MINISTRY FOR PRIMARY INDUSTRIES IMPORTING COUNTRIES PHYTOSANITARY REQUIREMENTS

FIJI

Status: Approved

Date: 30 June 2001

EXPORTERS ARE ADVISED TO CONFIRM THE PHYTOSANITARY IMPORT REQUIREMENTS PRIOR TO EXPORT FROM NEW ZEALAND

Amendment Record

Amendment No.	Date:	Nature of amendment:	Approved by:
30	12 April 2024	Under section 4.1.1 Fresh Fruit and Vegetables, added additional declaration under the following commodities:	HC
		Asparagus, spinach, leeks, spring onions, strawberry, and grapes	
29	8 April 2024	Added methyl bromide requirements under section 4.1.1 for <i>Raphanus</i> sativus.	HC
28	28 March 2024	Under section 4.1.1 Fresh Fruit and Vegetables, additional declaration, and sampling requirements changed for the following commodities:	HC
		Asparagus, spinach, leeks, spring onions, strawberry, and grapes	
27	13 March 2024	Under section 3.2.1 Fresh Cut Flowers and Foliage Commodity Class Requirements, added additional declaration for <i>Spodoptera frugiperda</i> (Fall armyworm)	KE
		Under section 4.1.1 Fresh Fruit and Vegetables, 4.2.1 Fresh Cut Flowers	

ICPR FIJI Status: APPROVED 12 April 2024 Page 1 of 28

Amendment No.	Date:	Nature of amendment:	Approved by:
		and Foliage, and 4.4.3 Seeds, Grains, and Nuts for Consumption, added additional declaration for <i>Spodoptera frugiperda</i> (Fall armyworm) to several commodities	
		Added <i>Spodoptera frugiperda</i> to the Quarantine Pest list	
26	13 September 2023	Updated scientific name for <i>Citrus</i> paradisi under section 4.1.1 Fresh Fruit and Vegetables.	AS
25	19 January 2022	Removed note regarding export of export of fresh tomatoes, nursery stock and seeds in sections 3.4.1 Seed for Sowing and 4.4.1 Fresh Fruit and Vegetables.	MLM
		Added import requirements for Lycopersicon esculentum (tomato) in Section 4.4.1	
24	14 June 2021	Added note regarding export of fresh tomatoes, nursery stock and seeds in Sections 3.3 Nursery Stock, 3.4.1 Seed for Sowing and 4.4.1 Fresh Fruit and Vegetables.	MLM
23	19 June 2020	Updated treatment requirements for Brassica spp., Capsicum annuum, Citrus hybrid, Citrus limon, Citrus reticulata, Citrus sinensis and Lycopersicon esculentum under section 4.1.1 Fresh Fruit and Vegetables. Updated conditions under section 3.1.1 Fresh Fruit and Vegetables.	GF
22	16 April 2019	Removed additional declaration for fruit fly host material in sections 3.1.1 and 4.1.1, Fresh fruit and vegetables, after correspondence from Fiji that it is no longer needed.	SH
21	20 March 2019	Updated sections 3.1.1 and 4.1.1, general and commodity specific requirements for fruit fly host material to include Fiji's stipulated additional declaration.	SH
20.	04 May 2017	Updated links to MPI website. Amended spelling mistakes. Added table heading to table.	НК

ICPR FIJI Status: APPROVED 12 April 2024 Page 2 of 28

Amendment No.	Date:	Nature of amendment:	Approved by:
19	09 March 2017	Reformatted presentation of the amendment record starting with the most recent record.	НК
		Updated the disclaimer and general information. Formatting changed to be consistent with other ICPRs.	
		Added fees and charges section 1.4.	
		Removed Maximum Pest List, section 2.5. MPL is covered in the MPI Certification Standard and is not within the scope of the ICPR.	
		Added additional declaration for fresh potatoes section 4.1.1	
		Reformatted the presentation of quarantine pests by providing the pest type, order, family and common names; correcting misspelt scientific names and providing synonyms.	
18	03 July 2014	Changed MAF to MPI throughout the document to reflect MPI name change.	JN
		Changed Fiji MAFF to Biosecurity Authority to reflect name change.	
		Updated MPI contact details, sections 1.1 and 1.2.	
		Corrected contact number for the Biosecurity Authority of Fiji section 2.2.3	
		Section 2.5 renamed 'MPI specified Maximum Pest Limits (MPL)'	
		Additional section for wood packaging, section 2.10.	
		Corrected spelling error section 4.6.	
17	27 June 2011	Amendments to the import requirements for tomatoes and capsicum Section 4.1.1	СВ
16	11 February 2011	Import requirements for Celery. VK Section 4.1.1	
15.	1 October 2009	Import requirements for yellow pea flour to Fiji.	GI
14.	23 September 2009	Addition of contact details for Fiji quarantine authority - Biosecurity Bill for Fiji 2008. Biosecurity Promulgation 2008 (No.28 of 2008).	GI

