

CTO DIRECTION UNDER SECTION 30A(4) OF THE BIOSECURITY ACT 1993

CTOPlantsDir20180012

I, _____, a delegated Chief Technical Officer, pursuant to section 30A(4) of the Act issue you the following directions in respect to the 30 tonnes of Australian wet wheat from consignments (C2018/213708 and C2018/230867).

Directions:

1. The wet wheat must be moved by Envirowaste in sealed and covered bins from the transitional facility directly to the Porirua City landfill; and
2. A pre-made hole/area(s) must be available at the landfill with sufficient volume to hold 30 tonnes of wheat; and
3. All bins, transport and machinery must be cleaned of wheat at the finish of unloading; and
4. All wheat must be buried under a minimum of two metres of compacted fill immediately after unloading; and,
5. The movement from the transitional facility and the deep-burial process must be supervised by an inspector; and,
6. All costs associated with the movement, burial and inspector supervision must be covered by the importer.

Dated at Wellington this ²⁰~~17~~ August 2018.
