planted or to be replanted after their introduction or plants which are not planted at the time of introduction, but are intended to be planted thereafter

Harmful organisms

Pests of plants or of plant products, which belong to the animal or plant kingdoms, or which are viruses, mycoplasmas or other pathogens

2.2 Phytosanitary Import Permits

Phytosanitary import permits are not required for plants or plant products to enter the European Union.

2.3 Exemption for Prohibited Items (derogation)

Under Commission Directive 95/44/EC of 26 July 1995, certain prohibited organisms, plants, plant products and other objects may be introduced or moved within the European Union or certain protected zones thereof, for trial or scientific purposes. This directive acts as a special permit (letter of authority) which may be used by European Union member states for the above trial / scientific purposes.

New Zealand exporters (commercial or scientific institutions), wishing to send prohibited material to the European Union need to obtain a letter of authority from the importer in the country to which the material is being sent. The importer in the destination country must apply to the phytosanitary authorities of that country in order to obtain the letter of authority. The letter of authority will specify conditions from which the consignment is exempted.

Prior to issuance of the phytosanitary certificate, certifying officers are to forward the letter of authority to MAF Biosecurity New Zealand.

The phytosanitary certificate accompanying any consignment imported under a letter of authority (Commission Directive 95/44/EC) must include the following:

Additional declaration:

“This material is imported under Directive 95/44/EC”

2.4 Phytosanitary Certificates

Refer to the commodity specifically to identify whether a phytosanitary certificate is required for the commodity to be exported.

Additional declarations as identified within this standard must be identified upon the phytosanitary certificate where applicable

If unsure of the phytosanitary requirements for specific commodities in these sections, please contact MAF Biosecurity New Zealand. However, the import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD’s 1-19. (FERA correspondence 9 June 2009)

Phytosanitary certificates must not be issued more than 14 days prior to export.

Where a Phytosanitary Certificate is issued after a consignment has been dispatched the inspection date must be stated in the Additional Declaration section of the Phytosanitary Certificate.

Notes:

- I. As of 15/09/2011 France requires phytosanitary certificates to be signed in ink (“wet signature”) rather than in an electronic form. The certificates must be verified by the Independent Verification Agency (IVA). Verified certificate numbers can be forwarded to MAF Plant Exports (either by the exporter or the IVA) to be printed out, countersigned and couriered back to the exporter.
- II. Switzerland requires phytosanitary certificates
- III. All postal consignments must have the original Phytosanitary Certificate attached to the outside of the package on entry into the EU.

2.5 Quarantine Pests

The following lists of pathogens and pests are prohibited from entering the European Union if they are present on the plants or plant products specified for that pest.

Annex1/Part A/Section 1

Pests, known not to occur in the European Union, whose introduction into, and/or whose spread within, all European Union Member States is prohibited, without reference to any specific plants or plant products.

Insects, mites and nematodes at all stages of their development

Acleris spp. (non-European)

Amauromyza maculosa

Anomala orientalis

Anoplophora chinensis

Anoplophora glabripennis

Anoplophora malasiaca

Arrhenodes minutus

Bemisia tabaci (non-European populations) vectoring viruses such as:

- a. *Bean golden mosaic geminivirus*
- b. *Cowpea mild mottle carlavirus*
- c. *Lettuce infectious yellows closterovirus*
- d. *Pepper mild tigré geminivirus*
- e. *Squash leaf curl geminivirus*
- f. *Euphorbia mosaic geminivirus*
- g. *Florida tomato geminivirus*

Choristoneura spp. (non-European)

Cicadellidae (non-European) known to be vectors of *Xylella fastidiosa*, such as:

- a. *Carneocephala fulgida*,
- b. *Draeculacephala minerva*
- c. *Graphocephala atropunctata*

Conotrachelus nenuphar

Dendrolimus sibiricus

Diabrotica barberi

Diabrotica undecimpunctata howardi

Diabrotica undecimpunctata undecimpunctata

Diabrotica virgifera zea

Helicoverpa (Heliothis) zea

Hirschmanniella spp.

Liriomyza sativae

Longidorus diadecturus

Monochamus spp. (non-European)

Myndus crudus

Nacobbus aberrans

Naupactus leucoloma

Premnotrypes spp. (non-European)

Pseudopityophthorus minutissimus

Pseudopityophthorus pruinosis

Rhynchophorus palmarum

Scaphoideus luteolus

Spodoptera eridania

Spodoptera frugiperda

Spodoptera litura

Tephritidae (non-European) such as:

- a. *Anastrepha fraterculus*
- b. *Anastrepha ludens*
- c. *Anastrepha obliqua*
- d. *Anastrepha suspensa*
- e. *Bactrocera (Dacus) cucurbitae*
- f. *Bactrocera (Dacus) dorsalis*
- g. *Bactrocera (Dacus) tryoni*

- h. *Bactrocera (Dacus) tsuneonis*
- i. *Bactrocera (Dacus) zonata*
- j. *Dacus ciliatus*
- k. *Epochra canadensis*
- l. *Pardalaspis cyanescens*
- m. *Pardalaspis quinaria*
- n. *Pterandrus rosa*
- o. *Rhacochlaena japonica*
- p. *Rhagoletis cingulata*
- q. *Rhagoletis completa*
- r. *Rhagoletis fausta*
- s. *Rhagoletis indifferens*
- t. *Rhagoletis mendax*

Thrips palmi

Xiphinema americanum sensu lato (non-European populations)

Xiphinema californicum

Bacteria

Xylella fastidiosa (including peach phony bacterium)

Fungi

Ceratocystis fagacearum

Chrysomyxa arctostaphyli

Cronartium spp. (non-European)

Endocronartium spp. (non-European)

Guignardia laricina

Gymnosporangium spp. (non-European)

Inonotus weirii

Melampsora farlowii

Monilinia fructicola

Mycosphaerella laricis-leptolepidis (*M. larici-leptolepis*)

Mycosphaerella populorum

Phoma andina

Phyllosticta solitaria

Septoria lycopersici var. *malagutii*

Thecaphora solani

Tilletia indica

Trechispora brinkmannii

Viruses and virus-like organisms

Elm phloem necrosis MLO

Potato viruses and virus-like organisms such as:

- a. *Andean potato latent tymovirus*
- b. *Andean potato mottle comovirus*
- c. *Arracacha B virus (oca strain)*
- d. *Potato spindle tuber viroid*
- e. *Potato T capillovirus*
- f. *Tobacco ringspot nepovirus (Andean potato calico strain syn. Potato*

- black ringspot virus*)
- Non-European isolates of:
- i. *Potato A potyvirus*
 - ii. *Potato leaf roll luteovirus*
 - iii. *Potato M carlavirus*
 - iv. *Potato S carlavirus*
 - v. *Potato X potexvirus*
 - vi. *Potato V potyvirus*
 - vii. *Potato Y potyvirus (including y⁰, yⁿ and y^C)*
- Tobacco ringspot nepovirus
- Tomato ringspot nepovirus
- Virus and virus-like organisms of *Cydonia*, *Fragaria*, *Malus*, *Prunus*, *Pyrus*, *Ribes*, *Rubus* and *Vitis*, such as:
- a. *Blueberry leaf mottle nepovirus*
 - b. *Cherry rasp leaf nepovirus*
 - c. *Peach latent mosaic viroid (Peach American mosaic disease)*
 - d. *Peach phony rickettsia*
 - e. *Peach rosette MLO*
 - f. *Peach rosette mosaic nepovirus*
 - g. *Peach X-disease MLO*
 - h. *Peach yellows MLO*
 - i. *(American) Plum line pattern virus*
 - j. *Raspberry leaf curl virus*
 - k. *Strawberry latent C disease*
 - l. *Strawberry vein-banding caulimovirus*
 - m. *Strawberry witches' broom MLO*
 - n. *other non-European viruses and virus-like organisms of these hosts*
- Viruses transmitted by *Bemisia tabaci* such as:
- a. *Bean golden mosaic geminivirus*
 - b. *Cowpea mild mottle carlavirus*
 - c. *Lettuce infectious yellows closterovirus*
 - d. *Pepper mild tigré geminivirus*
 - e. *Squash leaf curl geminivirus*
 - f. *Euphorbia mosaic geminivirus*
 - g. *Florida tomato geminivirus*

Parasitic plants

Arceuthobium spp. (non-European)

Annex1/Part A/Section II

Pests, known to occur in the European Union, whose introduction into, and/or whose spread within, all European Union Member States is prohibited, without reference to any specific plants or plant products.

Insects, mites and nematodes at all stages of their development

Diabrotica virgifera virgifera
Globodera pallida
Globodera rostochiensis
Heliothis armigera
Meloidogyne chitwoodi

Meloidogyne fallax
Opogona sacchari
Popillia japonica
Rhizococcus hibisci
Spodoptera littoralis

Bacteria

Clavibacter michiganensis subsp. *sepedonicus*
Pseudomonas solanacearum

Fungi

Melampsora medusae
Synchytrium endobioticum

Viruses and virus-like organisms

Apple proliferation MLO
Apricot chlorotic leafroll MLO
Pear decline MLO

Annex1/Part B

Pests whose introduction into and whose spread within the relevant protected zones of the European Union is prohibited without reference to any specific plants or plants products.