ICPR FIJI Status: APPROVED 12 April 2024 Page 3 of 28

Amendment No.	Date:	Nature of amendment:	Approved by:
13.	15 July 2009	Import requirements for tapioca starch. Section 4.6	GI
12.	7 August 2008	Clarification of requirements for potato tubers	IV/SW
11.	31 July 2008	Amendment of requirements for potato tubers, capsicums and tomatoes Sec. 4.1.1.	sw
		Amendment of Sec. 2.1 Prohibitions.	
10.	22 March 2007	Amendment of MAF contact details Section 1.1	SW
6.	1 February 2005	Amendment of MAF contact details Section 1.1 and 1.2. Minor reformatting of document.	WJH
5.	14 December 2004	Amendment of MAF contact details, refer Section 1.1. Correction of spelling errors in document.	WJH
4.	23 June 2003	Inclusion of requirements for roasted peanuts. Amendment to MAF contact details. Addition of requirements fore cut flowers / stems of Leucadendron spp. General reformatting of document. Addition of requirements for re-exported garlic from China. Inclusion of new Contact fax number for Fiji.	MJH
3.	14 February 2003	Renaming and reformatting of standard. Amendment to Section 2.5 re MPLs.	WJH
2.	1 August, 2001	Addition of EPS requirements for Brassica spp., Citrus spp., Solanum tuberosum, Seed for sowing and Sphagnum moss. Also minor formatting changes	WJH
1.	30 June, 2001	Issue of EPS	WJH

ICPR FIJI Status: APPROVED 12 April 2024 Page 4 of 28

DISCLAIMER

The information in this standard is provided on the following basis. The phytosanitary requirements found in this standard may be used as the basis of export certification. However, requirements may be changed by importing countries at any time at short notice or with no notice to New Zealand.

This information is provided strictly on the basis that the Crown, the Ministry for Primary Industries, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

- disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information;
 and
- 2. without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

Compliance with this standard is not to be taken as a guarantee that any particular goods will be granted access to any overseas market. We recommend that exporters work with their importers to obtain the most up-to-date information.

1 General Information

Users of this document are strongly advised to read all sections to understand the phytosanitary requirements for a commodity.

1.1 For enquires about this standard email the Plant Exports Group:

plantexports@mpi.govt.nz

To help Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone or fax the Plant Exports Group

Telephone:+ 64 4 894 5693 Fax: 64 4 894 0733

Email: plantexports@mpi.govt.nz

1.2 Scope

The requirements listed in this ICPR apply to product of New Zealand only, unless specifically stated.

This standard specifies Fiji's phytosanitary requirements for the stated commodities and commodity classes only. If a commodity class is not listed under Section 3 "Commodity Class Requirements" or Section 4 "Commodity Specific Requirements" exporters should contact:

- Biosecurity Authority of Fiji directly to ascertain requirements. Refer Section 2.2.3
 or
- Ministry for Primary Industries (Plant Exports).

1.3 Phytosanitary Legislation

The following legislation controls the importation of plants and plant materials into Fiji:

- Plant Quarantine Act 1982 and Regulations
- Biosecurity Promulgation 2008

1.4 Fees and Charges

Please note that the determination and provision of phytosanitary requirements for a commodity not listed within the ICPR may be undertaken on a cost recovered basis. A link to the list of Plant Exports Fees and Charges is available on http://mpi.govt.nz/exporting/food/fruit-and-vegetables/fees-and-charges/

ICPR FIJI Status: APPROVED 12 April 2024 Page 7 of 28

2 General Requirements

2.1 Prohibitions

The following commodities (see Table 1) are prohibited importation into Fiji from New Zealand: ref fax 17th January 2001

Table 1 List of commodities prohibited entry to Fiji

Scientific name	Common name	Plant part prohibited
	Chaff	All
	Hay	All
	Soil	All
	Straw	All

2.2 Import permit

Note: Additional declarations given in this ICPR are indicative only and are provided to guide exporters on conditions that Fiji have previously required. Exporters should refer to conditions identified upon their current import permit.

