

# Sign on : Against GE Trees in New Zealand

The Proposed National Environmental Standard for Plantation Forestry will override any Council precautionary GE provisions placed in their plans.

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

Signed,

Name or Organisation	City	Email	Phone	Comments
Lisa Er	[REDACTED]	[REDACTED]		KEep NZ GE free
philip hurring	[REDACTED]	[REDACTED]		New Zealand has a UNIQUE opportunity to be a fully biodiverse and plentiful nation. Introducing GE trees or ANY GE plants or agricultural grasses into OUR natural environment is utter stupidity when the rest of the world is now moving to GET RID of GE.
Vincent Rowe	[REDACTED]	[REDACTED]	[REDACTED]	Genetic Engineering is insults Mother Earth and Nature.
Monique Olivier	[REDACTED]	[REDACTED]		
Anita	[REDACTED]	[REDACTED]		
Buchanan Cullen	[REDACTED]	[REDACTED]	[REDACTED]	
Karen Summerhays	[REDACTED]	[REDACTED]		It\'s not just the trees themselves but the associated practices of growing agrichemical resistant trees eg incresaed chemical useage and resistant weeds.. don\'t believe the research institutions when they tell you that there is money to be made in GE trees ..or any crop for that matter!
Beverley Gott	[REDACTED]	[REDACTED]		No to all GE ..no to GE in our environment.. keep our democracy on the decision, let our councils duristic as the people request!
Jenny Kirk	[REDACTED]	[REDACTED]	[REDACTED]

Signed,

Ro Organic Brewery				unwaged but want to support
John Whyten				The Science of Genetic Modification is fundamentally flawed. Scientifically based controversy as to both the fundamentals, applications as regards efficacy, safety, ecological risks and injustices and the self-evidence of the irreversibility of environmental genetic pollution (the final pollution as it were) demands a complete moratorium on all direct and indirect GMOs. On the positive side New Zealand\'s relative isolation could enable it to become absolutely unique as a Nation that can market its domestic products as being absolutely GMOs Free.
Noelene Coughlin				
Stephanie May				Anything GE is dangerous and we don\'t want it.

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

Signed,

Aline				Stop GE trees!!!!!!
Paola				Stop spreading genetically modified plants, animals and food around the world. Don't you see the serious damage that it causes to the environment and to us?!!
Juliana Dodds				We don't need this poison bad for us can cause lots of sickness also will kill our exportation too terrible idea
Dr Tony Minervino, DC				This is an environmentally important issue. Many theories about GMO are wrong and their safety has not been established and proven - and I doubt it ever can be. It is dangerous to rush into the application of these theories without knowing and properly assessing their long term impact on our environment and our lives. Dr Tony Minervino, DC
alice fraser				Hi amy
Amy Wells				Hi Alice
peter merrick				no 2 ge
Charles				Releasing such material has been proved to be like opening Pandora's Box. No one knows what horrors could be unleashed. This genetic material may make wilding pines an even bigger problem, there could be a predisposition to disease heretofore not considered that could infect other plantations and could destroy the landscape

Signed,

Triona				No gm trees, seeds, plants .. No gm anything in our country!!!!
Paul i Hickman				Stop GE Trees
Ian Drower				There has been little proven benefit to GM anything. why not look at the issue of waste..
Peter van Anandel				Grow Industrial hemp .. end of problem .. No to GE acceptable!
Corina Haselhoff				GE Trees - Ridiculous
Ginny Jones				Plant more natural trees
Kathleen Haskell				I am a real person
Alvina Edwards				NO to GE trees
Kate Biddle				Let\'s keep Aotearoa clean and healthy do not let mayhem reign freely!!!
Catherine McCarthy				Keep our pioneering and independent country GE free.
Andy blick				Pine pollen is a huge distributor of nutrients in the environment. Lots of native plants and animals benefit from it..absolute blindness to neuter trees for the sake of the \$.
tony archer				No way are we allowing this
Paul Larkin				The science behind G.E crops & produce has never been proven safe or provide benefits to our country & its ecosystems & never will,please keep our trees natural, & our birds & bees safe from harm.
Jeremy Whitham				Stay with status quo until more research completed...

Signed,

Ian Cole				The moratorium on GE and GMO\'s . Reseach should only continue within stickly quarantined areas and only on research that can benefit human health.. NZ can make more from it\'s agriculture and horticulture if it\'s greener and more natural than other trading nations, selling a quality product, to high end market users, for top dollar. Also underlines the clean green NZ image promoted overseas for Tourism and emigration
Sian Clement				I reject all GE trees outright
Dean Brown				Part of our uniqueness is being clean and green. GE free is a huge part of that image. Dairy/forestry are huge contributors to tarnishing that image, and now seem intent on destroying it completely. If you can\'t see the economic stupidity of this, you can\'t see the woods for the trees.
fiona clements				I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
Jeanne Wright				NO
Michael king				Be natural be green
steven and lesley schick				The government does not listenâ€¦; a comment is pointless!!!!
Amy Danks				G.E FREE!!!!!!!

Signed,

Nedina Hohaia				Stop GE TRees now
David Famularo				No GE trees!
Sapphire Jolley				Seriously just stop with the stupid
Luke Goodwin				Not a good idea
Pamela booth				trrees are already perfect - we don\'t need to modify them!
Gregor				We said not to GE already!
Elaine Bainbridge				A dangerous and crazy experiment, promoted by those only interested in profit. Shonky so-called science could wreck this beautiful country.
Simone				We are stupid to think we can solve a man made problem with a man made solution. Nature put those trees on this earth and all the holistic healing properties are in front of us to use. We don\'t need to genetically engineer anything.
Alan Webster				.
Ron Lopert				A precautionary avoidance approach must be adopted in the release of GE into the environment. There exists too much scientific uncertainty about the effects of such technology and the consequences are too serious to do anything else.
Ngaire Clarke				No GE plants or experiments wanted in Aotearoa!

Roberta Risk				Let\'s plant and propogate many many more natives and ones that grow for hundreds of years. All along roadsides (safely ) and reserves and anywhere space is donated or free.
Tiffany Van Domelen				Do not allow GE trees in NZ!
Dieter Riedel				GE is not the way to a sustainable and healthy future.

# Sign on : Against GE Trees in New Zealand

The Proposed National Environmental Standard for Plantation Forestry will override any Council precautionary GE provisions placed in their plans.

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

Signed,

Ferdinand zu Bentheim				stop giving control to corporations who have no interest in the common good of the people
Philippa				GE will be the downfall to this amazing countries flora and fauna. The Gov should protect them by ensuring that GE plants are kept away from our borders.
Leah Letitia				We must never support the energy of GE trees in our beautiful country - never!!
paul				NO TO GE GMO AND ALL THAT BAD STUFF!
Kris Frew				This is not your decision to make think again
Bull				agree
Stephen Richardson				No GMOs in NZ.
Melanie Wallis		m		stop the GE trees
Rebecca McBride				no ge trees in nz
Galia Simantov				Strongly opposed
Jenn Robinson				NO GE TREES! NO GE FOOD! NO GE IN NZ AT ALL!!
Catherine Tomkins				There is no going back from this.
machanek				NO GE IN WHATEVER OR WHEREVER
Starlette Veens				We do not need GE trees in NZ.
Sanna Keronen				Keep NZ GE free!
Tomo Takaku				No GE trees for New Zealand.
Maren				We don\'t need this s#%t here in

Signed,

				NZ!
Lucy				No way
Catherine Stevens				It would be so very nice if the government genuinely and consistently endeavoured to behave as the guardian that it has been elected to be. Since the planet has managed without genetically modified organisms for millions of years, it hardly seems likely that there is a pressing need for them now. How about we don't play Russian Roulette with our future?
Rosemary Edwards				Keep N.Z. GE free please...
Emma Heke				NZ = GE FREE
Sarah				GE FREE NZ
cherie roberts				This is stupid beyond belief nz government is trying to turn us to another stuffed state of the us , wheres our unique idenity stop the life ruining ideas that ge anything is ever goid
Vicky				Keep Our Land GE Free
Mimi Hausmann				Keep this World a liveable place.
James Waterson				GE is the antithesis of the Pure NZ ethos.
Jessica				We should be planting native trees. We already have issues wanting to cut down trees too!
Helen Varley Jamieson				keep NZ GE-free!!
Justine Peacock				Stop GE Trees!

Stephen Benner				Uphold the people's wishes for a GE-free New Zealand.
Thelma van der Werff				No GE Trees in NZ!
Peter Russell				GM is at best experimental and the public will pay the price for the inevitable mishaps
abby gubay				Nz is not an experimental ground for companies. How can you fine a tourist \$400 for bringing a jar of honey and let in GE seeds?
Robin Williamson				Nature knows waaaay better than us, always has!
Christine				More money over sense? More degradation of nature? Have you not woken up yet? Do you really think you are immune to the travesties you perpetrate? This is idiocy at it's best. Leave what's left of New Zealand alone! These trees pose a very real threat to our environment and ecosystems!
Aly Learmonth				Say no to GE.
Tasha Dutra				Please protect our future and the environment and stop ANY GE TREES, PLANTS OR FOODS FROM entering Nz
nicolette gladding				What a giant leap backwards this would be!
Mason smith				Save our beautiful trees x
STEPHANIE SINCLAIRE				further insanity and disruption of the eco-system
Elizabeth				I am a NZer and want a GE free NZ to come home to.
jehoiada				please don't plant GE trees in

# Sign on : Against GE Trees in New Zealand

The Proposed National Environmental Standard for Plantation Forestry will override any Council precautionary GE provisions placed in their plans.

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

Signed,

williams-bourke				newzealand
Nadeane Charleton				No to GE trees.
Caro Rennebeck				There is no plausible reason why New Zealand should enter the destructive and uncertain game of GM's in any kind. I found it foolish to believe that Gene Modification will not harm the whole...understanding nature in its habbitat, human caused destruction and universal law and force it will be NZ that could be the leader on a real integrated green clean successful way of life if the debate around GM would be declined once for all! NO GM IN NZ! thankx
Wayne Shepherd				GE is an affront to Veda - The Totality of Natural Law. Man in ignorance does not know what he is doing. GE is based on partial knowledge - ignorant of the total knowledge of Natural Law (Veda) that governs the Universe.
Sarah de Reeper				All GE should be banned especially in NZ and especially in our food!!
Michelle Black				NO G.E. trees in NZ!!!! we must preserve the naturally evolved species unique to NZ
Darren Peihopa				Fuck ge
Ian Clarke				New Zealand\'s \"clean, green\" image is fast disappearing.
Eben Wilson				Please don\'t risk our beautiful natural environment
Liane Rottnick				Please keep New Zealand GE free

Signed,

Joanne Adams				We should not implement legislation that overrides and ignores the wishes of local people, and has a completely unknown impact on the environment. The concern should be about protecting our native trees, which are unique and sustain our indigenous wildlife. Again this government is showing a shortsighted view, which advances their interests of industry at the expense of the environment. Show some regard for future generations, instead of protecting overseas industry interests. Economic strength and environmental protection do not have to be an 'either/or' concern. Show some creative intelligence!
Helen Falla				stop GE trees!!
Jessica				The trees we have are the ones I want, no to gm trees
Helen Parkes				Do not risk our natural environment by allowing GE modified flora.
Andrea Bruce				Give NZ'ers a chance to decide on GE trees in a democratic manner
Charissa Snijders				New Zealand is unique - we have been given a gift being as isolated as we are from other countries - we should be strategically using this and doing everything possible to ensure that we are GE free - this will ultimately bring both economic and health benefits to us all.

Nelson John Peet	[REDACTED]	[REDACTED]	[REDACTED]	I haven\'t seen any risk analysis of this project. Is there one?
D S Andrew	[REDACTED]	[REDACTED]		Simply NOT Worth the Risk for our environment or our reputation.
Te Awhina	[REDACTED]	[REDACTED]		I say NO to genetically engineered trees genetically engineered anything in New Zealand. STOP.
Sally Randell	[REDACTED]	[REDACTED]		Stop screwing around with Nature, she knows best, leave her to do her good work !!!
Helen Falla	[REDACTED]	[REDACTED]		Stop GE trees they are of no use whatsoever!
Heather Kennard	[REDACTED]	[REDACTED]ard@btinternet.com		Definitely not genetically engineered trees!!!
Steve Goldthorpe	[REDACTED]	[REDACTED]		I am most concerned about the indicated aims of genetic modification of trees, particularly pine trees. It is my understanding that the primary aim og GE trees is to increase the yield of pulp logs for export. That trade makes New Zealand a simple primary producer of low value wood fibre , which does not provide the sort of high added-value activity that New Zealand needs for economic development. Furthermore, moves in that direction would risk making NZ timber less amenable to the productiono of high quality structural lumber, which is a commodity that leads to substantial added-value to the NZ economy. Pinus radiata from Northland is prized for its

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.

The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

# Sign on : Against GE Trees in New Zealand

The Proposed National Environmental Standard for Plantation Forestry will override any Council precautionary GE provisions placed in their plans.

This will effectively remove our existing, sensible controls that protect our communities against the potentially catastrophic release of genetically engineered trees into our environment.

## STOP GE TREES!

I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so.

I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.

Name	City	Comments
Lisa Er	Auckland	Keep New Zealand GE free
Claire Bleakley	Featherston	GE trees will destroy the environmental ecosystems and integrity of New Zealand
Gary Cranston	Auckland	<p>GE trees are a critical part of the ongoing, dangerous push to promote bioenergy, synthetic biology and the bioeconomy. The monopolization of land and water to grow GE tree plantations to replace a small percentage of fossil fuels will come at high costs, including worsening human rights abuses, accelerating loss of terrestrial biodiversity, and intensifying global water, food and climate crises. New Zealand should play its part in addressing the climate crisis by promoting real solutions that work for everyone.</p>
Murray Stentiford	Auckland	<p>GE use will inevitably spread through the New Zealand environment, and detract from the green, clean image that so much of our trade is based on. We don't want GE, and government needs to back off and not meddle with local authorities so much.</p>
Janene Homan	Kaikoura	No Way ! Never Ever any GE here in Aotearoa

Name	City	Comments
Tamara Cartwright	Nelson	We are a GE Free nation. Please keep it this way. There is plenty of evidence that the current way GE is done is damaging to the environment, to people to the ecology. Thank you!
Cheryl Toka	Kaitaia	Keep Nz GE free (& trees!)
David Belton	Wellington	There is no need.
Tanya Townsend	Christchurch	Stop GE Trees!
Katya	Wellington	Stop trying to make everything the same as others! We cannot risk this country on going as damaged and toxic as the rest in the world. I am for South America, I know what I am talking about. Thanks
Aline	Auckland	Stop GE trees!!!!!!
Paola	Wellington	Stop spreading genetically modified plants, animals and food around the world. Don't you see the serious damage that it causes to the environment and to us?!!
Juliana Dodds	Wanganui	We don't need this poison bad for us can cause lots of sickness also will kill our exportation too terrible idea
Viv MacFarlane	Hastings	I am strongly against the release of GE tree's. I am also against any change in the law taking away local council control over any GE release.
Dr Tony Minervino, DC	Kaitaia	This is an environmentally important issue. Many theories about GMO are wrong and their safety has not been established and proven - and I doubt it ever can be. It is dangerous to rush into the application of these theories without knowing and properly assessing their long term impact on our environment and our lives. Dr Tony Minervino, DC
alice fraser	palmerston north	Hi amy
Amy Wells	Palmerston North	Hi Alice
peter merrick	auckland	no 2 ge

Name	City	Comments
Charles	Auckland	Releasing such material has been proved to be like opening Pandora\'s Box. No one knows what horrors could be unleashed. This genetic material may make wilding pines an even bigger problem, there could be a ppredisposition to disease heretofore not considered that could infect other plantations and could destroy the landscape
Triona	Auckland	No gm trees, seeds, plants .. No gm anything in our country!!!!
Paul i Hickman	Auckland	Stop GE Trees
Ian Drower	Auckland	There has been little proven benefit to GM anything. why not look at the issue of waste..
Beverley Gott	Whangarei	Absolutely no GE Acceptable! Nature Knows best!! We should learn from it not bastardise it for greed!
Dawn Shapira	Huntly	IT
Peter van Andel	Whangarei	Grow Industrial hemp .. end of problem .. No to GE acceptable!
Corina Haselhoff	Auckland	GE Trees - Ridiculous
Ginny Jones	Auckland	Plant more natural trees
Kathleen Haskell	Wanganui	I am a real person
Alvina Edwards	Hamilton	NO to GE trees
Kate Biddle	Whakatane	Let\'s keep Aotearoa clean and healthy do not let mayhem reign freely!!!
Catherine McCarthy	Hamilton	Keep our pioneering and independent country GE free.
Andy blick	wellington	Pine pollen is a huge distributor of nutrients in the environment. Lots of native plants and animals benefit from it..absolute blindness to neuter trees for the sake of the \$.
tony archer	Palmerston North	No way are we allowing this
Tricia Cheel	Browns Bay	Where will thisi petition be presented???
Paul Larkin	Auckland	The science behind G.E crops & produce has never been proven safe or provide benefits to our country & its ecosystems & never will,please keep our trees natural, & our birds & bees safe from harm.
Mapu	Hamilton	This is extremely bad for our enviroment!!!!!!
Jeremy Whitham	Whakatane	Stay with status quo until more research completed...