Insects, mites and nematodes, at all stages of their development

| | |
|----------------------------------|--|
| <i>Bemisia tabaci</i> (European) | Denmark, Finland, Ireland, Portugal (Entre Douro e Minho, Traz-os, Montes, Beira Litoral, Beira Interior, Ribatejo e Oeste, Alentejo, Madeira and Azores), Sweden, United Kingdom |
| <i>Daktulosphaira vitifoliae</i> | Cyprus |
| <i>Globodera pallida</i> | Finland, Latvia, SI, SK |
| <i>Leptinotarsa decemlineata</i> | Finland (the districts of Aland, Turku, Uusimaa, Kymi, Häme, Pirkanmaa, Satakunta), Ireland, Portugal (Azores and Madeira), Sweden (Malmöhus, Kristianstads, Blekinge, Kalmar, Gotlands Län, Halland), Spain (Minorca and Ibiza), United Kingdom, Greece, Cyprus, Malta, Ireland |
| <i>Liriomyza bryoniae</i> | Ireland and UK (Northern Ireland) |

Viruses and virus-like organisms

| | |
|---------------------------------|---|
| Beet necrotic yellow vein virus | Denmark, Finland, France (Brittany), Ireland Portugal (Azores), Sweden, United Kingdom, Lithuania |
| Tomato spotted wilt virus | Finland and Sweden |

AnnexII/Part A/Section I

Harmful organisms whose introduction into and spread within all European Union Member States shall be prohibited if they are present on certain plants or plant products.

a) Insects, mites and nematodes, at all stages of their development

| Species | Subject of contamination |
|---|--|
| <i>Acrobasis (Numonia) pyrivorella</i> | Plants of <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Aculops fuchsiae</i> | Plants of <i>Fuchsia</i> L., intended for planting, other than seeds |
| <i>Aleurococcus</i> spp. | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Anthonomus bisignifer</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Anthonomus (Tachypterellus) quadrigibbus</i> | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Anthonomus signatus</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Aonidella citrina</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Aphelenchoïdes besseyi</i> | Seeds of <i>Oryza</i> spp. |
| <i>Aschistonyx eppoi</i> | Plants of <i>Juniperus</i> L., other than fruit and seeds, originating in non-European countries |
| <i>Bursaphelenchus xylophilus</i> | Plants of <i>Abies</i> Mill., <i>Cedrus</i> Trew, <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. and <i>Tsuga</i> Carr., other than fruit and seeds, and wood of conifers (<i>Coniferales</i>), originating in non-European countries |
| <i>Carposina niponensis</i> | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Diaphorina citri</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, and <i>Murraya</i> König, other than fruit and seeds |
| <i>Cydia (Grapholita) inopinata</i> | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Cydia (Enarmonia) packardi</i> | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Cydia (Enarmonia) prunivora</i> | Plants of <i>Crataegus</i> L., <i>Malus</i> Mill., <i>Photinia</i> Ldl., <i>Prunus</i> L. and <i>Rosa</i> L., intended for planting, other than seeds, and fruit of <i>Malus</i> Mill. and <i>Prunus</i> L., originating in non-European countries |
| <i>Eotetranychus lewisi</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Eotetranychus orientalis</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, other than fruit and seeds |
| <i>Hishomonus phycitis</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Leucaspis japonica</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Listronotus bonariensis</i> | Seeds of <i>Cruciferae</i> , <i>Poaceae (Gramineae)</i> and <i>Trifolium</i> spp., originating in Argentina, Australia, Bolivia, Chile, New Zealand and Uruguay |

| Species | Subject of contamination |
|---|--|
| <i>Margarodes</i> , non-European species, such as: (a) <i>Margarodes vitis</i> (b) <i>Margarodes vredendalensis</i> (c) <i>Margarodes prieskaensis</i> | Plants of <i>Vitis</i> L., other than fruit and seeds |
| <i>Oligonychus perditus</i> | Plants of <i>Juniperus</i> L., other than fruit and seeds, originating in non-European countries |
| <i>Pissodes</i> spp. (non-European) | Plants of conifers (<i>Coniferales</i>), other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, and isolated bark of conifers (<i>Coniferales</i>), originating in non-European countries |
| <i>Radopholus citrophilus</i> Huettel | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds, and Plants of <i>Araceae</i> , <i>Marantaceae</i> , <i>Musaceae</i> , <i>Persea</i> spp., <i>Strelitziaceae</i> , rooted or with growing medium attached or associated |
| <i>Scirtothrips aurantii</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Scirtothrips dorsalis</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Scirtothrips citri</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Scolytidae</i> spp. (non-European) | Plants of conifers (<i>Coniferales</i>), over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, and isolated bark of conifers (<i>Coniferales</i>), originating in non-European countries |
| <i>Scrobipalopsis solanivora</i> . | Tubers of <i>Solanum tuberosum</i> |
| <i>Toxoptera citricida</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Trioza erytrae</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids and <i>Clausena</i> Burm. f., other than fruit and seeds |
| <i>Unaspis citri</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |

b) Bacteria

| Species | Subject of contamination |
|--|--|
| Citrus greening bacterium | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Citrus variegated chlorosis | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Erwinia stewartii</i> | Seeds of <i>Zea mais</i> L. |
| <i>Xanthomonas campestris</i> (all strains pathogenic to Citrus) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Xanthomonas campestris</i> pv. <i>Oryzae</i> (Ishiyama) | Seeds of <i>Oryza</i> spp. |

c) Fungi

| Species | Subject of contamination |
|---|---|
| <i>Alternaria kikuchiana</i> and <i>A. mali</i> r (non-European pathogenic isolates of <i>A. eticulat</i>) | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill. And <i>Pyrus</i> L. intended for planting, other than seeds, originating in non-European countries |
| <i>Anisogramma anomala</i> | Plants of <i>Corylus</i> L., intended for planting, other than seeds, originating in Canada and the United States of America |

| Species | Subject of contamination |
|--|---|
| <i>Apiosporina morbosa</i> | Plants of <i>Prunus</i> L. intended for planting, other than seeds |
| <i>Atropellis</i> spp. | Plants of <i>Pinus</i> L., other than fruit and seeds, isolated bark and wood of <i>Pinus</i> L. |
| <i>Botryosphaeria berengeriana</i> f. sp. <i>Piricola</i> (<i>Guignardia citricarpa</i>) all strains pathogenic to Citrus) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Ceratocystis virescens</i> (<i>C. coerulescens</i>) | Plants of <i>Acer saccharum</i> Marsh., other than fruit and seeds, originating in North American countries, wood of <i>Acer saccharum</i> Marsh., including wood which has not kept its natural round surface, originating in North American countries |
| <i>Ciborinia camelliae</i> | Plants of <i>Camelia</i> L., intended for planting, other than seeds, originating in non-European countries |
| <i>Diaporthe vaccinii</i> | Plants of <i>Vaccinium</i> spp., intended for planting, other than seeds |
| <i>Elsinoe</i> spp. | Plants of <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds and plants of <i>Citrus</i> L. and their hybrids, other than seeds and other than fruits, except fruits of <i>Citrus eticulate</i> Blanco and of <i>Citrus sinensis</i> (L.) Osbeck originating in South America |
| <i>Fusarium oxysporum</i> f. sp. <i>Albedinis</i> | Plants of <i>Phoenix</i> spp., other than fruit and seeds |
| <i>Guignardia piricola</i> | Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries |
| <i>Mycosphaerella dearnessii</i> (<i>Scirrhia acicola</i>) | Plants of <i>Pinus</i> L., other than fruit and seeds |
| <i>Mycosphaerella gibsonii</i> (anamorph <i>Cercoseptoria pini-densiflorae</i>) | Plants of <i>Pinus</i> L., other than fruit and seeds, and wood of <i>Pinus</i> . |
| <i>Phaeoramularia</i> (<i>Cercospora angolensis</i>) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Puccinia pittieriana</i> | Plants of <i>Solanaceae</i> , other than fruit and seeds |
| <i>Stegophora ulmea</i> | Plants of <i>Ulmus</i> and <i>Zelkova</i> intended for planting other than seeds. |
| <i>Venturia nashicola</i> | Plants of <i>Pyrus</i> L., intended for planting, other than seeds, originating in non-European countries |

d) Viruses and virus-like organisms

| Species | Subject of contamination |
|---|--|
| Beet curly topvirus (non-European isolates) | Plants of <i>Beta vulgaris</i> L., intended for planting, other than seeds |
| Black raspberry latent virus | Plants of <i>Rubus</i> L intended for planting |
| Cadang-cadang viroid | Plants of <i>Palmae</i> , intended for planting, other than seeds, originating in non-European countries |
| Cherry leafroll virus | Plants of <i>Rubus</i> L., intended for planting |
| Chrysanthemum stem necrosis virus | Plants of <i>Dendranthema</i> and <i>Lycopersicon lycopersicum</i> intended for planting other than seeds. |
| Citrus blight disease (and blight-like) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Citrus leprosis disease | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, other than fruit and seeds |
| Citrus mosaic virus | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |

| Species | Subject of contamination |
|---|--|
| Citrus naturally spreading psoriasis disease | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Citrus tatter leaf capillovirus | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Citrus tristeza closterovirus (non-European isolates) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Little cherry pathogen (non-European isolates) | Plants of <i>Prunus cerasus</i> L., <i>Prunus avium</i> L., <i>Prunus incisa</i> Thunb., <i>Prunus sargentii</i> Rehd., <i>Prunus serrula</i> Franch., <i>Prunus serrulata</i> Lindl., <i>Prunus speciosa</i> (Koidz.) Ingram, <i>Prunus subhirtella</i> Miq., <i>Prunus yedoensis</i> Matsum., and hybrids and cultivars thereof, intended for planting, other than seeds |
| Palm lethal yellowing mycoplasma (MLO) | Plants of <i>Palmae</i> , intended for planting, other than seeds, originating in non-European countries |
| Prunus necrotic ringspot) ilarvirus | Plants of <i>Rubus</i> L., intended for planting |
| Satsuma dwarf virus | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Witches' broom (MLO) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |

AnnexII/Part A/Section II

Pests, known to occur in the European Union, whose introduction into, and/or whose spread within all European Union Member States is prohibited, with reference to specific plants or plant products.

a) Insects, mites and nematodes, at all stages of their development

| Species | Subject of contamination |
|----------------------------------|--|
| <i>Aphelenchoides besseyi</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Circulifer haematoceps</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Circulifer tenellus</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Daktulosphaira vitifoliae</i> | Plants of <i>Vitis</i> L., other than fruit and seeds |
| <i>Ditylenchus destructor</i> | Flower bulbs and corms of <i>Crocus</i> L., miniature cultivars and their hybrids of the genus <i>Gladiolus</i> Tourn. ex L., such as <i>Gladiolus callianthus</i> Marais, <i>Gladiolus colvillei</i> Sweet, <i>Gladiolus nanus</i> hort., <i>Gladiolus ramosus</i> hort., <i>Gladiolus tubergenii</i> hort., <i>Hyacinthus</i> L., <i>Iris</i> L., <i>Trigridia</i> Juss, <i>Tulipa</i> L., intended for planting, and potato tubers (<i>Solanum tuberosum</i> L.), intended for planting |
| <i>Ditylenchus dipsaci</i> | Seeds and bulbs of <i>Allium ascalonicum</i> L., <i>Allium cepa</i> L. and <i>Allium schoenoprasum</i> L., intended for planting and Plants of <i>Allium porrum</i> L., intended for planting, bulbs and corms of <i>Camassia</i> Lindl., <i>Chionodoxa</i> Boiss., <i>Crocus flavus</i> Weston 'Golden Yellow', <i>Galanthus</i> L., <i>Galtonia candicans</i> (Baker) Decne, <i>Hyacinthus</i> L., <i>Ismene</i> Herbert, <i>Muscari</i> Miller, <i>Narcissus</i> L., <i>Ornithogalum</i> L., <i>Puschkinia</i> Adams, <i>Scilla</i> L., <i>Tulipa</i> L., intended for planting, and Seeds of <i>Medicago sativa</i> L. |
| <i>Eutetranychus orientalis</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |

| Species | Subject of contamination |
|-------------------------------|--|
| <i>Liriomyza huidobrensis</i> | Cut flowers, leafy vegetables of <i>Apium graveolens</i> L. and Plants of herbaceous species, intended for planting, other than: — bulbs, — corms, — Plants of the family Poaceae (Gramineae) — rhizomes, — seeds |
| <i>Liriomyza trifolii</i> | Cut flowers, leafy vegetables of <i>Apium graveolens</i> L. and Plants of herbaceous species, intended for planting, other than: — bulbs — corms — Plants of the family Poaceae (Gramineae) — rhizomes — seeds |
| <i>Parasaissetia nigra</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| <i>Paysandisia archon</i> | Plants of Palmae intended for planting having a diameter of the stem at the base of over 5cm and belonging to the following genera; <i>Brahea</i> , <i>Butia</i> , <i>Chamaerops</i> , <i>Jubaea</i> , <i>Livistona</i> , <i>Phoenix</i> , <i>Sabal</i> , <i>Syagrus</i> , <i>Trachycarpus</i> , <i>Trithrinax</i> , <i>Washingtonia</i> . |
| <i>Radopholus similis</i> | Plants of Araceae, Marantaceae, Musaceae, Persea spp., Strelitziaceae, rooted or with growing medium attached or associated |

b) Bacteria

| Species | Subject of contamination |
|--|---|
| <i>Clavibacter michiganensis</i> spp. <i>insidiosus</i> | Seeds of <i>Medicago sativa</i> L. |
| <i>Clavibacter michiganensis</i> spp. <i>michiganensis</i> | Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., intended for planting |
| <i>Erwinia amylovora</i> | Plants of <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Pyracantha</i> Roem., <i>Pyrus</i> L., <i>Sorbus</i> L. other than <i>Sorbus intermedia</i> (Ehrh.) Pers. and <i>Stranvaesia</i> Lindl., intended for planting, other than seeds |
| <i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> | Plants of <i>Dianthus</i> L., intended for planting, other than seeds |
| <i>Pseudomonas caryophylli</i> | Plants of <i>Dianthus</i> L., intended for planting, other than seeds |
| <i>Pseudomonas syringae</i> pv. <i>persicae</i> | Plants of <i>Prunus persica</i> (L.) Batsch and <i>Prunus persica</i> var. <i>nectarina</i> (Ait.) Maxim, intended for planting, other than seeds |
| <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> | Seeds of <i>Phaseolus</i> L. |
| <i>Xanthomonas campestris</i> pv. <i>pruni</i> | Plants of <i>Prunus</i> L., intended for planting, other than seeds |
| <i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> | Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw. and <i>Capsicum</i> spp., intended for planting |
| <i>Xanthomonas fragariae</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Xylophilus ampelinus</i> (Panagopoulos) | Plants of <i>Vitis</i> L., other than fruit and seeds |

c) Fungi

| Species | Subject of contamination |
|--|--|
| <i>Ceratocystis fimbriata</i> f. spp. <i>Platani</i> | Plants of <i>Platanus</i> L., intended for planting, other than seeds, and wood of <i>Platanus</i> L., including wood which has not kept its natural round surface |
| <i>Colletotrichum acutatum</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Cryphonectria parasitica</i> | Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., intended for planting, other than seeds, wood and isolated bark of <i>Castanea</i> Mill. |
| <i>Deuterophoma</i> (<i>Phoma</i>) <i>tracheiphila</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds |
| <i>Didymella ligulicola</i> | Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds |
| <i>Mycosphaerella</i> (<i>Scirrhia</i>) <i>pini</i> | Plants of <i>Pinus</i> L., intended for planting, other than seeds |
| <i>Phialophora cinerescens</i> | Plants of <i>Dianthus</i> L., intended for planting, other than seeds |
| <i>Phytophthora fragariae</i> var. <i>fragariae</i> | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| <i>Plasmopara halstedii</i> | Seeds of <i>Helianthus annuus</i> L. |
| <i>Puccinia horiana</i> | Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds |
| <i>Verticillium albo-atrum</i> | Plants of <i>Humulus lupulus</i> L., intended for planting, other than seeds |
| <i>Verticillium dahliae</i> | Plants of <i>Humulus lupulus</i> L., intended for planting, other than seeds |

d) Viruses and virus-like organisms

| Species | Subject of contamination |
|---|--|
| Arabis mosaic nepovirus | Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds |
| Beet leaf curl rhabdovirus | Plants of <i>Beta vulgaris</i> L., intended for planting, other than seeds |
| Chrysanthemum stunt viroid | Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds |
| Citrus tristeza closterovirus (European isolates) | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Citrus vein enation woody gall disease | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Grapevine flavescence dorée MLO | Plants of <i>Vitis</i> L., other than fruit and seeds |
| Plum pox potyvirus | Plants of <i>Prunus</i> L., intended for planting, other than seeds |
| Potato stolbur mycoplasma MLO | Plants of <i>Solanaceae</i> , intended for planting, other than seeds |
| Raspberry ringspot nepovirus | Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds |
| <i>Spiroplasma citri</i> | Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds |
| Strawberry crinkle rhabdovirus | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |
| Strawberry latent ringspot nepovirus | Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds |
| Strawberry mild yellow edge disease | Plants of <i>Fragaria</i> L., intended for planting, other than seeds |

| Species | Subject of contamination |
|--------------------------------|--|
| Tomato black ring nepovirus | Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds |
| Tomato spotted wilt tospovirus | Plants of <i>Apium graveolens</i> L., <i>Capsicum annuum</i> L., <i>Cucumis melo</i> L., <i>Dendranthema</i> (DC.) Des Moul., all varieties of New Guinea hybrids <i>Impatiens</i> , <i>Lactuca sativa</i> L., <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw. <i>Nicotiana tabacum</i> L., of which there shall be evidence that they are intended for sale to professional tobacco production. <i>Solanum melongena</i> L. and <i>Solanum tuberosum</i> L., intended for planting, other than seeds |
| Tomato yellow leaf curl virus | Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., intended for planting, other than seeds |