- **2.2.1** Import permits state the phytosanitary requirements for importation.
- **2.2.2** Import permits are required for the importation of all commodity classes from New Zealand
- 2.2.3 Import permits may be requested from

Senior Agricultural Officer (Quarantine) Biosecurity Authority of Fiji, GPO Box 1836 Suva Fiji

Telephone: +(679) 3312 512 or +(679) 3312511) Fax: +(679) 3315043

2.3 Phytosanitary Certificates

Phytosanitary certificates are required to accompany consignments of all commodity classes imported from New Zealand unless specified.

ICPR FIJI Status: APPROVED 12 April 2024 Page 8 of 28

2.4 Quarantine Pests

For a list of quarantine pests refer to Appendix 1. The scientific name and classification used is checked for accuracy against the European and Mediterranean Plant Protection Organisation (EPPO) Global database (https://gd.eppo.int/). Please note the scientific name remains as the definitive name. In addition, MPI will also include synonyms specified by the importing country for use on additional declarations.

Quarantine pests for Fiji include organisms specified in Appendix 1 of this ICPR, additional declarations and/or import permit.

To request a copy of the pest list (Appendix 1) in excel format, please refer to section 1.1.

2.5 Ports of Entry

Items of quarantine concern may only be imported through declared Ports of Entry as stated on the import permit. ref Plant Quarantine Act 1982

2.6 Inspection on Arrival

All consignments of imported plant material are subject to visual inspection by Biosecurity Authority of Fiji for phytosanitary purposes upon arrival. ref Questionnaire 1997

2.7 Sampling Rate

Rate of sampling upon arrival is 5% (of the consignment), selected at random.

2.8 Transit

Unknown

2.9 Wood packaging

Refer to Forestry ICPR for Fiji, link below:

http://www.mpi.govt.nz/law-and-policy/requirements/importing-countries-phytosanitary-requirements/forestry-icprs/fiji/

3 Commodity Class Requirements

All commodities must be shipped in sound, new and clean packages.

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables

Conditions:

Import permit and phytosanitary certificate required. Additional declaration may be required. Treatment may be required. Please refer to section 4.1.1.

ICPR FIJI Status: APPROVED 12 April 2024 Page 9 of 28

3.1.2 Dried Fruit and Vegetables

Conditions:

Import permit and phytosanitary certificate required.

3.1.3 Frozen Fruit and Vegetables

Conditions:

Import permit and phytosanitary certificate required.

3.2 Cut Flowers and Foliage

3.2.1 Fresh Cut Flowers and Foliage

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

3.2.2 Dried Cut Flowers and Foliage

Conditions:

Import permit and phytosanitary certificate required.

3.3 Nursery Stock

3.3.1 Bud Wood / Cuttings

Conditions:

Import permit and phytosanitary certificate required.

3.3.2 Bulbs / tubers / corms / rhizomes etc (for propagation)

Conditions:

Import permit and phytosanitary certificate required.

3.3.3 Whole Plants

Conditions:

Import permit and phytosanitary certificate required.

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Conditions:

Import permit required. Phytosanitary certificate and treatment (fungicide) required.

3.4.2 Seeds, Grains and Nuts for Processing

Conditions:

Import permit phytosanitary certificate required.

3.4.3 Seeds, Grains and Nuts for Consumption

Conditions:

Import permit and phytosanitary certificate required.

3.5 Growing Media and Packing Material

Conditions:

Import permit and phytosanitary certificate required.

4 Commodity Specific Requirements

ref 23.4.01/ fax ref No 69/5/10 18.1.01 / fax 31.07.01

Note: Additional declarations given below are indicative only and are provided to guide exporters on conditions that Fiji have previously required. Exporters

should refer to conditions identified upon their current import permit.

Note: For *Spodoptera frugiperda* (Fall armyworm), references to 'Northland' are based on the <u>Regional Council boundary.</u>

4.1 Fruit and Vegetables

If the commodities' specific conditions (<u>Section 4.1.1</u>) require fumigation, unless stated otherwise, must be applied at the following rates (see Table 2).

Table 2. Fumigation rates for fruit and vegetables

Rate	Time	Temperature
32 g/m³	2 hours	21°C and above
40 g/m³	2 hours	16-20°C
48 g/m³	2 hours	11-15°C
56 g/m³	2 hours	10°C

Note: Fumigation with methyl bromide is not permitted below 10°C.

4.1.1 Fresh Fruit and Vegetables

Actinidia deliciosa

Kiwifruit

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Allium spp.(excluding A. fistulosum, A. porrum and A. sativum)Allium cepaOnion bulbsAllium schoenoprasumChives

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

ICPR FIJI Status: APPROVED 12 April 2024 Page 11 of 28

Allium fistulosum Allium porrum

Spring onion Leek

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required AND additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

1. For period 1 May to 30 September; **excluding Northland**: No additional requirements except for the following Additional Declaration.

Additional declaration [For period 1 May to 30 September; excluding Northland]: "The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

OR

2. For period 1 October to 30 April; **year-round for Northland**: phytosanitary inspection sampling rate of 950 units per homogeneous lot. Consignments less than 950 units require 100% inspection.

Additional declaration [For period 1 October to 30 April; or for Northland grown crops]: "The consignment was inspected at the minimum rate of 950 units per lot and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)".

Additional declaration [For consignments less than 950 units]: The consignment underwent 100% inspection and was found free from all life stages of Spodoptera frugiperda (Fall armyworm)".

Allium sativum

Garlic

Conditions

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Re-exported garlic from China:

Additional declaration:

"This consignment of garlic from China has fulfilled all the Ministry for Primary Industries import quarantine requirements and had been allowed to be retailed in New Zealand".

OR

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Apium graveolens

Celery

ICPR FIJI Status: APPROVED 12 April 2024 Page 12 of 28

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

<u>Asparagus spp.</u> (excluding A. officinalis)

<u>Asparagus</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Asparagus officinalis

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

1. For period 1 May to 30 September; **excluding Northland**: No additional requirements except for the following Additional Declaration.

Additional declaration [For period 1 May to 30 September; excluding Northland]: "The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

OR

3. For period 1 October to 30 April; **year-round for Northland**: phytosanitary inspection sampling rate of 950 units per homogeneous lot. Consignments less than 950 units require 100% inspection.

<u>Additional declaration</u> [For period 1 October to 30 April; or for Northland grown crops]: "The consignment was inspected at the minimum rate of 950 units per lot and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)".

Additional declaration [For consignments less than 950 units]: The consignment underwent 100% inspection and was found free from all life stages of Spodoptera frugiperda (Fall armyworm)".

Beta spp. Beets

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

ICPR FIJI Status: APPROVED 12 April 2024 Page 13 of 28

Brassica spp.

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate with treatment information and additional declaration required.

Product must be trimmed, free of soil and foreign matter. Outer leaves must be removed where applicable. Fumigation requirements and specific conditions for *Spodoptera frugiperda* (Fall armyworm) must be met for *Brassica* spp.

Fumigation for *Brassica* spp.

Mandatory methyl bromide fumigation, as per <u>Section 4.1 Table 2</u>. Product not to be wrapped in polythene during fumigation.

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

AND

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Capsicum annuum

Capsicum

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Specific conditions must be met for psyllid **and** *Spodoptera frugiperda* (Fall armyworm).

Specific conditions for psyllid:

Capsicums may be exported under one of the two following options:

Option 1: Systems Approach

Capsicums must be sourced from a MPI registered glasshouse that has mitigating measures in place to control psyllid populations.

Additional Declaration required:

"Capsicums were brushed or washed to remove any and all stages of psyllid".

OR

Option 2: Capsicums not produced under the systems approach
Mandatory methyl bromide fumigation, as per Section 4.1 Table 2.

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

ICPR FIJI Status: APPROVED 12 April 2024 Page 14 of 28

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

<u>Additional declaration:</u>
"The consignment was inspected and found free from all life stages of *Spodoptera* frugiperda (Fall armyworm)."

Citrullus lanatus

Watermelon

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of Spodoptera frugiperda (Fall armyworm)."

Citrus spp. (excluding C. paradisi, C. limon, C. reticulata and C. sinensis)

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of Spodoptera frugiperda (Fall armyworm)."

Citrus paradisi Grapefruit Citrus limon Lemon Citrus reticulata Mandarin Citrus sinensis Orange

Import permit required (Multiple entry for 3 months). Phytosanitary certificate with treatment specifications and Additional declaration for Spodoptera frugiperda (Fall armyworm) required.

Fumigation for C. paradisi, C. limon, C. reticulata and C. sinensis.

Mandatory methyl bromide fumigation, as per Section 4.1 Table 2.

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

ICPR FIJI Status: APPROVED 12 April 2024 Page **15** of **28**

AND

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of Spodoptera frugiperda (Fall armyworm)."

Cucumis melo <u>Melon</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of Spodoptera frugiperda (Fall armyworm)."

Cucumis sativus

Cucumber

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

<u>Additional Declaration:</u>
"The consignment was inspected and found free from all life stages of *Spodoptera* frugiperda (Fall armyworm)."

Cucurbita pepo

Pumpkin/ Squash/ Zucchini

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of Spodoptera frugiperda (Fall armyworm)."

Cucurbitaceae

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

ICPR FIJI Status: APPROVED 12 April 2024 Page **16** of **28**

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Daucus carota

<u>Carrot</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Diospyros spp.

Persimmon

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Fragaria spp.

<u>Strawberry</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Phytosanitary inspection sampling rate of 950 units per homogeneous lot. Consignments less than 950 units require 100% inspection.

Additional declaration:

"The consignment was inspected at the minimum rate of 950 units per lot and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)".

Additional declaration [For consignments less than 950 units]: The consignment underwent 100% inspection and was found free from all life stages of Spodoptera frugiperda (Fall armyworm)".

Ipomoea batatas

Kumara

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

ICPR FIJI Status: APPROVED 12 April 2024 Page 17 of 28

<u>Lactuca sativa</u> <u>Lettuce</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Lycopersicon esculentum

<u>Tomato</u>

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Specific conditions for **loose tomatoes** must be met for both psyllid **and** *Spodoptera frugiperda* (Fall armyworm).

Specific conditions for psyllid:

Loose tomatoes may be exported under one of the two following options:

Option 1: Systems Approach

Loose tomatoes_must be sourced from a MPI registered glasshouse that has mitigating measures in place to control psyllid populations.

Additional Declaration required:

"Tomatoes were brushed or washed to remove any and all stages of psyllid".

OR

Option 2: Loose tomatoes not produced under the systems approach Mandatory methyl bromide fumigation, as per Section 4.1 Table 2.

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

Note: Truss tomatoes can only be exported under option 2.

AND

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Malus domestica Malus sylvestris var. pumila Apple Apple

ICPR FIJI Status: APPROVED 12 April 2024 Page 18 of 28

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Persea americana

<u>Avocado</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Phaseolus vulgaris

Bean

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

<u>Prunus armeniaca</u> Prunus avium

Apricot Cherry

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Prunus persica

Peach/Nectarine

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Pyrus spp.

Pyrus pyrifolia Nashi

ICPR FIJI Status: APPROVED 12 April 2024 Page 19 of 28

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

Pyrus communis

Pear

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Raphanus sativus

Radish

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate with treatment information and additional declaration required.

Product must be trimmed, free of soil and foreign matter. Outer leaves must be removed where applicable. Fumigation requirements and specific conditions for *Spodoptera frugiperda* (Fall armyworm) must be met for *Brassica* spp.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

<u>AND</u>

Fumigation for Raphanus sativus.

Mandatory methyl bromide fumigation, as per <u>Section 4.1 Table 2</u>. Product not to be wrapped in polythene during fumigation.

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

Solanum tuberosum

Potato

Conditions:

ICPR FIJI Status: APPROVED 12 April 2024 Page 20 of 28

Import permit required. Phytosanitary certificate with treatment information and additional declaration required. Specific conditions for potatoes must be met for:

- Devitalisation; AND
- Globodera rostochiensis (Golden Nematode) and Synchytrium endobioticum (Potato wart); AND
- Spodoptera frugiperda (Fall armyworm).

All potatoes must be free of soil, damage, rots, diseases, other foreign matter <u>and</u> growing buds (growth that is less than 1mm is acceptable).

Specific conditions for devitalisation:

Potatoes with visible bud growth (over 1mm) must be devitalised and treatment details included in the treatment section of the certificate.

Additional declaration:

"Treated with an appropriate sprout inhibiting agency (active ingredient and rate of application of the inhibitor)."

AND

Specific conditions for Golden nematode and Potato wart:

Additional declaration:

"Grown in an area entirely free from, *Globodera rostochiensis* (Golden Nematode) and *Synchytrium endobioticum* (Potato wart)"

AND

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Spinacia oleracea

Spinach

Conditions

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

1. For period 1 May to 30 September; **excluding Northland**: No additional requirements except for the following Additional Declaration.

<u>Additional declaration</u> [For period 1 May to 30 September; excluding Northland]: "The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

OR

ICPR FIJI Status: APPROVED 12 April 2024 Page 21 of 28

2. For period 1 October to 30 April; **year-round for Northland**: phytosanitary inspection sampling rate of 950 units per homogeneous lot. Consignments less than 950 units require 100% inspection.

Additional declaration [For period 1 October to 30 April; or for Northland grown crops]: "The consignment was inspected at the minimum rate of 950 units per lot and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)".

Additional declaration [For consignments less than 950 units]: The consignment underwent 100% inspection and was found free from all life stages of Spodoptera frugiperda (Fall armyworm)".

<u>Vaccinium spp.</u> Vaccinium corymbosum

Blueberry

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

<u>Vitis spp.</u> <u>Grapes</u>

Conditions

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for *Spodoptera frugiperda* (Fall armyworm):

1. For period 1 May to 30 September; **excluding Northland**: No additional requirements except for the following Additional Declaration.

<u>Additional declaration</u> [For period 1 May to 30 September; excluding Northland]: "The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

OR

2. For period 1 October to 30 April; **year-round for Northland**: phytosanitary inspection sampling rate of 950 units per homogeneous lot. Consignments less than 950 units require 100% inspection.

ICPR FIJI Status: APPROVED 12 April 2024 Page 22 of 28

<u>Additional declaration</u> [For period 1 October to 30 April; or for Northland grown crops]: "The consignment was inspected at the minimum rate of 950 units per lot and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)".

Additional declaration [For consignments less than 950 units]: The consignment underwent 100% inspection and was found free from all life stages of Spodoptera frugiperda (Fall armyworm)".

<u>Zea mays</u> <u>Corn</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Specific conditions for Spodoptera frugiperda (Fall armyworm):

Option 1: Removal of husks prior to export and phytosanitary inspection

OR

Option 2: Corn that is exported with husks on requires mandatory methyl bromide fumigation, as per Section 4.1 Table 2.

AND

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

The treatment must be endorsed in the 'Treatments Section' of the phytosanitary certificate.

4.1.2 Dried Fruit and Vegetables

Refer Section 3.1.2

4.1.3 Frozen Fruit and Vegetables

Refer Section 3.1.3

4.2 Cut Flowers and Foliage

4.2.1 Fresh Cut Flowers and Foliage

<u>Chrysanthemum spp.</u> <u>Dianthus caryophyllus</u> Orchidaceae Chrysanthemum Carnation Orchid

ICPR FIJI Status: APPROVED 12 April 2024 Page 23 of 28

<u>Tulipa spp.</u> Zantedeschia spp.

Tulip Calla Lily

Conditions:

Import permit required (consignment basis). Phytosanitary certificate and additional declaration required.

<u>Additional Declaration:</u>

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Leucadendron spp.

Leucadendron

Rosa spp.

Rose

Conditions:

Import permit required. Phytosanitary certificate, additional declaration and treatment required. Devitalisation required.

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

Treatment:

"The consignment stems were immersed or dipped in a solution of Glyphosate (Roundup) solution at a concentration of 1% Glyphosate or 10mls/ ltr." Treatment to be endorsed on phytosanitary certificate.

4.2.2 Dried Cut Flowers and Foliage

Refer Section 3.2.2

4.3 Nursery Stock

4.3.1 Budwood and Cuttings

Refer Section 3.3.1

4.3.2 Bulbs/tubers/corms/rhizomes (for propagation)

<u>Lilium spp.</u>
<u>Narcissus spp.</u>
<u>Zantedeschia spp.</u>

<u>Lily</u> <u>Daffodil</u> Calla Lily

Conditions:

Import permit required (consignment basis). Phytosanitary certificate and treatment required.

Treatment:

As specified upon the Import permit.

ICPR FIJI Status: APPROVED 12 April 2024 Page 24 of 28

4.3.3 Whole Plants

Refer Section 3.3.3

4.4 Seeds, Grains and Nuts

4.4.1 Seeds, Grains and Nuts for Sowing

Cicer arietinumChickpeaPisum spp.Pea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Treatment

As specified upon the Import permit.

Lycopersicon esculentum

Tomato

Conditions:

Import permit required. Phytosanitary certificate required.

4.4.2 Seed and Grains for Processing

<u>Cicer arietinum</u> <u>Pisum spp.</u>

Chickpea
Pea

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

4.4.3 Seeds, Grains and Nuts for Consumption

Arachis spp. Roasted Peanuts

Conditions:

For peanuts, which are roasted, salted, commercially processed and non-viable. Import permit not required. Phytosanitary certificate not required. Inspected upon arrival.

Arachis hypogaea Peanuts Coffea arabica Coffee Carya illinoinensis Pecan Chenopodium quinoa Quinoa Cicer arietinum Chickpea Fagopyrum esculentum Buckwheat Glycine max <u>Soybean</u> Helianthus annus Sunflower

ICPR FIJI Status: APPROVED 12 April 2024 Page 25 of 28

Sorghum spp.

Triticum spp.WheatTrifolium spp.CloverVicia fabaBroad beanVigna unquiculataCowpeaZea maysCorn

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate and additional declaration required.

Additional Declaration:

"The consignment was inspected and found free from all life stages of *Spodoptera frugiperda* (Fall armyworm)."

<u>Pisum spp.</u> (excluding Pisum sativum)

<u>Pea</u>

Conditions:

Import permit required (Multiple entry for 3 months). Phytosanitary certificate required.

4.5 Growing Media and Packing Material

Sphagnum spp. Sphagnum moss

Conditions:

Import permit required. Phytosanitary certificate required. Must be sterile and commercially packed.

4.6 Miscellaneous

Tapioca starch

Conditions:

Import permit not required. Phytosanitary certificate not required.

Yellow pea flour

Conditions:

Import permit not required. Phytosanitary certificate not required.

ICPR FIJI Status: APPROVED 12 April 2024 Page 26 of 28

Appendix 1. Quarantine Pests as notified by Fiji

PEST TYPE	ORDER NAME	FAMILY NAME	GENUS AND SPECIES NAME	COMMON NAME
Arachnids (mites and spiders)	Ixodida	Ixodidae	Rhipicephalus microplus syn. Boophilus microplus	cattle tick
Insects	Lepidoptera	Noctuidae	Spodoptera frugiperda	Fall armyworm
Nematodes (round worms)	Tylenchida	Heteroderidae	Globodera rostochiensis	golden nematode, yellow potato cyst nematode
Bacterial diseases	Actinomycetales	Microbacteriaceae	Clavibacter michiganensis subsp. sepedonicus syn. Corynebacterium sepedonicum	Potato ring rot, bacterial ring rot of potato, vascular wilt of potato
Fungal diseases	Chytidiomycetes	Chytridiales	Synchytrium endobioticum	black wart of potato, wart of potato, black scab of potato
Plants (Weeds)	Asterales	Asteraceae	Elephantopus mollis Pseudelephantopus spicatus syn. Elephantos spicatus Xanthium pungens	tobacco weed, soft elephants foot Yasawa tobacco weed, packyweed, spiked elephant foot, dogs-tongue
	Caryophyllales	Cactaceae	Opuntia humifusa syn. Opuntia vulgaris	eastern prickly pear
	Commelinales	Pontederiaceae	Eichhornia crassipes	common water hyacinth
	Fabales	Fabaceae	Acacia farnesiana	cassie flower, ellington curse, mimosa bush, scented wattle, sweet wattle
			Derris elliptica	duva ni vavalagi, derris
			Derris trifoliate*	duva
			Mimosa diplotricha syn. Mimosa invisa	giant sensitive plant
	Lamiales	Lamiaceae	Clerodendrum chinense ¹	chinese glory bower
			Hyptis pectinata	mint weed, comb hyptis
		Verbenaceae	Lantana camara	lantana
