Recreational Fishing

Why Recreational Fishing Rules Matter

Fishing is one of New Zealand's most popular outdoor activities. Each year recreational fishers take large numbers of finfish and shellfish. To keep fisheries sustainable Fisheries New Zealand sets recreational fishing rules. By sticking to the rules and fishing responsibly, fishers help make sure that there will be fish today, tomorrow and for generations to come.

What do the rules cover?

Anyone fishing recreationally has to follow rules about:

- daily bag limits (how many fish you can keep);
- legal size limits (the sizes of fish you can keep);
- species restrictions (the types of fish you can keep);
- closed and restricted areas (where you can fish).

Things to remember:

- it is illegal to sell or trade recreational catch;
- breaking the rules can lead to prosecution, fines and property confiscations;
- only those physically involved in taking finfish, rock lobster, or shellfish can claim a catch within the daily limit;
- unwanted or unlawful catch (catch above your daily limit, undersized fish, fish taken with undersized mesh, unintentional catch or bycatch) must be immediately returned to the waters from which they were taken, dead or alive.

How can I check the rules?

This brochure is a guide only and may not include local restrictions or rules that have changed since it was printed. To keep up to date, check the rules each time you fish.

Fisheries New Zealand provides lots of (free) ways to check the rules. This includes a free text service, a free Smartphone app, or visiting our website or Ministry for Primary Industries (MPI) Fisheries Compliance Team offices. For more information see the back page of this brochure.

Fishing Sustainably

Good fish handling

Correctly handling and releasing unwanted or unlawful catch can increase their chances of surviving to be caught legally another day. When handling and releasing fish, remember:

- use wet hands (or wet gloves);
- be gentle – slide fish into the water from as close to the surface as possible;
- return fish as near as possible to where you found them (especially shellfish and rock lobster);

- the best way to protect undersized fish is not to catch them in the first place. If you are catching lots of undersized fish, change locations, or use a larger hook or mesh size.

For more information, Fisheries New Zealand has a responsible fishing guide online at

www.fisheries.govt.nz/rules or at MPI Fisheries Compliance Team offices.

Looking after seabirds

Seabirds are experts at seeing bait and fish scraps in the water and can get hooked or become tangled in fishing line.

Find out how to avoid attracting seabirds and how to handle them safely at

www.southernseabirds.org

New Zealand's fishing rules

If you're fishing or collecting seafood in New Zealand you need to know New Zealand's fishing rules. If you do not read English, have someone translate for you.

新西兰捕鱼条例

如果您要在新西兰垂钓或捕获海产品，您需要了解新西兰捕鱼条例。如果您不懂英文，请寻求他人帮助。

条例涵盖：允许捕获的类型及尺寸，允许捕获的位置，以及允许捕获的数量。

条例规定您不能将捕获的海产品进行贩卖或者交易，从而获得任何经济收入或者收益。

若违反条例，将面临被起诉、罚款并没收渔具。请您严格遵守法律，做有责任感的捕鱼者，这样才能确保我们现在、未来、世代代有鱼可捕。

뉴질랜드의 낚시 규정

뉴질랜드에서 낚시를 하거나 해산물을 채취할 경우 반드시 뉴질랜드 낚시 규정을 숙지하고 있어야 합니다. 만약 규정 안내판의 영어를 읽지 못할 경우 번역이 가능한 사람에게 부탁 하십시오.

규정 내용: 낚시 또는 채취 가능한 물고기의 종류 및 크기, 낚시 가능 장소, 채취 가능한 물고기의 수.

채취한 해산물을 상업 및 이윤 취득의 목적으로 판매 또는 거래하는 것은 불법입니다.

Finfish

Daily bag limits and size restrictions

There is a combined maximum daily bag limit of 20 of any combination of the following finfish (with no more than 5 Bluenose).

Finfish Species	Minimum fish length (cm)	Minimum set net mesh size (mm)	Minimum dragnet mesh size (mm)
Blue Cod	30	100	100
Blue Moki	40	114	115
Bluenose (maximum 5)	-	160	100
Butterfish	35	108	108
Elephant fish	-	150	150
Flatfish (except Sand flounder)	25	114	100
John Dory	-	100	100
Kahawai	-	90	85
Parore	-	114	100
Porae	-	100	100
Red Cod	25	100	100
Red Gurnard	25	100	100
Red Moki	40	115	115
Red Snapper	-	100	100
Rig	-	125	150
Sand Flounder	23	114	100
School Shark	-	125	100
Tarakahi	25	100	100

In addition you may also take the following:

Finfish Species	Min fish length (cm)	Max daily limit per fisher	Min set net mesh size (mm)	Min dragnet mesh size (mm)
Eels	-	6	12	12
Garfish (Piper)	-	-	25	25
Groper/Hapuku/Bass	-	Daily bag limit of 5 with no more than 3 Kingfish	160	100
Kingfish	75		100	100
Grey Mullet	-	30	90	85
Pilchard	-	-	25	25
Snapper	27	10	125	100
Snapper (SNA1)	30	7	125	100
Yellow Eyed Mullet	-	-	25	25
All others	-	-	100	100

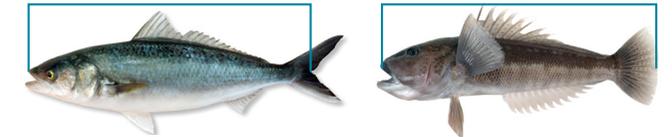

SNA1 Region

SNA1 refers to the area from North Cape to Cape Runaway, out to a distance of 200 nautical miles offshore.

Measuring Finfish

Measure from the tip of the nose to the middle ray or 'V' in the tail.

Protection of white pointer shark and spotted black groper

No person may take or possess any white pointer shark or spotted black groper.

Finfish

Line fishing restrictions

Line fishing includes the use of long lines and dahn (drop) lines but does not include rod and reel or hand lines. In areas where line fishing is permitted, the following restrictions apply:

- no person may use or be in possession of more than 1 line (other than handlines or rod and reel lines);
- all surface floats attached to any line must be marked permanently and legibly with the fisher's initials and surname. A phone number is also useful;
- no person may use or possess a line with more than 25 hooks;
- where more than 1 person is using a line from a vessel (other than rod and reel lines), no more than 2 lines (other than rod and reel lines) may be used, set from or possessed onboard that vessel.

Netting restrictions

Net fishing includes set, fyke, drag and all other nets. In areas where netting is permitted the following general restrictions apply:

- no person may set or possess more than 1 drag net, set net, fyke net, or any other type of net at any one time;
- nets must be set, pulled and hauled by hand;
- any net or nets used either individually or jointly must not extend across more than one-quarter of the width of any river, stream, channel, bay or sound;
- no person may set or use a baited net (except fyke nets);
- nets must not be staked (except fyke nets);
- no net may be used in a way that causes fish to be stranded by the falling tide (stalling);

- each end of a set net must have a surface float permanently and legibly marked with the fisher's initials and surname. A phone number is also useful. Only one float is required for fyke nets.

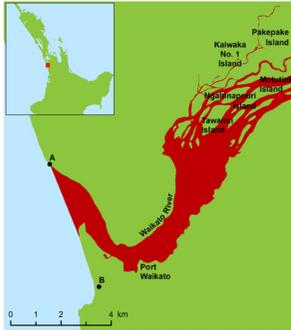

Drag net restrictions

In areas where drag nets are permitted the following restrictions apply:

- drag nets must not exceed 40 metres in length;
- total warp length must not exceed 200 metres.

Drift net restrictions

Drift netting is prohibited in any part of the Waikato River. A drift net is a net that acts by enmeshing, entrapping, or entangling any fish or marine life, and acts by drifting in the water, or on the surface of the water, and is not attached to a vessel or any point of land or the sea bed.

Set net restrictions

In areas where set nets are permitted the following restrictions apply:

- only 1 set net is allowed to be used from, or be onboard any vessel. (An additional net is allowed for baitfishing if it is less than 10 metres long and has a mesh size of 50mm or less);
- set nets must not exceed 60 metres in length;
- a net must not be set within 60 metres of another net;
- stalling of set nets is prohibited.

Shellfish

Daily bag limits and size restrictions

Shellfish are taken when they cannot freely return to the water e.g. placed into a catch bag or similar. At no time while gathering may you be in possession of more than your daily limit.

Shellfish Species	Daily limit per fisher	Auckland Coromandel area daily limit per fisher	Minimum size (mm)
Cockle	150	50	–
Kina (sea eggs)	50	50	–
Green-lipped mussels	50	25	–
Oysters – Dredge*+	50	50	58
– Rock and Pacific†	250	100	–
Paua – Ordinary*	10	10	125
– Yellow Foot*	10	10	80
Pipi	150	50	–
Scallops+*	20	20	100
Toheroa#	Prohibited	Prohibited	–
Tuatua	150	50	–
All others (combined) •	50	50	–

* Dredge oyster, paua and scallop must be landed in the shell and cannot be shucked or shelled seaward of the mean high water mark. This does not include dredge oysters and scallops shucked onboard for consumption while at sea within daily bag limits.

† Rock and Pacific oysters must not be opened while they adhere to the object on which they grow.

Shellfish must be landed in a measureable state

All shellfish to which a minimum size restriction applies (including paua, scallops and dredge oysters) must be landed in the shell and cannot be shucked or shelled seaward of the mean high-water mark. This includes transporting on the water.