AnnexII/Part B

Pests whose introduction into, and/or whose spread within, the relevant protected zones of the European Union is prohibited, with reference to specific plants or plant products.

a) Insects, mites and nematodes, at all stages of their development

| Species | Subject of contamination | Protected zone(s) |
|-------------------------------|---|--|
| <i>Anthonomus grandis</i> | Seeds and fruits (bolls) of <i>Gossypium</i> spp. and unginned cotton | Greece, Spain (Andalucia, Catalonia, Extremadura, Murcia, Valencia) |
| <i>Cephalcia lariciphila</i> | Plants of <i>Larix</i> , intended for planting, other than seeds | Ireland, United Kingdom (N. Ireland, Isle of Man and Jersey) |
| <i>Dendroctonus micans</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> , <i>Pinus</i> and <i>Pseudotsuga</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | Ireland, Greece, United Kingdom |
| <i>Gilpinia hercyniae</i> | Plants of <i>Picea</i> , intended for planting, other than seeds | Greece, Ireland, United Kingdom (N. Ireland, Isle of Man and Jersey) |
| <i>Gonipterus scutellatus</i> | Plants of <i>Eucalyptus</i> other than fruit and seeds | Greece, Portugal |
| <i>Ips amitinus</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> , and <i>Pinus</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | France (Corsica), Greece, Ireland, United Kingdom |
| <i>Ips cembrae</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> , and <i>Pinus</i> and <i>Pseudotsuga</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | Greece, Ireland, United Kingdom (N. Ireland, Isle of Man) |
| <i>Ips duplicatus</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> and <i>Pinus</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | Greece, Ireland, United Kingdom |

| Species | Subject of contamination | Protected zone(s) |
|--------------------------------|---|---|
| <i>Ips sexdentatus</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> and <i>Pinus</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | Ireland, United Kingdom, (N. Ireland, Isle of Man) |
| <i>Ips typographus</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> , <i>Pinus</i> and <i>Pseudotsuga</i> , over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers | Ireland, United Kingdom |
| <i>Sternochetus mangiferae</i> | Seeds of <i>Mangifera</i> spp. originating in third countries | Portugal (Alentejo, Algarve, Madeira) Spain (Granada, Malaga) |
| <i>Thaumetopoea pityocampa</i> | Plants of <i>Pinus</i> , intended for planting, other than fruit and seeds | Spain (Ibiza) |

b) Bacteria

| Species | Subject of contamination | Protected zone(s) |
|--|--|---|
| <i>Curtobacterium flaccumfaciens</i> pv. <i>flaccumfaciens</i> | Seeds of <i>Phaseolus vulgaris</i> and <i>Dolichos</i> | Greece, Portugal, Spain |
| <i>Erwinia amylovora</i> | Parts of plants, other than fruit, seeds and plants intended for planting, but including live pollen for pollination of <i>Chaenomeles</i> , <i>Cotoneaster</i> , <i>Crataegus</i> , <i>Cydonia</i> , <i>Eriobotrya</i> , <i>Malus</i> , <i>Mespilus</i> , <i>Pyracantha</i> , <i>Pyrus</i> , <i>Sorbus</i> other than <i>Sorbus intermedia</i> and <i>Stranvaesia</i> . | France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne except department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, Spain, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands) |

c) Fungi

| Species | Subject of contamination | Protected zone(s) |
|---------------------------------|--|--|
| <i>Cryphonectria parasitica</i> | Wood excluding wood which is bark free and isolated bark of <i>Castanea</i> | Czech Republic, Denmark, Greece (Crete, Lesvos), Ireland, Sweden, UK, (except the Isle of Man) |
| <i>Glomerella gossypii</i> | Seeds and fruits (bolls) of <i>Gossypium</i> spp. | Greece |
| <i>Gremmeniella abietina</i> | Plants of <i>Abies</i> , <i>Larix</i> , <i>Picea</i> , <i>Pinus</i> and <i>Pseudotsuga</i> , intended for planting, other than seeds | Ireland, United Kingdom (N. Ireland) |
| <i>Hypoxyton mammatum</i> | Plants of <i>Populus</i> , intended for planting, other than seeds | Ireland, United Kingdom (N. Ireland) |

d) Viruses and Virus-like organisms

| Species | Subject of contamination | Protected zone(s) |
|---|--|--|
| Citrus tristeza virus (European Isolates) | Fruits of <i>Citrus</i> , <i>Fortunella</i> , <i>Poncirus</i> , and their hybrids, with leaves and peduncles | France (Corsica), Greece, Ireland, Portugal, Malta |

2.6 Prohibitions: Annex III/Part A

| Scientific Name | Common Name | Plant or Plant Part Affected |
|--------------------------------|------------------|--|
| | Bark | Bark (isolated bark of Conifers [Coniferales]) |
| | Soil | Soil and growing medium as such, which consists in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark, other than that composed entirely of peat. Refer also, AD 1 within Section 4 of this document |
| <i>Abies</i> spp. | Fir | Plants other than fruit and seeds |
| <i>Castanea</i> spp. | Chestnut | Plants with leaves other than fruit and seeds |
| <i>Cedrus</i> spp. | Cedar | Plants other than fruit and seeds |
| <i>Chaenomeles</i> spp. | Flowering quince | Plants intended for planting other than dormant plants free from leaves, flowers and fruit Plants and plant parts (including live pollen) are prohibited entry into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes – except department of Rhone, Bourgogne, Auvergne – except department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands) |
| <i>Chamaecyparis</i> spp. | Cypress | Plants other than fruit and seeds |
| <i>Citrus</i> spp. and hybrids | | Nursery Stock other than fruit and seeds |
| <i>Cotoneaster</i> spp. | | Plants and plant parts (including live pollen), are prohibited entry into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne - except department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands) |
| <i>Crataegus</i> spp. | Hawthorn | Refer <i>Chaenomeles</i> spp. |
| <i>Cydonia</i> spp. | Quince | Refer <i>Chaenomeles</i> spp. |
| <i>Eriobotrya</i> spp. | Loquat | Refer <i>Cotoneaster</i> spp. |
| <i>Fortunella</i> and hybrids | | Nursery Stock other than fruit and seeds |
| <i>Juniperus</i> spp. | Juniper | Plants other than fruit and seeds |
| <i>Larix</i> spp. | Larch | Plants other than fruit and seeds |

| Scientific Name | Common Name | Plant or Plant Part Affected |
|-----------------------------|-------------|---|
| <i>Malus</i> spp. | Apple | Plants intended for planting other than dormant plants free from leaves, flowers and fruit Plants for planting (including budwood) are prohibited entry into Spain, Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria and Finland. Ref.: 4 August 1995 and 17 August 1995, faxes from Mdme Petter, Ministry of Agriculture and Fisheries, France to Kay Shapland Live pollen of <i>Malus</i> Mill, is prohibited into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne – department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands) |
| <i>Mespilus</i> spp. | Medlar | Refer <i>Cotoneaster</i> spp. |
| <i>Picea</i> spp. | Spruce | Plants other than fruit and seeds |
| <i>Pinus</i> spp. | Pine | Plants other than fruit and seeds |
| Poaceae (Gramineae) | | Plants of the family Poaceae (Gramineae), other than plants of ornamental perennial grasses of the subfamilies Bambusoideae, Panicoideae and of the genera <i>Buchloe</i> , <i>Bouteloua</i> Lag., <i>Calamagrostis</i> , <i>Cortaderia</i> Stapf., <i>Glyceria</i> R.Br., <i>Hakonechloa</i> Mak. ex Honda, <i>Hystrix</i> , <i>Molinia</i> , <i>Phalaris</i> L., <i>Shibataea</i> , <i>Spartina</i> Schreb., <i>Stipa</i> L. and <i>Uniola</i> L, intended for planting, other than seeds |
| <i>Poncirus</i> and hybrids | | Nursery Stock other than fruit and seeds |
| <i>Prunus</i> spp. | Plum | Plants intended for planting other than dormant plants free from leaves, flowers and fruit |
| <i>Pseudotsuga</i> spp. | Douglas Fir | Plants other than fruit and seeds |
| <i>Pyracantha</i> spp. | Firethorn | Refer <i>Cotoneaster</i> spp. |

