

2020/21 Priorities for SLMACC – Extension

SLMACC – Extension focuses on communicating the newest research findings to farmers, growers and other primary industry professionals in a way that can directly influence engagement, implementation and lasting behaviour change.

Key priorities

1. Translate science into fit-for-purpose on-farm resources. Leveraging on existing platforms or work in the primary sectors (networks, websites etc.).
2. Establish a network of approved rural professionals who can hold workshops and facilitate knowledge transfer to farmers.
 - a. As a starter, train the trainer for rural professionals interested in upskilling in climate change and on farm mitigations to hold workshops in their regions and work with MPI's Regional Economic Development team.
