

## MPI National Chemical Contaminants Programme Reporting Limits for Metals

The following reporting limits for metals apply to the analysis of raw milk and dairy products under the MPI National Chemical Contaminants Programme (NCCP).

Element	Sample	Reporting Limit (mg/L)
Arsenic	Raw milk	0.001
Boron	Raw milk	0.05
Cadmium	Raw milk	0.0002
Lead	Raw milk	0.001
Mercury	Raw milk	0.001
Selenium	Raw milk	0.002

Element	Sample	Reporting Limit <sup>1</sup> (mg/L)
Arsenic	Dairy product	0.01
Boron	Dairy product	0.5
Cadmium	Dairy product	0.002
Lead	Dairy product	0.01
Mercury	Dairy product	0.01
Selenium	Dairy product	0.02

<sup>1</sup>detection limits vary according to the sample matrix analysed.