| Scientific Name | Common Name | Plant or Plant Part Affected |
|---|--------------|---|
| <i>Pyrus</i> spp. | Pear | Plants intended for planting other than dormant plants free from leaves, flowers and fruit <i>Pyrus</i> budwood is prohibited entry into Spain, Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria, Finland. <i>Pyrus</i> plants (other than budwood) is prohibited entry into Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes – except department of Rhone, Bourgogne, Auvergne – except department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria, Finland. Ref.: 10 August 1995, fax from Mdme Petter, Ministry of Agriculture and Fisheries, France to Kay Shapland Live pollen of <i>Pyrus</i> L. is prohibited into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne – department of Puy de Dome, Provence-Alpes-Côte d'Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands) |
| <i>Quercus</i> spp. | Oak | Plants with leaves other than fruit and seeds |
| <i>Rosa</i> spp. | Rose | Refer <i>Chaenomeles</i> spp. |
| Solanaceae | | Tubers of spp of <i>Solanum tuberosum</i> and their hybrids Plants of stolon or tuber forming species of <i>Solanum</i> spp. and their hybrids intended for planting Plants of Solanaceae intended for planting, other than seeds |
| <i>Sorbus</i> spp., other than <i>Sorbus intermedia</i> | Mountain ash | Refer <i>Cotoneaster</i> spp. |
| <i>Stranvaesia</i> spp. | | Refer <i>Cotoneaster</i> spp. |
| <i>Tsuga</i> spp. | Hemlock | Plants other than fruit and seeds |
| <i>Vitis</i> spp. | Grape | Plants other than fruits |

| Scientific Name | Common Name | Plant or Plant Part Affected |
|--|-------------|---|
| <p>PART B PLANTS, PLANT PRODUCTS AND OTHER OBJECTS THE INTRODUCTION OF WHICH SHALL BE PROHIBITED IN CERTAIN PROTECTED ZONES</p> <p>1. Without prejudice to the prohibitions applicable to the plants listed in Annex IIIA(9), (9.1), (18), where appropriate, plants and live pollen for pollination of: <i>Amelanchier</i> Med., <i>Chaenomeles</i> Lindl., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Pyracantha</i> Roem., <i>Pyrus</i> L. and <i>Sorbus</i> L., other than fruit and seeds, originating in third countries other than Switzerland and other than those recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. Et al. in accordance with the procedure laid down in Article 18(2), or in which pest free areas have been established in relation to <i>Erwinia amylovora</i> (Burr.) Winsl. et al. in accordance with the relevant International Standard for Phytosanitary Measures and recognised as such in accordance with the procedure laid down in Article 18(2).</p> | | <p>Protected zone(s) E, EE, ◀ F (Corsica), IRL, I (Abruzzi; Apulia; Basilicata; Calabria; Campania; Emilia-Romagna: provinces of Forlì-Cesena (with exclusion of the provincial area situated to the North of the State road n. 9 — Via Emilia) ◀, Parma, Piacenza and Rimini (with exclusion of the provincial area situated to the North of the State road n. 9 — Via Emilia) ◀; Friuli-Venezia Giulia; Lazio; Liguria; Lombardy; Marche; Molise; Piedmont; Sardinia; Sicily; Tuscany; Umbria; Valle d'Aosta; Veneto: except in the province of Rovigo the communes Rovigo, Polesella, Villamarzana, Fratta Polesine, San Bellino, Badia Polesine, Trecenta, Ceneselli, Pontecchio Polesine, Arquà Polesine, Costa di Rovigo, Occhiobello, Lendinara, Canda, Ficarolo, Guarda Veneta, Frassinelle Polesine, Villanova del Ghebbo, Fiesso Umbertiano, Castelguglielmo, Bagnolo di Po, Giacciano con Baruchella, Bosaro, Canaro, Lusina, Pincara, Stienta, Gaiba, Salara, and in the province of Padova the communes Castelbaldo, Barbana, Piacenza d'Adige, Vescovana, S. 2.7 Maximum Pest Limits (MPLs)

Please note; for all commodities exported to the EU requiring MAF phytosanitary certificates, the following levels have been set by MAF to facilitate exports while still meeting the importing country's minimum requirements for specified quarantine pests and soil.

| | |
|---|----------------|
| Quarantine pests* specified by the EU | 0.5% |
| Soil (for all plant products excluding seed for sowing) 25g/600unit or as specified for specific commodities | |
| Soil (seed for sowing) | 0.1% by weight |

*Quarantine pests for the EU include organisms identified within:

- quarantine pests section of this ICPR
- additional declarations
- phytosanitary import permit

2.8 Transit Provisions

Not specified

2.9 Inspection on Arrival

All consignments may be subject to inspection on arrival

3. Commodity Class Requirements

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables (intended for consumption)

Conditions:

Phytosanitary import permit not required. Refer to commodity for specific requirements.

3.1.2 Dried Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

3.1.3 Frozen Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

3.2 Cut Flowers and Foliage

Conditions:

Plant import permit not required. Refer to specific commodity for requirements for a phytosanitary certificate.

3.3 Nursery Stock

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declaration generally required. Letter of Authority may be required, refer Section 2.2.

Refer to commodity specific requirements for Nursery Stock

Additional declarations for plants for planting apply to tissue culture material with the exception of the soil related additional declarations.

Refer to general requirements for Growing Media and Packing Material

If unsure of the requirements for the genus/species or type (i.e. plant, budwood, tissue culture) of nursery stock for export to the European Union listed within the ICPR, contact MAFBNZ before a phytosanitary certificate is issued. However, the import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required unless specified for the commodity.

3.4.2 Entry of seeds for sowing into the UK

Conditions:

Where a consignment of seed destined for the UK has been subjected to a pre-export treatment by a MAF approved Organisation/treatment supplier, the treatment undertaken may be stated on the MAF phytosanitary certificate.

If this option is selected:

- It will enlighten Fera, the UK import phytosanitary inspectors, as to why they may detect dead insects within the consignment, and
- Minimise the chance of Fera requiring a second fumigation.

3.5 Growing Media and Packing Material

Conditions:

Refer general requirements and specific commodity requirements, AD 1

4 Commodity Specific Requirements

4.1 Fresh Fruit and Vegetables

Actinidia deliciosa

Kiwifruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required except for the Canary Islands where it is compulsory.

Allium cepa

Onion

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Allium porrum

Leek

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

The consignment or lot shall not contain more than 1% by weight of soil

Or

The plants are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV

Allium sativum

Garlic

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Annona cherimola

Cherimoya

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Apium graveolens

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and Additional declaration required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

The consignment or lot shall not contain more than 1% by weight of soil

Or

The plants are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV

And

Additional declaration:

“Originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*”

Asparagus spp.

Asparagus

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Beta spp. (except B. vulgaris)

Beetroot, Sugar beet etc

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

The consignment or lot shall not contain more than 1% by weight of soil

Or

The plants are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV

Brassica oleracea var. gemmifera

Brussels sprouts

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Citrus spp.

Citrus

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required. The fruits shall be free from peduncles and leaves and the packaging shall bear an appropriate origin mark.

Additional declaration:

“The fruits originate in a country recognised as being free from *Xanthomonas campestris* (all strains pathogenic to citrus)”

And

“The fruits originate in a country recognised as being free from *Cercospora angolensis* “

And

“The fruits originate in a country recognised as being free from *Guignardia citricarpa* (all strains pathogenic to *Citrus*)”

Cucurbita maxima

Squash

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Cydonia oblonga

Quince

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Cyphomandra betacea

Tamarillo

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Daucus carota

Carrot

Conditions:

Plant import permit not required. Phytosanitary certificate not required.

For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom - the consignment will not gain entry if it contains more than 1% (by weight) of soil.

Diospyros kaki

Persimmon (Japanese)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Fragaria spp.

Strawberry

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Ipomoea batatas

Kumara

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Lens culinaris

Lentil

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Malus sylvestris var. pumila

Apples

Plant import permit not required. Phytosanitary certificate required.

Mangifera indica

Mangoes

Plant import permit not required. Phytosanitary certificate required.

Momordica spp.

Conditions:

Plant import permit not required. Phytosanitary certificate required.

Additional declaration:

“Originate in a country free from *Thrips palmi*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Thrips palmi*”

Ocimum spp.

Conditions: (leafy vegetables of)

Phytosanitary import permit not required. Phytosanitary certificate and Additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

And

“Originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*”

Passiflora edulis

Passionfruit

Conditions:

Plant import permit not required. Phytosanitary certificate required.

Persea americanaAvocado

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Prunus spp.

Stonefruit/Summerfruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and Additional declaration required. For stonefruit arriving in Europe between 15 February and 30 September the following additional declaration must be met.

Additional declaration:

“The fruits have been subjected to appropriate inspection and treatment procedures prior to harvest and/or export to ensure freedom from *Monilinia* spp.”

Psidium spp.

Guava

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Pyrus communis

Pear

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Ribes nigrum

Currant - black

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Solanum tuberosum

Potato (For consumption

only)

Conditions:

Normally prohibited. Please contact the MAFBNZ Plant Exports Team

Solanum melongena

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Thrips palmi*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Thrips palmi*”

Vaccinium corymbosum

Blueberry

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

4.2 Cut Flowers and Foliage

Aster spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Dendranthema spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*”

Dianthus spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*”

Eryngium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Gypsophila spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa*”

And

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Hypericum spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Lisianthus spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Orchidaceae.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from Thrips palmi”

Or

“Immediately prior to their export, have been officially inspected and found free from Thrips palmi”

Pelargonium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Rosa spp.

Roses

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

Solidago spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

And

“Originate in a country free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa* (Malloch)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa*”

Trachelium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)”

Or

“Immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)”

4.3 Nursery Stock

Plants and parts of plants for propagation (other than seeds). Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required where specified.