Dredge oysters and scallops may be opened for immediate consumption onboard the vessel. Any scallops and dredge oysters eaten form part of your daily limit. Any scallops and dredge oysters not eaten must be landed in the shell.

Paua accumulation limits

When daily limits are accumulated the maximum number or amount of paua that one person can have in their possession at any one time is:

- 20 paua or;
- shucked weight (shell removed) of 2.5kgs of paua;
- this possession limit applies everywhere, including in the home.

Measuring shellfish

Paua: measure the greatest length of the shell in a straight line. Do not measure over the curve of the shell.

Scallops: measure the greatest diameter of the shell.

Dredge Oysters: must not pass through a rigid circular metal ring with an inside diameter of 58mm.

Shellfish Restrictions

Underwater breathing apparatus (UBA)

- UBA does not include snorkels;
- no person may take paua using UBA;
- no person may be in possession of paua while in possession of UBA. This includes possession in or on any vessel or vehicle.

Open seasons

Oysters: There is no season restricting the taking of oysters. They can be taken all year round. However, oysters may not be taken from a small number of designated Māori reserves in the Northland and Waikato Region. Contact MPI Fisheries Compliance Team for the exact locations.

Scallops: The open season is 1 September to 31 March inclusive. Specific area closures may apply, please contact MPI Fisheries Compliance Team for details or visit www.fisheries.govt.nz/rules.

Protection of Coral

No person may take or possess any black coral or red coral.

Potting

In areas where potting is permitted the following general restrictions apply:

- individuals may use, set, or possess, up to three pots in any one day;
- all pots and surface floats must be clearly and permanently marked with the fisher's surname and initials;

- two or more individuals fishing from a vessel may use, set, or possess up to 6 pots in any one day provided they have their name on the pots and that each person is using no more than three of the pots;
- bobs and ring pots may be used to catch rock lobster but all other requirements such as marking and pot limits apply;
- pots used to catch rock lobster have specific escape gap requirements – see ‘Rock Lobster’;
- species specific pots (cod pots, crab pots etc) can be used. They are exempt from escape gap requirements but all other requirements

Rock lobster

Daily bag limits

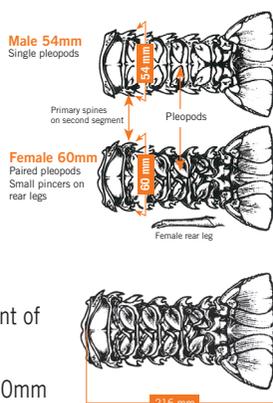

No person may take or possess more than 6 rock lobster (both species combined) on any one day.

Rock lobster may not be possessed seaward of the mean high water mark in an unmeasurable state.

Spiny rock lobster minimum size

Measure the tail width in a straight line between the tips of the two large (primary) spines on the second segment of the tail.

If you are unsure of the sex, use the 60mm measurement.

Packhorse lobster minimum size

Measure the tail length along the underside in a straight line from the rear of the calcified bar on the first segment to the tip of the middle fan of the tail.

Must have a tail length of at least 216mm (male and female).

Rock lobster restrictions

Protected rock lobster

The following types of rock lobster are protected by law and must be returned immediately to the water:

- undersized rock lobster;
- female rock lobster carrying external eggs (carried between the pleopods on the underside of the tail);
- soft shell stage rock lobster;
- rock lobster that cannot be measured (e.g. because of damage to the tail preventing accurate measurement).

General restrictions

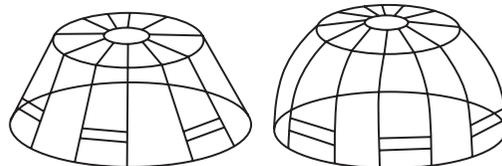

In areas where rock lobster may be gathered, the following restrictions apply:

- rock lobster may not be possessed seaward of the high water mark in an unmeasurable state.
- only hand operated loops or lassos may be used. Spring loaded loops or lassos are prohibited.
- spears or devices which could puncture the shell must not be used when taking rock lobster. Possessing any rock lobster which has been speared is an offence.
- external eggs or the egg-bearing appendages must not be removed from any rock lobster.

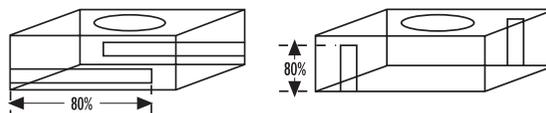

Rock lobster pots

Rock lobster pot means any pot, baited or not, that is capable of catching or holding rock lobster; and includes any other device capable of catching, holding or storing rock lobster. All rock lobster pots must have escape gaps (apertures). These are openings in the pot designed to allow undersized rock lobster to escape. No escape gap shall be incorporated in either the top or the bottom of any pot. Each escape gap must have an inside dimension of at least 54mm x 200mm.

