**NOTES:**               This certificate replaces that dated 1 March 2013. It has been updated to remove the requirement for residency in New Zealand prior to export.

1.       An Import Permit is not required
2.       The number of animals allowed to be imported without prior notification is four animals or less. If more than four animals are to be imported into Korea, then the National Veterinary Research and Quarantine Service branch office of entry need to be informed in advance so that animals can be held in a quarantine area for one day.
3.       If you are planning on returning to New Zealand with your pet in the future, please contact the animal imports group at MPI to obtain information on importing pets back in New Zealand. We strongly suggest that this is done before your pet is exported from New Zealand as not every country can meet the New Zealand import conditions, and so you may not be able to import your pet back into New Zealand. The imports group can be contacted by phone: 04 894 0304 or email [animalimports@mpi.govt.nz](mailto:animalimports@mpi.govt.nz)

**Section 61A Animal Products Act 1999 states that 'The Crown is not liable, and nor is the Director-General or any employee of the Ministry liable, for any loss arising through the refusal or failure of the relevant authority of an overseas market to admit export animal material or animal product to that market'.**