Refer Section 2.5.2 for Prohibited Items.

| Explanation of Format | |
|--------------------------------|---|
| Bulbs | Refers to bulbs/corms/rhizomes/tubers (without foliage) |
| Plants | Includes whole plants and parts of plants intended for planting other than seed. Check also for other listings i.e. budwood |
| Tissue culture | The growth of plants or plant parts in a clear aseptic medium in a closed transparent container |
| Additional Declarations | |

| | |
|------------|--|
| 2,5,7 | (Numbers in standard text) - compulsory AD's |
| 1,4 | (Numbers in bold text) – ADs are consignment specific |

4.3.1 Requirements for General Plant Groups

General

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required as specified.

Refer also Section 4.3.2, Specific Commodity Requirements

Aquatic Plants

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. All species are required to be accompanied by a phytosanitary certificate certifying the plants have been inspected and found free from prohibited organisms listed in the European Union Quarantine Pest List from Annexes I and II to Council Directive 77/93/EEC refer Section 2.4.

Bonsai

Conditions:

Plant import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

- (a) “the plants, have been grown, held and trained for at least two consecutive years prior to dispatch in officially registered nurseries, which are subject to an officially supervised control regime”

Note: The control regime conditions are as follows – do not identify conditions unless specifically identified as requiring to be stated

- (b) the plants on the nurseries referred to in (a) shall:

at least during the period referred to in (a):

- be potted, in pots which are placed on shelves at least 50 cm above ground,
- have been subjected to appropriate treatments to ensure freedom from non-European rusts: the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate provided for in Article 7 of this Directive under the rubric ‘disinfestation and/or disinfection treatment’.
- have been officially inspected at least six times a year at appropriate intervals for the presence of harmful organisms of concern, which are those in the Annexes to the Directive. These inspections, which shall also be carried out on plants in the immediate vicinity of the nurseries referred to in (a), shall be carried out at least by visual examination of each row in the field or nursery and by visual examination of all parts of the plant above the growing medium, using a random sample of at least 300 plants from a given genus where the number of plants of that genus is not more

than 3 000 plants, or 10 % of the plants if there are more than 3 000 plants from that genus,

- have been found free, in these inspections, from the relevant harmful organisms of concern as specified in the previous indent. Infested plants shall be removed. The remaining plants, where appropriate, shall be effectively treated, and in addition shall be held for an appropriate period and inspected to ensure freedom from such harmful organisms of concern,
- have been planted in either an unused artificial growing medium or in a natural growing medium, which has been treated by fumigation or by appropriate heat treatment and has been of any harmful organisms,
- have been kept under conditions which ensure that the growing medium has been maintained free from harmful organisms and within two weeks prior to dispatch, have been:

shaken and washed with clean water to remove the original growing medium and kept bare rooted

Or

shaken and washed with clean water to remove the original growing medium and replanted in growing medium which meets the conditions laid down in (aa) fifth indent

Or

subjected to appropriate treatments to ensure that the growing medium is free from harmful organisms, the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate provided for in Article 7 of this Directive under the rubric 'disinfestation and/or disinfection treatment '

- be packed in closed containers which have been officially sealed and bear the registration number of the registered nursery; this number shall also be indicated under the rubric additional declaration on the phytosanitary certificate provided enabling the consignments to be identified.

Cactaceae

4.3.2 Specific Commodity Requirements

General

Conditions:

Plant import permit not required. Phytosanitary certificate required. Additional declaration(s) required as indicated.

Section 4.3.3 Appendix 1, provides a key to the most common addition declarations

Please Note

If the species or type (i.e. plant, budwood, tissue culture) of nursery stock for export to the European Union is not listed below please check, if unsure, with MAFBNZ before a certificate is issued. However, the import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

And

Plants, other than those raised from seed, have been:

- (a) Officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for Strawberry latent "C" virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

Or

- (b) Derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for Strawberry latent "C" virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

And

"No symptoms of diseases of diseases caused by Strawberry latent "C" virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma have been observed on the plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete cycle of vegetation"

And

Plants of *Fragaria* spp. intended for planting, other than seeds, originating in countries where *Aphelenchoides besseyi* is known to occur:

"No symptoms of *Aphelenchoides besseyi* have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation"

Or

in the case of plants in tissue culture:

"The plants have been derived from plants, which no symptoms of *Aphelenchoides besseyi* have been observed on at the place of production since the beginning of the last complete cycle of vegetation"

Or

"Plants have been officially tested by appropriate nematological methods and have been found free from *Aphelenchoides besseyi*"

And

Plants intended for planting, other than seeds

“Plants originate in an area known to be free from *Anthonomus signatus* and *Anthonomus bisignifer*”

And

No symptoms of diseases caused by *Phytophthora fragariae* var. *fragariae*, Arabis mosaic virus, Raspberry ringspot virus, Strawberry crinkle virus, Strawberry latent ringspot virus, Strawberry mild yellow edge virus, Tomato black ring virus, *Xanthomonas fragariae* and other non European viruses and virus-like organism have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.

Plants

2,3,6,7
1,4

And

"The plants originate in an area recognised as being free from *Monilinia fructicola* in, and no symptoms of *Monilinia fructicola* have been observed at the place of production since the beginning of the complete cycle of vegetation"

Please Note: New Zealand has no areas recognised by the European Union as being free from *Monilinia fructicola* and therefore New Zealand exporters cannot meet this declaration

And

"The plants in the field of production and in its immediate vicinity, which have shown symptoms of *Erwinia amylovora*, have been rogued out"

And

"No symptoms of diseases caused by *Phyllosticta solitaria* and non-European viruses and virus like organisms have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation"

And

The plants have been

(a) Officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for Cherry rasp leaf virus (American) and Tomato ringspot virus using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

Or

(b) Derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for Cherry rasp leaf virus (American) and Tomato ringspot virus using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

And

“No symptoms of diseases of diseases caused by Cherry rasp leaf virus (American) and Tomato ringspot virus have been observed on the plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete cycle of vegetation”

And

Plants of *Malus* spp. intended for planting, other than seeds, originating in countries where apple proliferation mycoplasma is known to occur:

“The plants originate in areas known to be free from apple proliferation mycoplasma”

Or

The plants, other than those raised from seeds, have been:

Officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests from that harmful organism.

Or

Derived in direct line from material which is maintained under appropriate conditions and subjected, within the last six complete cycles of vegetation, at least once, to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and been found free from the harmful organism.

And

“No symptoms of diseases caused by apple proliferation mycoplasma have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete three cycles of vegetation”

And

“The plants originate in an area recognized as being free from *Monilinia fructicola* and no symptoms of *Monilinia fructicola* have been observed at the place of production since the beginning of the last complete cycle of vegetation”

Please note: New Zealand has no areas recognised by the European Union as being free from *Monilinia fructicola* and therefore New Zealand exporters cannot meet this declaration

And

“No symptoms of diseases caused by *Xanthomonas campestris* pv. *pruni* been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation”

And

“No symptoms of diseases caused by Apricot chlorotic leafroll mycoplasma or non-European viruses and virus-like organisms have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation”

And

Plants of *Prunus* spp. intended for planting:

(a) Originating in countries where the below organisms are known to occur on *Prunus* spp.

Relevant harmful organism:

Tomato ringspot virus

(b) Other than seed, originating in countries where the relevant harmful organisms are known to occur

Relevant harmful organisms:

Cherry rasp leaf virus (American)
Little cherry pathogen
Peach mosaic virus (American)
Peach phony rickettsia
Peach rosette mycoplasma
Peach X disease mycoplasma
Plum line pattern virus (American)

(c) Other than seeds, originating in Non European countries where the relevant harmful organism are known to occur

Relevant harmful organism:

Little cherry pathogen

The plants have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at the relevant organisms using appropriate indicators or equivalent methods and has been found free, in these tests.

Or

The plants have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at the relevant organisms using appropriate indicators or equivalent methods and has been found free, in these tests.

And

“No symptoms of diseases caused by the relevant organisms have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation”

Pseudopanax spp. Lancewood/Fivefinger
Conditions: (incl. *P. arboreus*, *P. crassifolius*, *P. ferox* and *P. laetus*).
 Phytosanitary import permit not required. Phytosanitary certificate required.
 Additional declarations required as identified below.

4.3.3 Appendix of Additional Declarations (AD's)

The import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

1. EU Directive Annex IV A I No.34

Soil and growing medium, attached to or associated with plants, consisting in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark or consisting in part of any solid inorganic substance, intended to sustain the vitality of the plants, originating in Turkey, Belarus, Georgia, Moldova, Russia, Ukraine, and non-European countries, other than Algeria, Egypt, Israel, Libya, Morocco, Tunisia:

Note: “the growing medium at the time of planting ...” only applies when there is soil or growing medium attached to, or associated with, the commodity at the time of import (FERA correspondence 4 August 2010). MAF interprets this as saying it only applies if the roots have not been washed free of soil and have been inspected to confirm this.