Name	City	Comments
Ian Cole	Westport	The moratorium on GE and GMO\'s . Reseach should only continue within stickly quarantined areas and only on research that can benefit human health.. NZ can make more from it\'s agriculture and horticulture if it\'s greener and more natural than other trading nations, selling a quality product, to high end market users, for top dollar. Also underlines the clean green NZ image promoted overseas for Tourism and emigration
Sian Clement	Takaka	I reject all GE trees outright
Dean Brown	Auckland	Part of our uniqueness is being clean and green. GE free is a huge part of that image. Dairy/forestry are huge contributors to tarnishing that image, and now seem intent on destroying it completely. If you can\'t see the economic stupidity of this, you can\'t see the woods for the trees.
fiona clements	dunedin	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
Jeanne Wright	Forrest Hill	NO
Michael king	Auckland	Be natural be green
steven and lesley schick	kaitaia	The government does not listenâ€¦ a comment is pointless!!!!
Amy Danks	Nelson	G.E FREE!!!!!!!
Nedina Hohaia	New Plymouth	Stop GE TRees now
David Famularo	Featherston	No GE trees!
Sapphire Jolley	Rotorua	Seriously just stop with the stupid
Luke Goodwin	Hastings	Not a good idea
Gwydyon app Vine	Nelson	This is bad science and should be banned completely !!
Pamela booth	wellington	trrees are already perfect - we don\'t need to modify them!
Gregor	Wellington	We said not to GE already!
Elaine Bainbridge	Auckland	A dangerous and crazy experiment, promoted by those only interested in profit. Shonky so-called science could wreck this beautiful country.

Name	City	Comments
Simone	Auckland	We are stupid to think we can solve a man made problem with a man made solution. Nature put those trees on this earth and all the holistic healing properties are in front of us to use. We don\'t need to genetically engineer anything.
Alan Webster	Mangaweka	.
linda grammer	whangarei	<p>Our farming family opposes the outdoor use of GMOs, due to the risks to our biosecurity, unique biodiversity, existing non GM primary producers, our Forest Stewardship Council forestry blocks (the FSC is the international global certification body for truly sustainable forests and the FSC prohibits the use of GMO in FSC certified forests. We also support our local councils putting in place a much needed additional tier of local protection against the risks of outdoor use of GMOs including banning GMO releases outright and stringent additional requirements- not required under the HSNO Act- for any outdoor GE experiments/ field trials. Part of the threat from GE pine trees comes from the dangers of transgenic pollution from GE pine pollen, or horizontal gene transfer which could have unintended adverse impacts on the environment (including harm to NZ soils). Another risk is lowered productivity from toppling and snapping of pines that already are prone to that problem. GE pines could also cost a neighboring forester or property owner their hard won Forestry Stewardship Council (FSC) certification. A prestigious global certification body, the FSC only endorses truly sustainable forestry practices, and its position on GE is very clear- â€œwe do not allow genetic engineering of trees.â€ The FSC has identified a number of other legitimate scientific concerns about the safety and appropriateness of planting genetically engineered trees including asexual transfer of genes from GMOâ€™s with antibiotic resistance to pathogenic micro-organisms, increased resistance of target insect pests, reduced adaptability to environmental stresses, increased weediness or invasiveness in GMO trees with new features, and the spread of herbicide resistance genes. These hazards, and the uncertainties about them, are the reason for the prohibition of the use of GMO\'s in certified forests, stated in the FSC Principles and Criteria.</p>

Name	City	Comments
Ron Lopert	Tauranga	A precautionary avoidance approach must be adopted in the release of GE into the environment. There exists too much scientific uncertainty about the effects of such technology and the consequences are too serious to do anything else.
Noelene Coughlin	Waihi	A moratorium must be placed on any further development or release of GE trees in Aotearoa, NZ.
Ngairé Clarke	Palmerston North	No GE plants or experiments wanted in Aotearoa!
Janeen Dickson	Wellington	Natural seeded trees plants and food. Tumors on mice look
Craig Pethybridge	Auckland	We are already bearing the consequences of mistakes our forefathers have made in areas of science and so-called progress. New Zealand should be leading the world's conscience not following in the steps of misadventure.
Cheryl McDuff	Auckland	We must strive to keep our country GE free. Not enough long term safety studies have been done.
Margaret Baker	Northland	Please don't wreck our environment with these unnecessary plantings. GE crops have proved to under perform in other areas. Once they are out there you can never get rid of them and our delicate ecosystem should not be compromised so a corporation can make money. This land belongs to all of us.
Matthew	Whangarei	No GE tree nor GE crops should be planted on New Zealand soil.
ANNEJAMES	THAMES	No to GE
Caroline Snook	Auckland	NO
Menno	Warkworth	Keep NZ GE Free
Julie Machen	Auckland	NO!!
Carole Van Weede	Auckland	This will never be able to be retracted. It needs to stop now. No more!
Hugh Halliday	Taumarunui	The thin edge of the wedge. trees, ryegrass, Monsanto corn etc. No thank you.
Vincent Rowe	Waitakere	GMO's don't belong on this planet! America is doing well at suicide by corporate commerce. We can be GE FREE and prosper in a world that we can help feed.
Kyra Xavia	Dunedin	Please don't allow this experiment to go ahead.

Name	City	Comments
Louise Heremia	Hastings	Put an end to genetically engineered trees now, tomorrow and forever!
Jeremy	Auckland	GE Free NZ
Leah Mexted	Blenheim	GE Free NZ
piet radford	waitakere	The PRECAUTIONARY PRINCIPLE must be applied.
Nic Sur	Auckland	If you guys in the government would have just a little vision, you would rather support this country going organic ! However, you choose to go backwards ... \"Brighter\" future indeed ... Treason or incompetency ? Or both ? This is the eco-terrorism we should be afraid of !
Hadee Thompson-Morrison	Christchurch	Sign the petition against GE Trees in Aotearoa New Zealand NoBarTree3Background The New Zealand Government plans to change laws to stop council control of the release of genetically engineered trees. More information below. This petition will be presented on July 13 2015 STOP GE TREES! I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
Paretaihinu Jonathan	Onehunga Auckland	Agree with top comment.
paul varyd	auckland	no to change of flag ..spend it on people who need it ...stupid idea in the first place
Philippa Ross	Whangarei	To do anything else would be foolish
Faith Downey	Auckland	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
Joelle Tregaskis	Wellington	We don\'t need them, why do this
Gabriela Enting	Opotiki	No GMO in New Zealand please

Name	City	Comments
Tavia khaine	Auckland	GE Free NZ! The rest of the world is doing it. It\'s imperative for our survival. We have a truly unique indigenous flora and fauna rich land. We must not tamper with our gift of clean air, medicine, beautiful forests..
Autumn Falk	Tauranga	i am not supporting GE in NZ!
Ylia Sawitzki	Auckland	It\'s not proven to be safe so don\'t do it!
Jakh Heremia	Christchurch & Districts	Trees know how to be trees - they been doing it way before humans decided they could make them better/bigger/faster growing. Say No to GMO>
Estelle Bellamy	Auckland	Against introduction of any GE plants into NZ.
Brian Sandle	Christchurch	Technology will move on, leaving this behind, but its damage permanent,
Helen Mahoney	Thames	For the sake of our future generations please do not go down this path?
Chrissy Walters	Lower Hutt	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face. Chrissy W
malibu hamilton	whaingaroa	I do not support the release of GE trees, nor do I support amending legislation to allow it.
Janice M Evans	Upper Hutt	We grow greats we don\'t need to grow false 1\'s I demand that a moratorium is placed on any further development in this field
Rick johnson	Whangarei	No g e anything in new Zealand I\'m highly against g e testing in my home land
Ross S.	Auckland	Real farmers don\'t need GE.
Lucille Rutherford	Auckland	Do not ruin NZ\'s ability to remain \"clean and green\"

Name	City	Comments
Hailey Roussin-Guillemot	Snells Beach	GE in our country will have lasting negative repercussions which nothing will undo. Play the long game. You might not see the benefits to your bank account today, but you grandchildren will cash your patience.
karole peihopa	Whangarei	We dont want anything GE hea in NZ. NO NO NO!
Marion Thomson	Hastings	Full support of this petition and to extend it to cover crops as well.
Jacqueline Gibson	Nelson	Apart from the risks of messing with this technology this is wrong because there is potential for so much addes value on our exports if we can remain GE free in a GE polluted world. NZzzzzzz does not have so many business advantages, this is an impostant one, don\'t screw it up for goodness sake.
Max	Wellington	Aluminium resistant trees from all the chemtrails. Wake up.
stephen maddock	wellington	unneded and dangerous.
Sara	Nelson	GE Free is the right of all Earthlings.
M Raill	Levin	We need to Plant more native trees for biodiversity, and hemp and bamboo for paper and cardboard. There is no need for GE trees.
M C	Auckland	GMO\'s and GE food/forestry are a Health and Safety crisis waiting to happen... where is the UN? oh thats right, they\'re corrupt too
Graeme Chicken	Wellsford	New Zealand\'s most promising future is organic and natural - No GE products should be grown here at all.
ker	tauranga	no to GE trials or growing of any plants in nz
ann buick	wellington	Please retain the integrity of our natural resources.
Christine Bishop	Upper Hutt	Keep us clean & green & GE free!
Marianne Aschenbrenner	Auckland	No need for GE in New Zealand.
Tim O\'Shea	Auckland	Keep NZ GE tree free !
Jill Macgregor	Waihi	Appalled at the thought of it.
Adrian Hansen	AUCKLAND	Stop trying to play God assholes
Jacquelyne Taylor	Auckland	Rejecting GE isnt cautious It\'s common sense!
Brayton	Auckland	You\'ve got to be kidding. In a country that has such stringent laws on maintaining it\'s unique biodiversity, how can this even be considered. So many examples of things not working out and devastation occurring.

