

Electronic Catch and Position Reporting: A Day in the Life of a Fisher

This chart does not identify ALL information required for each event report. It is a generic guide to your legal reporting obligations, to familiarise you at a high level with what you need to do to record, complete and provide in keeping with the requirements set out in regulations and circulars. You should refer to those documents to see exactly what you need to do and when, by law. They are available at www.fisheries.govt.nz/digitalmonitoring, along with other guidance materials.

Key

- What information to record
- Time when the information must be completed (Information authorised)
- When to provide information (Send/transmit)