“The growing medium, at the time of planting was free from soil, and organic matter”

Or

“The growing medium, at the time of planting was found free from insects and harmful nematodes and subjected to appropriate examination or heat treatment or fumigation to ensure that it was free from other harmful organisms”

Or

“The growing medium, at the time of planting was subjected to appropriate heat treatment or fumigation to ensure freedom from harmful organisms”

And either

“Since planting appropriate measures have been taken to ensure that the growing medium has been maintained free from harmful organisms”

Or

Within two weeks prior to dispatch, the plants were shaken free from the medium leaving the minimum amount necessary to sustain vitality during transport

And,

If replanted, the growing medium used was either:

“Free from soil, and organic matter”

Or

“Found free from insects and harmful nematodes and subjected to appropriate examination or heat treatment or fumigation to ensure that it was free from other harmful organisms”

Or

“Subjected to appropriate heat treatment or fumigation to ensure freedom from harmful organisms”

2. EU Directive Annex IV A I No. 36

Plants intended for planting, other than: bulbs, corms, rhizomes, seeds, and tubers, originating in third countries

Note: *Thrips palmi* is not known to occur in New Zealand

“Plants have been grown in nurseries”

And

“Plants in an area, established in the country of export by the national plant protection service in that country, as being free from *Thrips palmi* Karny in accordance with relevant International Standards for Phytosanitary Measures”

Or

“Plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Thrips palmi* Karny in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Thrips palmi* Karny on official inspections carried out at least monthly during the three months prior to export”

Or

“Immediately prior to export, the plants have been subjected to an appropriate treatment against *Thrips palmi* Karny and have been officially inspected and found free from *Thrips palmi* Karny “

3. EU Directive Annex IV A I No.46

Plants intended for planting, other than; seeds, bulbs, tubers, corms, and rhizomes

“No symptoms of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci* Genn. have been observed on the plants during an adequate period”

And either

“The plants originate in areas known to be free from *Bemisia tabaci* Genn. and other vectors of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci* Genn”

Or

“The place of production has been found free from *Bemisia tabaci* Genn. and other vectors of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci* Genn. on official inspections carried out at appropriate times”

Or

“The plants have been subjected to an appropriate treatment aimed at eradicating *Bemisia tabaci* Genn.”

**4. EU Directive Annex IV A I No.33
Plants with roots, planted or intended for planting, grown in the open air:**

“The place of production is known to be free from *Clavibacter michiganensis* pv. *sepedonicus*, *Globodera pallida*, *Globodera rostochiensis* and *Synchytrium endobioticum*”

**5. EU Directive Annex IV A I No.43
Plants of the bonsai-type, intended for planting, other than seeds originating in non-European countries**

Refer to Section 4.3.1 for entry conditions

**6. EU Directive Annex IV A I No.39
Trees and shrubs, intended for planting, other than seeds and plants in tissue culture:**

“The plants are clean (i.e. free from plant debris) and free from flowers and fruits, have been grown in nurseries and have been inspected at appropriate times and prior to export and found free from symptoms of harmful bacteria, viruses and virus-like organisms, and either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms”

Definition of “nursery” – Premises wholly or partly used for the cultivation or keeping of plants for the purpose of transplantation or removal to other premises (Reference Plant Health (England) Order 2005).

**7. EU Directive Annex IV A I No.40
Deciduous trees and shrubs, intended for planting, other than seeds and plants in tissue culture:**

“The plants are dormant and free from leaves”

**8. EU Directive Annex IV A I No.32.1
Plants of herbaceous species, intended for planting, other than: bulbs, corms, plants of the family *Poaceae* (*Gramineae*), rhizomes, seeds, and tubers, originating in third countries where *Liriomyza sativae* and *Amauromyza maculosa* are known to occur.**

Note: *Liriomyza sativae* and *Amauromyza maculosa* not known to occur in New Zealand

Plants have been grown in nurseries and:

“Originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Liriomyza sativae* and *Amauromyza maculosa* in accordance with relevant International Standards for Phytosanitary Measures”

Or

“Originate in a place of production, established in the country of export

by the national plant protection service in that country, as being free from *Liriomyza sativae* and *Amauromyza maculosa* in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Liriomyza sativae* and *Amauromyza maculosa* on official inspections carried out at least monthly during the three months prior to export”

Or

“Immediately prior to export, have been subjected to an appropriate treatment against *Liriomyza sativae* and *Amauromyza maculosa* and have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*”

Note: Definition of Herbaceous – plants without woody stems
(Definition received from DEFRA 31.03.03)

**9. EU Directive Annex IV A I No.41
Annual and biennial plants, other than *Poaceae* (*Gramineae*),
intended for planting, other than seeds:**

“The plants have been grown in nurseries and are free from plant debris, flowers and fruits, have been inspected at appropriate times and prior to export, and found free from symptoms of harmful bacteria, viruses and virus-like organisms, and either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms”

**10. EU Directive Annex IV A I No.8.1
Plants of Coniferales:**

“The plants have been produced in and the place of production is free from *Pissodes* spp. (non-European)”

**11. EU Directive Annex IV A I No.8.2
Plants of Coniferales over 3 m in height:**

“The plants have been produced in nurseries and the place of production is free from *Scolytidae* spp. (non-European)”

**12. EU Directive Annex IV A I No.37
Plants of Palmae, intended for planting other than seeds,
originating in non-European countries.**

(a) either the plants originate in an area known to be free from Palm lethal yellowing mycoplasma and Cadang-Cadang viroid, and no symptoms have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation;

or

(b) no symptoms of Palm lethal yellowing mycoplasma and Cadang-Cadang viroid have been observed on the plants since the beginning of the last complete cycle of vegetation, and plants at the place of production which have shown symptoms giving rise to the suspicion of contamination by the organisms have been rogued out at that place and the plants have undergone appropriate treatment to rid them of *Myndus crudus* Van Duzee;

(c) in the case of plants in tissue culture, the plants were derived from plants which have met the requirements laid down in (a) or (b)

Note: Palm lethal yellowing mycoplasma and Cadang-Cadang viroid are not known to occur in New Zealand

13. **EU Directive Annex IV A I No.37.1**
For plants of Palmae intended for planting having a diameter of the stem at the base of over 5cm and belonging to the following genera; *Brahea*, *Butia*, *Chamaerops*, *Jubaea*, *Livistona*, *Phoenix*, *Sabal*, *Syagrus*, *Trachycarpus*, *Trithrinax*, *Washingtonia*):

(a) either the plants;have been grown throughout their life in a country where *Paysandisia archon* (Burmeister) is not known to occur;

or

(b) have been grown throughout their life in an area free from *Paysandisia archon* (Burmeister), established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures;

or

(c) have, during a period of at least two years prior to export, been grown in a place of production:

- which is registered and supervised by the national plant protection organisation in the country of origin, and
- where the plants were placed in a site with complete physical protection against the introduction of *Paysandisia archon* (Burmeister) or with application of appropriate preventive treatments, and
- where, during three official inspections per year carried out at appropriate times, including immediately prior to export, no signs of *Paysandisia archon* (Burmeister) have been observed.

Note: Palm lethal yellowing mycoplasma and Cadang-Cadang viroid are not known to occur in New Zealand

14. **EU Directive Annex IV A I No.44**
For herbaceous perennial plants intended for planting (other than seeds) of the families Caryophyllaceae (except *Dianthus* L.), Compositae (except *Dendranthema* (DC.) Des Moul.), Cruciferae, Leguminosae and Roseaceae (except *Fragaria* L.)

“The plants have been grown in nurseries”

And

“Plants are free from plant debris, flowers and fruits, have been inspected at appropriate times prior to export and found free from symptoms of harmful bacteria, viruses, and virus-like organisms”

And either:

“Plants have been found free of signs or symptoms of harmful nematodes, insects, mites, and fungi”

Or:

“Plants have been subjected to appropriate treatment to eliminate such organisms”

15. **EU Directive Annex IV A I No.32.3**
Plants of herbaceous species, intended for planting, other than; bulbs, corms, plants of the family *Poaceae* (*Gramineae*),

rhizomes, seeds and tubers; originating in third countries:

“The plants originate in an area known to be free from *Liriomyza huidobrensis* and *Liriomyza trifolii*”

Or

“No signs of *Liriomyza huidobrensis* and *Liriomyza trifolii* have been observed at the place of production, on official inspections carried out at least monthly during the three months prior to harvesting”

Or

“Immediately prior to export, the plants have been officially inspected and found free from *Liriomyza huidobrensis* and *Liriomyza trifolii* and have been subjected to an appropriate treatment against *Liriomyza huidobrensis* and *Liriomyza trifolii*”

Note: *Liriomyza huidobrensis* and *Liriomyza trifolii* are not known to occur in New Zealand

**16. EU Directive Annex IV A I No.45.1
Plants of herbaceous species and plants of *Ficus* L. and *Hibiscus* L., intended for planting; other than; bulbs, corms, rhizomes, seeds and tubers; originating in non-European countries:**

“Originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* Genn. (non-European populations) in accordance with relevant International Standards for Phytosanitary Measures”

Or

“Originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* Genn. (non-European populations) in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Bemisia tabaci* Genn. (Non-European populations) on official inspections carried out at least once each three weeks during the nine weeks prior to export”

Or

In cases where *Bemisia tabaci* Genn. (Non-European populations) has been found at the place of production, are held or produced in this place of production:

“The plants have undergone an appropriate treatment to ensure freedom from *Bemisia tabaci* Genn. (Non-European populations) and the place of production has been found free from *Bemisia tabaci* Genn. (non-European populations) as a consequence of the implementation of appropriate procedures aiming at eradicating *Bemisia tabaci* Genn. (Non-European populations), in both official inspections carried out weekly during the nine weeks prior to export and in monitoring procedures throughout the said period”

**17a. EU Directive Annex IV A I Nos; 27.1;
Plants of *Dendranthema*, *Dianthus* L. and *Pelargonium* intended for planting, other than seeds.**

(a) no signs of *Heliothis armigera* Hübner, or *Spodoptera littoralis* (Boisd.) have been observed at the place of production since the beginning of the last complete cycle of vegetation

or

(b) the plants have undergone appropriate treatment to protect them from the said organisms.