Name	City	Comments
Nina Larisch-Haider	Petone	I want to live in GE free country!
Genna	Hamilton	Keep NZ GE tree free
Jo Kerry	Blenheim	Lots of good scientific reasons in the clip below. <a href="https://www.youtube.com/watch?v=EleJ3ooFmk">https://www.youtube.com/watch?v=EleJ3ooFmk</a>
Gabriel	Kapiti	No GE in NZ please. Might be good economically, but not at all good environmentally and not at all good for the clean, unpolluted image of New Zealand. May damage tourism industry also.
Kate Rankin	Whangarei	This will add something to our environment that we cant take away when its dangers are fully realised.
Stephen	Hassan	Rotten idea.
Rosemary Curl	Thames	Keep NZ completely GE free!
Martin Robinson	Kerikeri, Northland	Untried, untested and presumably unsafe technology until there is irrefutable proof of their safety and benefit to our health and our environment.
mark	christchurch	we don't need these GE or GMO type trees or Monsanto products here John 'boyo' Keys
Nicole Masters	Waipukurau	Keep nz GE free!
Philippa Jamieson	Dunedin	The effects of GE trees are unknown " on soil microbes, on the whole ecosystem, their toxicity, allergency etc. Until more research is done and they are shown to be safe, we'd be foolish to let them into our environment.
Lisa Bourne	Auckland	GE is not the way forward for this country.
Alan William Preston	Mangawhai	Our country has been taken over by dangerous , greedy, traitors.
Cheralyn George	Auckland	Nature as nature intended it thank you
Tim lynch	Snells Beach	NZ can be the Ark of our planet for keeping all seeds intact and pure. After 50 years we can then assess conditions to see if GE has any merit. Meanwhile, keep all GE and GMO Food and organisms out of our country.
MARIA ERIKSEN-SOHOS	KAPITI	GE is just plain wrong
Ian Todd	Levin	We don't need them, we don't want them thank you.

Name	City	Comments
paul	arne	GE is DANGEROUS to our natural environment and UNTESTED with regard to long term and future safety. What moron is even suggesting that New Zealand embark on this path? We have all there natural environment we could ever need so STOP WRECKING IT.
Marlene Breen	Ohakune	Not needed, not wanted
Michelle Erskine	Nelson	No GE anything for NZ...
Dee Ann Bolton	Christchurch	No needs to be free of GE we are too small to contain if things do go wrong
Lalainya Hayward	Hamilton	This cannot happen in this beautiful country
Rebecca Smith	Rangiora	Keep nz pure
Sarah	Christchurch	When these modifications are found to be dangerous and detrimental to humans, it will be too late to put the problem right. This government needs to get it\'s priorities right.
NZ Reuben	Christchurch	it\'s not clean, it\'s not pure, it\'s not NZ
Nicola Bradburn	Mangawhai	No GE trees
Clare	paeroa	yuk!!!!
Jodie Bruning	Tauranga	There is still no consensus on the safety of GMOs - <a href="http://www.enveurope.com/content/pdf/s12302-014-0034-1.pdf">http://www.enveurope.com/content/pdf/s12302-014-0034-1.pdf</a>
Hannah Dawson	Auckland	I agree with the petition
kylie A douglas	Waimate	no way
tracy	Stratford	I do not support this movement. Its not about the money but preserving mother earth the right way!
Brent	Hamilton	Aotearoa is better off being GE free. It\'s our competitive advantage in the global market.
Krystal McLaughlin	Rangiora	No thank you!
Linley Edmeades	Hamilton	Lets not make mistakes our children will have to blame us for!
Tim Gow	Otautau	NZ should be GE Free! Too many risks, no real markets.
Fiona Stewart	Christchurch	I support this one hundred percent!!

Name	City	Comments
Michelle Wood	Mataura	The introduction of GE trees would be wrong on so many levels. We have no need to interfere with nature in such a way; what we need to do is strengthen and support the natural system which has been working well since day dot. Our country could really become a powerful international model for a well-run organic environment if only we\'d take that leap into it wholeheartedly. Please, no GE trees!
Debbie Davis	Auckland	Leave it to nature ... Interfering with it always backfires... Stop trying to line your pockets and think of what\'s best for the environment and its people
cate	otaki beach	Please listen to the people who love, care for, treasure and respect our native forests and land...ge planting is not needed in this beautiful land/island of ours.
Silvana Nieto	Tauranga	Stop GE tres, seeds, crops!!! Let\'s keep Aotestoa natural!
Susanne Grosswiler	Auckland	no GE trees in NZ, keep nature pure
yvette skogstad	whitianga	Stop GE!!!!!!!
Anna	Wanaka	No
C Alex	Nelson	No to GE Trees!! No GE in NZ at all!
Julie holder	Christchurch	Save NZ trees!!! No GE
Rosalie Gold	Christchurch	say no to GE trees
Jane Foley	Twizel	The faster they grow the more nutrient they strip from the soil, Its [GE Trees] yet another way to mine our soils. Every time we put profit over environment a person, place or animal and their surrounding community somewhere will suffer or die because of our greed.
Florence Louis-Bell	Lyttelton	This is a terrible ecological disaster waiting to happen!
Clare	Rotorua	Could be damaging to NZ flora and fauna. Use real trees and plants , they still exist
Rahim Bugo	Christchurch	We do not fully understand the implications of GE. Until we do, we should not be introducing it into ecosystems.
Fung	Dunedin	STOP GE
caroline davies	dunedin	<a href="https://www.youtube.com/watch?v=NUUYaTz0Brg">https://www.youtube.com/watch?v=NUUYaTz0Brg</a>

Name	City	Comments
Jennifer Mahaffey	Morrinsville	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
pam	brisbane	Unbelievable that it should even be considered
Graham Wheeler	Auckland	A big no to all gm/ge.
Erana Skudder	Te Puke	NO...Straight HELL NO!
Cass	Wanaka	Keep out trees safe
L Hobman	Waipu	GE Free NZ
Greg	Wanaka	GE free aotearoa/ organic aotearoa
Clare Saville	Whangarei	Messing with nature again. No to this lot of kaka.
Kelly	Christchurch	We don\'t need this.
Jacqui rutherford	Rotorua	The national party is ruining his country
Lani Snelling	Wanaka	There is no need to introduced GE trees to our environment, if you want to plant trees, plant native ones and keep our country green
Kate Henry	Christchurch	No GE for NZ !!!
Pam Shanks	Christchurch	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
Nathan	Raglan	The risks far outweigh any possible benefits!
Tim	Holman	No GMOs needed.
Carol Houghton	Nelson	Keep GMOs out of New Zealand!
Nikki archer	Perth	Get rid of national.
jo	Hamilton	G.E.FREE
PETE	HAMILTON	G.E.FREE
Susan Thrasher	Lower Hutt	The GE genie is out of the bottle, but so far NZ hasn\'t adopted it wholeheartedly. The tide is turning. Time to stop now before it\'s too late to stop. NZ GE Free please.
Teuila Eves	whangarei	not good

Name	City	Comments
Glenda Barnes	Blenheim	There is still time to turn the GE trainwreck around before it hits Aotearoa NZ. Please Leaders listen to the people who elected you.
Stacey Boniface	Lincoln	No GE trees please!
Mares Smith	Hamilton	The government should never be allowed to override the local people's right to reuse GE trees
Christine Harris	Auckland, New Zealand	Shame on this Government
michael mccabe	Hamilton	Dont let this happen here,,, tell them to F876 off
Michele Michele	Hamilton	Stop G.E trees!
Tom	Auckland	Unscientific, moronic experiment that is worse than playing with fire.
Wendy Caldwell	Hastings	GE trees may not be as harmful as GE foods, but it's the thin end of the wedge. Once GE products of any kind come in, it unlocks the way for all and that is not acceptable. We made a stance long since as a GE free country & that must not change.
Marjorie Oliver	Raglan	Stop GE trees
Achim Waengler	Auckland	no!
Anita K Allan	Whakatane	Totally against GE and GM in Aotearoa, plants and food.
Nerena Lavine	Snells Beach	I am tired of govt and corporations playing with GMO's and poisons they don't know the long term effects of. Our children are the ones effected by this ignorant attitude as well as our countries reputation as a pure, green environment. Stop this gambling with our future before it's too late!
Anne Dahlberg	Masterton	Stop!
Warren Green	Auckland	No GE should occur in New Zealand without clear and open public debate, and consultation with forestry, farmers, and environmental impact studies. This is short sighted corporate blundering!
Yasmeen Clark	Christchurch	No GE Trees!
catherine allison	geraldine	No to GE trees.
Quentin Lines	Wanganui	the genetic engineering has the potential destroy our natural fauna & flora, No means NOT EVER...!!!
Rosanna Donovan	dargaville	No GE trees
S K Weiss	Tauranga	No to GE trees. we can't go back when (not if) it stuffs up.
Nathan Morgan	Hamilton	STOP GE TREES here in NZ & LEAVE OUR FLAG ALONE.

