# Amendment 1: Processed Meat Code of Practice.

## Part 4: HACCP Application

March 2012

The Processed Meats Code of Practice was published on 9 March 2010. When this was released Part 4: HACCP Application was not complete as the HACCP Applications for the Manufacture of Beef Jerky and Raw Meat Patties were still pending.

The two HACCP Applications have now been completed and are included in this amendment together with other technical corrections elsewhere in Part 4.

The amended content is highlighted throughout Part 4, the remainder of the document is unchanged.