**17b. EU Directive Annex IV A I Nos; 27.2;
Plants of *Dendranthema*, *Dianthus* L. and *Pelargonium* intended for planting, other than seeds.**

(a) no signs of *Spodoptera eridiana* Cramer, *Spodoptera frugiperda* Smith, or *Spodoptera litura* (Fabricius) have been observed at the place of production since the beginning of the last complete cycle of vegetation

or

(b) the plants have undergone appropriate treatment to protect them from the said organisms.

**17c. EU Directive Annex IV A I Nos; 29;
Plants of *Dianthus* L. intended for planting, other than seeds.**

"The plants must be derived in direct line from mother plants which have been found free from *Erwinia chrysanthemi* pv *dianthicola*, *Pseudomonas caryophylli* and *Phialophora cinerescens* with officially approved tests carried out at least once within the last two years"

And

"no signs of the above harmful organisms have been observed on the plants"

And

"no signs of *Heliothis armigera* or *Spodoptera littoralis* have been observed at the place of production since the beginning of the last complete cycle of vegetation"

Or

"the plants have undergone appropriate treatment to protect them from the said organisms" AND

"no signs of *Spodoptera eridiana* or *Spodoptera frugiperda* or *Spodoptera litura* have been observed at the place of production since the beginning of the last complete cycle of vegetation"

Or

"the plants have undergone appropriate treatment to protect them from the said organisms"

**17d. EU Directive Annex IV A I Nos; 28;
Plants of *Dendranthema*, intended for planting, other than seeds.**

(a) the plants are no more than third generation stock derived from material which has been found to be free from Chrysanthemum stunt viroid during virological tests, or are directly derived from material of which a representative sample of at least 10 % has been found to be free from Chrysanthemum stunt viroid during an official inspection carried out at the time of flowering;

(b) the plants or cuttings:

— have come from premises which have been officially inspected at

least

monthly, during the three months prior to dispatch and on which no

symptoms

of *Puccinia horiana* Hennings have been known to have been observed during that period, and in the immediate vicinity of which no symptoms of *Puccinia horiana* Hennings have been known to have occurred during the three months prior to export, 2000L0029 —EN — 19.07.2007 — 014.002— 79

Plants, plant products and other objects Special requirements
or
— have undergone appropriate treatment against *Puccinia horiana*
Hennings;

(c) in the case of unrooted cuttings, no symptoms of *Didymella ligulicola* (Baker, Dimock and Davis) v. Arx were observed either on the cuttings or on the plants from which the cuttings were derived, or that, in case of rooted cuttings, no symptoms of *Didymella ligulicola* (Baker, Dimock and Davis) v. Arx were observed either on the cuttings or on the rooting bed.

**18. EU Directive Annex IV A I Nos; 11.1
Plants of *Castanea* Mill. and *Quercus* L., other than fruit and seeds, originating in non-European countries**

Without prejudice to the prohibitions applicable to the plants listed in Annex III(A)(2) and IV (A)(I)(11.01.), official statement that no symptoms of *Cronartium* spp. (non-European) have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation.

**19. EU Directive Annex IV A I Nos; 11.2
Plants of *Castanea* Mill. and *Quercus* L., intended for planting, other than seeds**

Without prejudice to the provisions applicable to the plants listed in Annex III(A)(2) and IV (A)(I)(11.1), official statement that: (a) the plants originate in areas known to be free from *Cryphonectria parasitica* (Murrill) Barr;
or
(b) no symptoms of *Cryphonectria parasitica* (Murrill) Barr have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation.

4.4 Seeds, Grains and Nuts

4.4.1 Seeds, Grains and Nuts for Sowing

Allium ascalonicum

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium cepa

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium porrum

Leek

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium schoenoprasum

Chives

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium spp.

Onion family

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Capsicum spp.

Capsicum/Chilli peppers

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Cruciferae

Crucifers

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"The seed is free of *Listronotus bonariensis*"

Helianthus annuus

Sunflower

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"The seeds originate in areas known to be free from *Plasmopara halstedii*"

Or

"The seeds, other than those seeds that have been produced on varieties resistant to all races of *Plasmopara halstedii* present in the area of production have been subjected to an appropriate treatment against *Plasmopara halstedii*"

Hordeum vulgare

Barley

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"The seed is free of *Listronotus bonariensis*"

Lycopersicon esculentum

Tomato

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"The seeds have been obtained by means of an appropriate acid extraction method or an equivalent method approved in accordance with community requirements"

And

Seeds originate in areas where *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid are not known to occur"

Or

No symptoms of diseases caused by *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid have been observed on the plants at the place of production during their complete cycle of vegetation"

Or

Seeds have been subjected to official testing for at least *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid, on a representative sample and using appropriate methods, and have been found, in these tests, free from those harmful organisms"

Medicago sativa

Lucerne (Alfalfa)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“No symptoms of *Ditylenchus dipsaci* have been observed at the place of production since the beginning of the last complete cycle of vegetation and that no *Ditylenchus dipsaci* have been revealed by laboratory tests on a representative sample”

Or

“Fumigation has taken place prior to export”

And

“*Clavibacter michiganensis ssp.insidiosus* has not been known to occur on the farm or in the immediate vicinity since the beginning of the past 10 years”

And either

“The crop belongs to a variety recognised as being highly resistant to *Clavibacter michiganensis ssp.insidiosus*”

Or

“Crop has not yet started its fourth complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop”

Or

“The content of inert matter which has been determined in accordance with the rules applicable for certification of seed was marketed in the Community, does not exceed 0.1 % by weight”

And

“No symptoms of *Clavibacter michiganensis ssp.insidiosus* have been observed at the place of production or on any *Medicago sativa* crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation”

And

“The crops has been grown on land on which no previous *Medicago sativa* crop has been present during the last three years prior to sowing”

Oryza sativa

Rice

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seeds have been tested by the appropriate nematological tests and found free from *Aphelenchoides besseyi*”

Or

“The seeds have been subjected to an appropriate hot water treatment against *Aphelenchoides besseyi*”

And

“The seed is free of *Listronotus bonariensis*”

Phaseolus spp.

Bean

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seeds originate in a country known to be free from *Xanthomonas campestris* pv. *phaseoli*”

Or

“A representative sample of the seeds has been tested and found free from *Xanthomonas campestris* pv. *phaseoli* in these tests”

Pinus spp.

Pine

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required.

Additional declaration:

“The specified seeds and/or cones originate in a place of production which is registered and supervised by MAFBNZ”

and

“The seeds and/or cones have been grown throughout their life where *Fusarium circinatum* (syn *Gibberella circinata*) is not known to occur;

or

“The seeds and/or cones have been grown throughout their life in a pest-free area, established by MAFBNZ”

or

“The seeds and/or cones originate in a place of production where no signs of *Fusarium circinatum* (syn *Gibberella circinata*) have been observed during official inspections within a period of two years prior to export and have been tested immediately prior to export”

Poaceae (Gramineae)

Grasses

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seed is free of *Listronotus bonariensis*”

Prunus spp.

Stonefruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Pseudotsuga menziesii

Douglas Fir

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required.

Additional declaration:

“The specified seeds and/or cones originate in a place of production which is registered and supervised by MAFBNZ”

and

“The seeds and/or cones have been grown throughout their life where *Fusarium circinatum* (syn *Gibberella circinata*) is not known to occur;

or

“The seeds and/or cones have been grown throughout their life in a pest-free area, established by MAFBNZ”

or

“The seeds and/or cones originate in a place of production where no signs of *Fusarium circinatum* (syn *Gibberella circinata*) have been observed during official inspections within a period of two years prior to export and have been tested immediately prior to export”

Rubus spp.

Berryfruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Trifolium spp.

Clover

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seed is free of *Listronotus bonariensis*”

Triticum spp.

Wheat

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seed is free of *Listronotus bonariensis*”

Zea mays

Maize

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“The seed is free of *Listronotus bonariensis*”

And

“The seed originated in areas known to be free from *Erwinia stewartii*”

Or

“A representative sample of the seeds has been tested and found free from *Erwinia stewartii*”

4.5 Growing Media and Packing Material