Name	City	Comments
Yusuef Waheeda	Auckland	No one wants lifeless manufactured trees.
Rosie	Auckland	While I still don't understand 100% of Genetic Engineering on either side of the arguments - I am pretty sure that Council doesn't either - therefore needs MORE restrictions (until long term impacts understood) not less.
lorayne baker	otaki beach	STOP GE TREES!
Jessamine Fraser	Auckland	we need holistic solutions. Simplistic technological solutions often create other problems - like weaker timber.
IT	Hamilton	STOP GE TREES! I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
Roberta Risk	Ashburton	Let's plant and propogate many many more natives and ones that grow for hundreds of years. All along roadsides (safely ) and reserves and anywhere space is donated or free.
Tiffany Van Domelen	Haumoana	Do not allow GE trees in NZ!
Dieter Riedel	Auckland	GE is not the way to a sustainable and healthy future.
Ferdinand zu Bentheim	Auckland	stop giving control to corporations who have no interest in the common good of the people
Philippa	christchurch, nz	GE will be the downfall to this amazing countries flora and fauna. The Gov should protect them by ensuring that GE plants are kept away from our borders.
Leah Letitia	Queenstown	We must never support the energy of GE trees in our beautiful country - never!!
paul	christchurch	NO TO GE GMO AND ALL THAT BAD STUFF!
Kris Frew	Auckland	This is not your decision to make think again
Bull	Mangawhai	agree

Name	City	Comments
Stephen Richardson	Tauranga	No GMOs in NZ.
Melanie Wallis	Masterton	stop the GE trees
Rebecca McBride	wellington	no ge trees in nz
Galia Simantov	Bay of Plenty	Strongly opposed
Jenn Robinson	Palmerston North	NO GE TREES! NO GE FOOD! NO GE IN NZ AT ALL!!
Catherine Tomkins	Nelson	There is no going back from this.
machanek	kerikeri	NO GE IN WHATEVER OR WHEREVER
Starlette Veens	New Plymouth	We do not need GE trees in NZ.
Sanna Keronen	Kangasala	Keep NZ GE free!
Tomo Takaku	Little River	No GE trees for New Zealand.
Maren	Palmerston North	We don\'t need this s#%t here in NZ!
Lucy	tauranga	No way
Alex	Hamilton	NO GE
Catherine Stevens	Palmerston North	It would be so very nice if the government genuinely and consistently endeavoured to behave as the guardian that it has been elected to be. Since the planet has managed without genetically modified organisms for millions of years, it hardly seems likely that there is a pressing need for them now. How about we don\'t play Russian Roulette with our future?
Rosemary Edwards	Napier	Keep N.Z. GE free please...
Emma Heke	Nelson	NZ = GE FREE
Sarah	Rangiora	GE FREE NZ
cherie roberts	oxford	This is stupid beyond belief nz goverment is trying to turn us to another stuffed state of the us , wheres our unique idenentity stop the life ruining ideas that ge anything is ever goid
Vicky	Blackball	Keep Our Land GE Free
Mimi Hausmann	Motueka	Keep this World a liveable place.
James Waterson	Auckland	GE is the antithesis of the Pure NZ ethos.
Jessica	Hamilton	We should be planting native trees. We already have issues wanting to cut down trees too!
Helen Varley Jamieson	Wellington	keep NZ GE-free!!
Justine Peacock	New Plymouth	Stop GE Trees!

Name	City	Comments
Victoria Steffens	Christchurch	What do we need them for? If it aint broke...
Orlea Rayne	Rotorua	Stop GE trees!
Wendy Clinch	DUNEDIN	Keep NZ GE Free!
Hayden McGrail	Masterton	Far too risky.
Katja	Tauranga	We need to protect our beautiful NZ. From our native trees to our thriving soil. GE will only create chaos in our eco system as we should keep NZ beauty as natural and pure as possible.
Rebekah Brown	Huntermville	This should not be allowed to happen, you are unaware of the long term effects on the soil or the air.
David McCleary	Picton	Please do not release any GM organism into NZ.
Joanne Winiata	Riccarton	I say no to GE trees it is against natural law of nature. Our ecological system is being exploited and damaged by man made products, no need to add more to it.
Rebecca Boyd	Christchurch	Keep NZ GE free
Ian Sturt	Whangarei	Its the last thing we need
Alison Weaver	Christchurch	Nz government has no right to inflict GM upon us without consent. What is wrong with our beautiful unmodified trees???
Craig De Goldi	Rangiora	GE free NZ!
Christine Judd	New Plymouth	I not only reject GE trees but any GE plant.
verity Kampshof	Waikato	Please keep ge trees out of new Zealand.
Erin Evis	Auckland	The release of GE trees (or any other organism) into the environment is something that must be prevented in this country. We have the ability to remain one of the few places in the world that are GE-free, in a time where the risks are still not known and too huge to take chances with. Not to mention our reputation as a 'clean, green' country is at stake.
Samantha Moore	Blenheim	This is not the path Aotearoa wants to take!
Penny Bright	Auckland	Who benefits from GE? In whose interest\$ is New Zealand being governed?
Roger Clifton	Auckland	We don\'t need GE plants.
Yoshiko Cowell	Dunedin	Keep Aotearoa NZ GE free! There\'s no going back once GE plants have been introduced.

Name	City	Comments
Kate	Waipukurau	We don't want GE trees in our community or country!
Daniel Edwards	Cambridge	I support ge free nz. I believe there is an international benefit to be had from remaining ge free. I also have seen no convincing info that any ge product is safe. NZ should remain GE FREE.
Bill hanna	Picton	stop
Robert George	Auckland	Kei te pai tenei
Yvette	Wellington	I am seriously concerned about genetically engineered organisms being released into New Zealand's environment, (although I know they actually already have been, eg pine trees in Rotarua and brassicas near a test lab) where they will become out of our control. Therefor the government's decision could take away kiwi's right to choose to live without GE, which is a decision unavailable to most people in the rest of the world.
Cecil elliott	Redcar	Stop playing around with nature
yaz star	Auckland	absolutely
natalie carrad	auckland	Not a risk worth taking as there could be not gaurentee of reversing any undesirable gm material once in the environment.
Jacqui Knight	Auckland	Stop playing around with Mother Nature!
Peter carmichael	Antibes	until we have clear research and unbiased research on this type of science it is not worth the risks. We should maintain a GE free nation at all costs!
Karlene Wakefield	whangarei	no ge in nz!
Asta Wistrand	Kaitaia	No to industrial GMO plantations in Aotearoa/NZ
Galina Sanderson	Auckland	Please employ knowledgeable and competent specialists who can provide authentic information on the effects of GE trees on the unique environment of New Zealand
Yvonne Wallis	Christchurch	work with nature and help nature..nature knows best..don't manipulate nature
Amy Davidson	Waipawa	Keep NZ GE free
Kieran Callaghan	New Plymouth	The technology isnt eh problem, its how it is being applied... and that is for profit and not public or planetary benefit. No GMO's in NZ

Name	City	Comments
Peta Douglas	Auckland	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
Christine Waghorn	Palmerston North	And what kind of oxygen do these GE trees omit. Will it kill more bees or is this aimed at the human population. GE is dangerous as the world is now finding out to their detriment.
Wade Martelletti	New Plymouth	GE is not good for the world! The DNA of any animal, plant or microbe does not belong anywhere but in that species it originates from. We must not fondle in what we do not understand, because the outcome could end in disaster.
H Gillum	Wellington	Until there is significant independent data gathered that show that there is no risks, ecological or other, then anything GE, trees included, should be prohibited.
Sonya Skogstad	Paraparaumu	Ge Free
Mike	CROMWELL	Keo NZ GE and GMO free
Debra Boyle	Glenfield - North Shore	Nature will always give us the answers, not man.
neil mackay	sydney	I do not support the importation or growing GE trees in New Zealand
margaret browne	whangarei	Protect the tree's & plants we have & allow them to flourish
Peter Volker	Te Aroha	No genetic engineered trees to protect options for a sound arbo culture
Terese van Ruth	Whangarei	NZ should remain GE free. We are in the unique situation where this is a possibility. Future generations will thank us for this forward thinking attitude.
Tim Benbow	Paraparaumu Beach	Gm trees contamination to other strong original generation trees and plants need to be protected most the world is banning Gm products and plants. Not with our image of clean and green either . Soon we'll be just like the US that's a worry