Round or beehive pots: must have at least 3 escape gaps (other than the mouth).

Square or rectangular pots: must have at least 2 escape gaps (other than the mouth) in opposite faces of the pot. Each shall not be less than 80 percent of the height or length of the face of the pot in which the escape gaps are contained.

Mesh pots: any pot constructed entirely of unaltered spot welded mesh with minimum inside dimensions of 54mm x 140mm does not require escape gaps. Mesh pots may be used with covers or liners provided they leave unencumbered at least 80 percent of the surface area of each of 2 opposite sides.

Closed and Restricted Areas

Restricted areas are areas where the use of particular fishing methods (e.g. set nets) is restricted or where catch limits may be different (e.g. area near the Auckland International Airport or by the Department of Conservation as marine reserves (e.g. Long Bay – Okura Marine Reserve).

Shellfish closed areas

Within the Auckland/Kermadec FMA there are areas closed to shellfish gathering. The following notes identify some of the areas, but should only be used as a guide as rules may change. If you are unsure of closures or restrictions contact your nearest MPI office.

Umupuia Beach – closed to taking of cockles for 2 years from 26 October 2016.

Cockle Bay – closed for taking of all shellfish 1 October to 30 April each year inclusive.

Whangateau Harbour – closed to taking of cockles and pipis from 25 March 2010.

Eastern Beach, Karekare Beach, and Cheltenham Beach – are closed to all shellfish gathering.

Ngunguru Estuary – closed to taking of cockles and pipis from 7 January 2016.

Shellfish restricted areas

Daily limit for green-lipped mussels in Maketu Taiapure

It is unlawful for any person to take or possess more than 25 green-lipped mussels per day in the Maketu Taiapure area.

Daily limit for mussels in Mount Maunganui Mataitai Reserve

It is unlawful for any person to take or possess more than 25 mussels per day in the Mt Maunganui Mātaītai area.

Set net closed areas

The following areas are closed to set netting: Three Kings Islands, Cape Reinga – Scott Point, Reef Point to Whangape Harbour, Bay of Islands (Cape Wiwīki, Whale Rock, The Twins – Cape Brett) northern side of the Hen and Chickens, Mokohinau Islands, Simpson Rock, Little Barrier, Great Barrier (Needles Point, eastern side of Arid Island, Cape Barrier), Channel Island, Cape Colville, most of the Mercury Islands, Pauanui, Tamaki River, Panmure Basin, Muriwai Beach, Karekare Beach, Pariokariwa Point to Maunganui Bluff, Manukau Heads and Cape Runaway.

Set nets and set lines

These methods are prohibited in the following places: all year round the Poor Knights Islands, Mimiwhangata, and Mayor Island; from 1 October to 30 April in the Eastern Bay of Islands (except for grey mullet and flatfish nets); from 1 December to 31 March for 6 nautical miles from Okatoa Rock (near Motu River mouth). Contact the MPI Fisheries Compliance Team for the exact locations.

Set netting is prohibited between Maunganui Bluff north of Kaipara Harbour and Pariokariwa Point north of New Plymouth – offshore to seven nautical miles.

Set netting is prohibited at the entrance of the Kaipara, Manukau and Raglan harbours as well as at the Waikato River entrance.

IMPORTANT

Unless specified, the prohibition does not apply to rivers and harbours. Subject to any other fisheries restrictions, you can use set nets in rivers and harbours inside a straight line joining the natural entrance points of the waterway.

There are other set net prohibitions and restrictions in place to protect Maui's dolphins. Before you go fishing visit www.fisheries.govt.nz/rules or call your nearest MPI Fisheries Compliance Team office to check for set net closures and restrictions in the area where you plan to fish.

Set net prohibition in the Kaipara Harbour entrance

Set net prohibition in the Manukau Harbour entrance

Set net prohibition in the Waikato River entrance

Set net prohibition in the Raglan Harbour entrance

New Zealand's Fishing Rules at your Fingertips

This brochure is a summary of the recreational fishing rules for the Auckland Fishery Management Area (FMA). It is a guide only and may not include all local restrictions and rules or any changes made since it was printed. To keep up to date, check the rules each time you fish. It is illegal to sell or trade your catch.

Use one of our FREE services:

- **Download** our free NZ Fishing Rules app by texting the word 'app' to 9889 **OR** by scanning the **QR code**. The app works even when you have no coverage.
- **Free text** the name of the species you are fishing for (e.g. blue cod or paua) to 9889 and receive legal size and bag limit via return text.
- **Visit** www.fisheries.govt.nz/rules
- **Email** recreationalfisheries@mpi.govt.nz to subscribe to fishing related updates in your area.
- Follow one of our MPI Fisheries Facebook pages:
