

To: Holders of Manual 15: Approvals, Brands - Inspection Legend Material - Container Seals

Subject: Amendment 2

Date: 8 June 2000

Enclosures: Coversheet
Approvals, Brands - Inspection Legend Material - Container Seals

Background

Manual 15: Approvals, Brands - Inspection Legend Material - Container Seals is replaced with this version. Please note that this version was updated in March 2000, and therefore does not incorporate any changes to the specification since this time.

The reissue of this manual is to rectify several small amendments to correct some anomalies, which occurred during transfer from technical directives, and manuals to Manual 15, plus some Animal Products Act considerations. A vertical line denotes amendments.

Technical directive 00/41, Control of Brands, Seals and Legend Bearing Packaging Materials in Export Establishments, is to be read in conjunction with this amendment.