Name	City	Comments
Vicki Whittle	Auckland	This is against everything NZ stands for.
Sharon Elsworth	Napier	Please take note of the rest of the world\'s critical thinking & keep genetically modified organisms out of NZ.
Denise Cawthorne	whangarei	Don\'t put us all at risk without doing your research, unbiased that is.
Ajita Grace	Thamws	keep GE in the lab. Keep our environment pure
Tanya Harris	Christchurch	Please do not allow GE trees in NZ, this will only contribute to our environmental degradation.
Tina	Auckland	Please keep New Zealand safe and green and peaceful and natural.
Lee Lawrence	Christchurch	keep NZ GE free
Laura	Oxford	Keep NZ clean
Michael Blakely	Auckland	Please do not interfere in millions of years of divine evolutionary processes.
Caroline Marshall	Auckland	Keep NZ GE free - forever!!
Gabriella Turek	Wellington	NZ GE Free!
Kane	Auckland	End GE now!
Betty Gilderdale	Auckland	Keep NZ GE free
Sally Lawson	Christchurch, NZ	Please take heed of our petition. Our \"Pure, Green\" reputation is one that is SO readily associated to NZ, and yet appears to be so fragile. Please don\'t introduce GE trees.
Angelika Walle	Christchurch	Stop GE Trees, please!!!
Dave Corban	TAUMARUNUI	Please stop the greed...Nature has been growing perfectly good trees for millions of years...man\'s greed will create forests of disease & failure, which will become chemically saturated stains on the Earth, just as has happened with corn, soy & other GE crops.
Graham Brown	Auckland	With so much opposition to GE in this country, this is another shameful move supported by the National party!
jonathan quintin	auckland	Please stop messing with nature.
DrÂ Benjamin Pittman	Hikurangi	GMO apologists and promoters have no idea what they are risking for us all. Caution and precautions are essential: there will can be no turning back from any disaster.
Josephine Blandford	Auckland	this is so wrong, on so many levels
Stefan Atkinson	Auckland	No to GE trees

Name	City	Comments
Vinny Eastwood	Auckland	GE and GMO need proper controlled trials that go for a long period of time so that they can be certified safe for humans and the environment. Allowing any GE organism outside free to spread is potentially dangerous and may contaminate or cross breed with other similar organisms.
Sue	Wellington	We do not need or want GE in NZ
Zana Holmes	Christchurch	No
Marjon Dufrenne	Auckland	STOP ALL GE in New Zealand.
Mike McGrath	Auckland	Remain GE FREE!
Angela Vryer	Kerikeri	Please don't allow GE trees in NZ
Chris Young	Whangarei	No GE trees or food in NZ!
Joy Wells	Auckland	God Forbid This Happening In Our New ZeaLand
Julian trigh	Nelson	GE trees are not needed and we don't have enough study to mass experiment in the open with GE anything
Brett	Dunedin	Enough!!, Let the people decide.
K Biloft	Auckland	We do not need or want GE in New Zealand
Bev Keenab	Hastings	Stop the GE trees in NZ
Amanda Wilcox	Milford	This is not cool!
Edward Miller	Wellington	No GE trees in NZ.
Mitchell Te Kani	Tauranga	No GE trees in Aotearoa!!!
Rose	Auckland	Wake up World
Michael P New	Christchurch	A good way to stuff up our own trees
Chance	Auckland	Fuck GMOs and GEs
JASON SECTO	Wellington	IDIOTS
Craig Hewlett	Christchurch	BAN ALL GE and GMO's
Angela Baker	Rotorua	Happy to sign!
Kirstyn Renall	Napier	Stop it NOW!
Zela Charlton	Whangarei	Why ? We do not know the long term effects of GE... It is still experimental, obviously, given the long time it takes for a tree to reach maturity, and longer still to see what environmental changes might result. Please stop dangerous experiments.

Name	City	Comments
Kerry P.	Whangarei	This is absolutely disgusting. Under no circumstance should we require GE. Man should stop tampering with both the balance of ecology and should stop genetically engineering LIFE. Morally insane people.
Justin Barr	Auckland	no to GMO in Aotearoa
Amy Walker	FEILDING	Do not allow this to happen New Zealanders!
Aphrodite Hannah	Auckland	Please do not allow this.
Paul Richard Proffit	Hawera	I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
susan moore	Christchurch	stopping playng god...
Crispin Caldicott	Warkworth	This is one case where the current obsession with money could work to the benefit of the nation. When most other countries have contaminated their crops and soil with GE Technology, our ability to provide unadulterated food could make us absolute winners.
Yvonne Menary	Northland	Save our Natives naturally
Marcia	Auckland	Leave Nature to do what she does best and stop interfering .
lance hargraves	Aneby	Stop this madness !!!
paula price	Kenilworth	No to GM in Aoteraroa
Taumata	Tauranga	No way!!!
Autumn Alice	Ottawa	Why are you genetically engineering trees? Plant a tree and it will grow.
S. Cooksley	Wellington	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
bruce	kerikeri	keep NZ GE free
Felicity Hohipa	Wellington	no need for GE, just plain stupidity
J. Nolan	Dunedin	Nature is perfectly balanced and needs no interference from artificial genetic modification. It is abomination!
rachel jordan	kerikeri	NO GMO\'s!!!

Name	City	Comments
Barbra Rijnbende	Auckland	GE is not going to help, they will not be able to control these and future problems will be too difficult to overcome. Please we need to stay grounded in what nature gave us.
Justin	Auckland	GM anything is dangerous and must be controlled. Research shows how long term damage can result
niki	Lower Hutt	no GE!
Andrew Gaskin	wellington	NO WAY
Melissa bain	feilding	No GE trees
Jamal	Auckland	No GE
Yvette dyer	Kerikeri	Test them in countries who need them, a country that currently doesn't rely on their horticulture but needs a boost to save their economy and a chance to feed their people. Or Stop playing god altogether and let nature be!
Kathryn Rogers	Auckland	Its just not normal or natural, therefore it is bound to upset the balance of nature. Pretty obvious really.
antonella ercolani	firenze italy	no to GE trees we have enough GE stuff that is tuning our planet
Elena	Prescott	GE trees should NEVER be allowed. Don't screw with Mother Nature!
Jane	USA	No GE Trees!!
Jon	Ascot	it goes without saying
henk	whangarei	new zealand gmo free!
Jim Frost	Wellington	Say no to GE trees.
John Whyte	Auckland	The Science of Genetic Modification is fundamentally flawed. Scientifically based controversy as to both the fundamentals, applications as regards efficacy, safety, ecological risks and injustices and the self-evidence of the irreversibility of environmental genetic pollution (the final pollution as it were) demands a complete moratorium on all direct and indirect GMOs. On the positive side New Zealand's relative isolation could enable it to become absolutely unique as a Nation that can market its domestic products as being absolutely GMOs Free.
Jennifer Christall-McRae	Christchurch	Anything genetically modified is bad idea.
Andrew Garfield	Hamilton	Keep NZ GE free!

Name	City	Comments
Julie Miller	oakhurst nj	This is wrong
ian cumming	northland	Stop this madness
Chris Reid	henderson	why the hell do we need this we have enough of our own
Mike Joy	Palmerston North	keep GE out of NZ its our marketing advantage if nothing else
Ian Cambourn	Kerikeri	GE trees should not be planted into NZ\'s environment. This is unproven and places agriculture at risk.We cannot risk our environment and our valued agricultural exports - our financial health with these GE forestry plantings.
Ann Redstone	Hastings	I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face. Ann
Stephanie Wynn	Laingholm	Lets keep it as natural as possible
Jon Winder	Orewa	We must keep NZ free of GE. This unique and beautiful country must remain it\'s unique identity for all who live here and for those that see this land as a haven of sanity in a world we experimentation without deep knowledge is becoming acceptable.
Dianne Brunton	auckland	Release of gmo in nz will undermine and disrupt our unique native ecology. It is both unethical and unnecessary.
Barry Down	Auckland	NZ is already hypocritical re its clean green image, as knowledge this hypocrisy becomes increasingly clear to the world which it is! the results to our economy will be disastrous
G Brunton	Auckland	Hell no GMO !!!!!
Greg Villers	Auckland	Can\'t allow this.
Anna Reid	Hastings	GE trees would be toxic to NZ\'s natural environment and eco-systems.
Mark Brimblecombe	Wanganui	No to GE trees!
Alison Martin	Wanganui	Transparency !!
alan bainbridge	Auckland	Forests have a wider function than just trees, they provide habitat for organisms of all sizes. Biodiversity would be a victim of this technology.

Name	City	Comments
Sarah Lockyer	Auckland	please do not destroy further our prestine land and jeapodise our native beauty
Margaret Dagger	Auckland	No GE.
Robyn Michael	Auckland	This would be too big a gamble.
Jo Duff	Hastings	We MUST keep NZ GE free if we want to remain an export nation. We have a fantastic chance that so many other countries have lost for good - to market ourselves as clean and green. Don\'t waste it please.
Gudrun Koball	Erfurt / Gemany	Nobody knows the real risk and long-time problems generated by GE-plants. DNA of plants of animals should not be licensed by international companies! Life is not a product you can sell and buy!
Sarah Millington	Hastings	The precautionary principle must be applied in this decision.
jason walker	tonbridge	SAVE THE TREEEEEEES
Mason Lewis smith	WGC	Love for our trees
Leanne Watkins	Christchurch	The Biodiversity of our beautiful islands need protection, Not sold off, like everything else, to the highest bidder. Some things Are more important than profit
Louise Transom	Rotorua	Stop trying to fix things that aren\'t broken, GE free NZ
Adrian	Auckland	No thank you
Ted Howard	Nelson	NZ to stay GE free, even the trees! This technology is ecologically insane and unsustainable.
Ranaivo Heath	Wellington	FORESTS Is Our FUTURE .....to LIVE DECENTLY .....Much LOVE
Tanja Brandt-Murphy	Hastings	GE is unwanted
Margaret Kelly	FREEMANS BAY, Auckland	I am opposed to this on the grounds that I believe this to be unnecessary, unproven, and unwanted. This is a eliberate attempt to destroy the pristine quality of NZ flora and fauna. The people of NZ will not allow this, We do not want this. We will fight to have this stopped.
Ross S.	Auckland	Not useful, not worth it.
rangi	auckland	Please ! Stop with all this nonsense , and let nature take her course !
Jude Isaac	Auckland	Let Aotearoa be the example to the world!

Name	City	Comments
Robert Hunt	Christchurch	It makes no sense to promote Pure NZ while allowing this. There's lot of good science that needs doing without this kind of rash experimentation with our environmental heritage.
Jason Burgess	Auckland	When will the madness end?
Denise Fastier	Napier	we only have one planet - don't mess with it.
Eleena Grant-Jones	Whangarei	It would damage our beautiful country forever.
Susie Lees	Nelson	Contamination of native species and microorganisms will be the result of growing GE trees. Preservation of ecosystems and the integrity of species is paramount.
Don Miller	Picton	As a retired plant and soil scientist, I am of the opinion that the risks of introducing GE trees are too great and that normal plant breeding technologies are adequate and appropriate.
Stephen Grant-Jones	Whangarei	"You cannot insert a gene you took from a bacteria into a seed, and call it life. You haven't created life, you have polluted it." ~ Vandana Shiva.
Janet Flynn	Katikati	Protect NZ from GE trees and GE anything.
Dora Matthiasdóttir	Reykjavík	????
Martin Jelley	Auckland	I cannot understand why the Government is so sold out to GE when there is a significant body of research suggesting it is very hazardous to the health of the individual and the environment.
margaret johnstone	invercargill	growing GE trees or anything where the DNA of a living species is manipulated some way or other in the laboratory is not necessary - there is no way it can be guaranteed to be safe - an unlimited range of unforeseen effects can potentially manifest in the long term and by then it is too late to recall - please be wise first rather than creating and releasing altered species in the hope that there will be some payoff .... applied science must come from knowing what we are doing and from knowing our Selves fully - not from anything less than that -
Noelene Wanda Sanderson	nr christchurch	All plantings of GE Trees should absolutely REMAIN PROHIBITED! May common-sense prevail!!!!

Name	City	Comments
Tipene Hopa	hamilton	stop all GE in nz should only do things the natural way hope this petition has heaps of success chur !!!!
Susanne Vincent	Auckland	We would lose more than we would gain: shredding the RMA is not the way we should be going in this country.
Suzanne Deck	Auckland	I do not believe we should mess with Mother Nature!
Genevieve Faye	Lower Hutt	ge trees - seriously?
Tim Irwin	Nuhaka	I support this petition to place a moratorium on GE trees, as they will increase the imbalance in nature that humans have already begun with the noticeable climate change, which is also a symptom of increased imbalance in nature.
Kaye Keats	Hastings	Unbelievable that anyone would want to plant G E trees... What is the government thiking.
Mia Stevenson	Auckland	
Stephen Benner	Opotiki	Uphold the people\'s wishes for a GE-free New Zealand.
Thelma van der Werff	Warkworth	No GE Trees in NZ!
Peter Russell	Wellington	GM is at best experimental and the public will pay the price for the inevitable mishaps
abby gubay	coromandel town	Nz is not an experimental ground for companies. How can you fine a tourist \$400 for bringing a jar of honey and let in GE seeds?
Robin Williamson	Whanganui	Nature knows waaaay better than us, always has!
Christine	Tirau	More money over sense? More degradation of nature? Have you not woken up yet? Do you really think you are immune to the travesties you perpetrate? This is idiocy at it\'s best. Leave what\'s left of New Zealand alone! These trees pose a very real threat to our environment and ecosystems!
Aly Learmonth	Taupo	Say no to GE.
Tasha Dutra	pauanui	Please protect our future and the environment and stop ANY GE TREES, PLANTS OR FOODS FROM entering Nz
nicolette gladding	Glenorchy	What a giant leap backwards this would be!
Mason smith	WGC	Save our beautiful trees x
STEPHANIE SINCLAIRE	Wellington	further insanity and disruption of the eco-system
Elizabeth	Melbourne	I am a NZer and want a GE free NZ to come home to.

Name	City	Comments
jehoiada williams-bourke	auckland	please don't plant GE trees in newzealand
Nadeane Charleton	Pahiatua	No to GE trees.
Caro Rennebeck	Glenorchy	There is no plausible reason why New Zealand should enter the destructive and uncertain game of GM's in any kind. I found it foolish to believe that Gene Modification will not harm the whole...understanding nature in its habitat, human caused destruction and universal law and force it will be NZ that could be the leader on a real integrated green clean successful way of life if the debate around GM would be declined once for all! NO GM IN NZ! thankx
Wayne Shepherd	Wellington	GE is an affront to Veda - The Totality of Natural Law. Man in ignorance does not know what he is doing. GE is based on partial knowledge - ignorant of the total knowledge of Natural Law (Veda) that governs the Universe.
Sarah de Reeper	Te Anau	All GE should be banned especially in NZ and especially in our food!!
Michelle Black	Taumarunui	NO G.E. trees in NZ!!!! we must preserve the naturally evolved species unique to NZ
Ian Clarke	Daylesford	New Zealand's "clean, green" image is fast disappearing.
Eben Wilson	Thames	Please don't risk our beautiful natural environment
Liane Rottnick	Nelson	Please keep New Zealand GE free
Raihe Rutene	Wollongong	Keep NZ Clean and Green. Not GE GREEN.
Prof. Bill Watson	Auckland	GE trees will be Nick Smith's next debacle. Trees are GREEN, Nick. Not "BlueGreen" and there is no place for your BlueGreen GE trees in NZ. Not now or ever!
Pamela Gill	Auckland	I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand.
Kay Morgan	Auckland	Stop GE Trees!!!!!!
Kathleen Burke	Auckland	I do not support the use of any GE products
Sandra Rose	Foxton	Must be stopped!!!
Terumi	Wellington	GE will cause more problem than benefit. Leave the Nature alone, humans!
Taura James	bulli	We do not need GE organisms in our country.

Name	City	Comments
kim	auckland	x
rhyll pajic	Nelson	Keep GE trees out of this country!
Anna-Marie Gwilt	Red Hill	GE and Monsanto Syngenta free New Zealand
Gina	Takaka	I say NO to GE trees in NZ!
Yann	Lower Hutt	I would like my Aotearoa without GE organism. Way nicer!!!
Jancis Marks	Rangiora	Let local councils make their own decisions and talk to the people wo live here first. A moritorium is needed. Keep NZ GE free.
Murray Herbert Short	Auckland	GE, in all of its applications, must be stopped before species become extinct
Shirley herbert	Ruakaka , Northland	Stop the exporting from Aoteroa of Swamp Kauri please..
Euan Williams	Katikati	Nil
RUTH MARSTERS	AUCKLAND	enough with the destroying our natural environment and resourcscs, with your capitalist ventures
Summer Boger	Encinitas	This is an endangerment to nature
Darren Peihopa	Alexandra	No GE
Jonny Bear	Cust	Being create in the image of a God, does not give you the right to interfere with Creation - Be still ego !
Bryan Mitchell	Cambridge	Completely unnecessary . For whom is the Government doing this? GE/GMO in NZ is not required.
Cal Searle	Christchurch	NO to GE and GM!
Bebe	Auckland	Please do not allow GE trees or GE anything in New Zealand! This is of utmost importance.
Kayla Mackenzie-Kopp	Waiheke Island	Please keep NZ GE free. It will bring us great benefits in the future.
Roland Campos	San Francisco	GE trees will degrade the integrity of the natural habitat and are unnecessary. Plant trees from nature not from lab.
Alicia De Leon	Burma Park	Genetically engineered anything should not exist on this planet.
David Sutcliffe	Crieff	It\'s wrong to mess with trees, they are an essential part of nature.

Name	City	Comments
Joanne Adams	Auckland	We should not implement legislation that overrides and ignores the wishes of local people, and has a completely unknown impact on the environment. The concern should be about protecting our native trees, which are unique and sustain our indigenous wildlife. Again this government is showing a shortsighted view, which advances the interests of industry at the expense of the environment. Show some regard for future generations, instead of protecting overseas industry interests. Economic strength and environmental protection do not have to be an 'either/or' concern. Show some creative intelligence!
Laura Ball	Franklin	Messing with nature never pays off
Helen Falla	Auckland	stop GE trees!!
Jessica	new Plymouth	The trees we have are the ones I want, no to gm trees
Helen Parkes	Auckland	Do not risk our natural environment by allowing GE modified flora.
Andrea Bruce	Auckland	Give NZ'ers a chance to decide on GE trees in a democratic manner
Nicola Wood	Auckland	We need to look ahead at what NZ will look like in 1000 years. GE trees could become a noxious weed which choke out indigenous trees, and fail to reproduce after a few generations. We leave a desert. Please no GE trees. This is foolish and untested.
Charissa Snijders	Auckland	New Zealand is unique - we have been given a gift being as isolated as we are from other countries - we should be strategically using this and doing everything possible to ensure that we are GE free - this will ultimately bring both economic and health benefits to us all.
Angela Mason	Auckland	Please keep NZ forests GE free. Let's live up to our country's admired image and reputation for being "clean, green and natural".

Name	City	Comments
Lillian Wiki	Auckland	STOP GE TREES! I demand that a moratorium is placed on any further development, field trialling or release of GE trees in Aotearoa New Zealand. The full extent of their social and ecological risks have not been assessed. All plantings of GE trees, whether field trials or plantations, are currently prohibited and should remain so. I support and join the efforts of all people, organizations and social movements globally in rejecting all GE trees outright and declaring that GE trees will only worsen, not help address, the multiple crises we face.
Linda Gisladdottir	Hveragerdi	No GE trees please!
kara vandeleur	wellington	We have the right to protect our clean green land.
Raamon	Kerikeri	Please NZ Govt leave it to nature to make the trees!
Kerry Nicol	Tauranga	No GE.
Katherine Smith	Auckland	Our environment and our clean, green image would be threatened if these trees were released. I support the moratorium.
David Slinger	Auckland	Clean, green, GE free New Zealand - something to keep aspiring for.
Rob Hamill	Te Pahu	Incredibly short sighted
Elaine engman	Waikanae	Keep NZ pure!
Jason Potter	Hamilton	The release of GE organisms that could contaminate native areas via cross pollination etc is irresponsible, ruining biodiversity and the future of New Zealanders.
Peta Hudson	Dunedin	A moratorium needs to be put in place to stop any further development or relkase of GE trees. The risk to the environment is too great.
Leslie Hamilton	Auckland	How can NZ be marketed as clean and green with the current level of support for our natural environment?
Wayne Luxton	Hamilton	Local communities need to have control over land use that may be detrimental to others nearby, especially with no liability process in place.
Jacinta Clarke	Auckland	I say \"leave this at least until more research has been done\" Consequences are important!

Name	City	Comments
Danie Weir	Rotorua	Please a GMO/PESTICIDE/ NUCLEAR FREE NEW ZEALAND. And YES I am shouting!
Claire Insley	Lake Hawea	I\`ve been fighting against GE since they came out. There have been no reported benefits in using GE except to the company who patented it.
Lynley Frame	Auckland	Please keep our beautiful NZ trees GE free
Elizabeth Fisher	katikati	Why is nz caving jn on something so abundantly not in our favour? It is as if another country us pulling the strings of nz. Please do not do this.
Laurie Ross	Auckland	It is vital that New Zealand not weaken its GE free position. The longterm dangers of genetic engineering are not worth the temporary profit. Russia and France both reject GMOs.
Bridget	Whangarei	GE Free NZ!
Trefor Williams	Te Awamutu	KEEP NZ GE FREE!!!! This country\'s so fertile. Leave nature alone!!
Jennifer Shulzitski	Waitati	GE trees endanger our future!!! See other GE mishaps already around the globe!!! Protect NZ!!
Hattie St John	Berlin	keep New zealand free of GE trees!
Gillian Palmer	Auckland	Once GE is out in our environment, it will be impossible to turn back.
Daniel Manning	Whangarei	NZ does not need to use genetically engineered plant or animal products.
jill	jaackson	Releasing genetically engineered trees in New Zealand, a country that prides itself on its \'clean green image\', is totally inconceivable. Given that pollun can not be contained once released into the environment there would be no going back and no guarantee of future outcomes. It is just too dangerous.
John Carter	Wellington	No GM crops in NZ
Nicki Stewart	Featherston	NO GE IN NZ. Keep NZ clean.
Barry Bartlett	Hamilton	Do not let this scourge escape across our country.
Bernie Steyn	Wanganui	Save the bees.
steven williams	turua	No stop it now before it to late,
va wright	auckland	please take note of the opposition towards these trees

Name	City	Comments
Charlotte Rose Baylis	Auckland Central	I am totally opposed to Genetic engineering and modification of plants and food. We are like children playing with matches, completely unable to comprehend the consequences of our actions and ill equipped to put out a fire.
louise Fry	Auckland	Please think about this. Once our trees are gone they\'re gone forever. Please think about the planet and the generations to come.
Molyneux Rush	Wanaka	GE Pollen can travel hundreds of kilometres, and terminator pollen could destroy our native and traditional plantation forests. <a href="http://www.alternet.org/story/58477/frankenforests%3A_ge_trees_threaten_ecosystem_collapse">http://www.alternet.org/story/58477/frankenforests%3A_ge_trees_threaten_ecosystem_collapse</a>
Lorraine Littlefield	Auckland	No GE Trees for New Zealand
TP Annette Annette	Tauranga	No GMO\'s. No GMO trees.
Taressa Strong	Wellington	No!
Jacqui Olliver	Auckland	Let me be specific. Don\'t fuck with nature.
bonnie mcintee	Hawera	No GE trees in NZ!
Roxsan McIntee	Plymouth	..
Lucy McIntee	Hawera	Our trees are perfectly fine, we don\'t want the GE shit here!
Jelena Tomovic	Auckland	I do not support GE trees. Our responsibility is to preserve the Mother Nature and I believe our government will follow.
Amanda Vickers	Kapiti	No GE trees, please
kim coutts	nelson	stop this insanity.
Colleen Hughes	Christchurch	We need to save our planet, not interfere with it!!
David Lourie	Whangarei	This will seriously impact foresters who have signed up to market their trees through sustainable forest management agreements that do not accept GE trees. The threat of GM contamination of certificated sustainably managed forests threatens the ability to market these forests, Quite apart from human health and environmental contamination.
Dave Findlay	Tokoroa	When the forestry industry is on the down turn why do we need faster growing trees?
Naomi Byrne	Auckland	STOP GE TREES, in Aotearoa.
rhys	wellington	no ge trees i love my bees

Name	City	Comments
Wendy M Green	Waihi	Stupid idea.
Anni Stuart	Nelson	No GMOs in New Zealand!
Beverley Holt	Piha, Auckland	Why are we rushing into something that has such a high risk?
Helen Dew	Carterton	Respect democracy -local communities have the right to decide on such issues - not central government!
Brent boyd	Hamilton	Stop nz going down the gmo path it\'s a recipe for disaster
Adriana bader	Maungaturoto	Keep gmo out of nz. Europe e.o export merkets do not want it so why endanger our niche markets.
Peter Bankers	Auckland	Europe has the intestinal fortitude to resist and stop GMO. We too need the courage to prevent the travesty not only of the start and spread of GMOs but also travesty of Centralisation of power, that which removes democracy from the people. NO GMO, NO Centralisation
Nelson John Peet	Christchurch	I haven\'t seen any risk analysis of this project. Is there one?
Cammie Blaisdell	Nelson	Don\'t let american corporate law ruin this country. There are better examples out there for how to proceed economically.
D S Andrew	Palmerston North	Simply NOT Worth the Risk for our environment or our reputation.
Te Awhina	Tauranga	I say NO to genetically engineered trees genetically engineered anything in New Zealand. STOP.
Sally Randell	Auckland	Stop screwing around with Nature, she knows best, leave her to do her good work !!!
Heather Kennard	Street	Definitely not genetically engineered trees!!!
