

OIA13-423

09 JUL 2014

OFFICIAL INFORMATION ACT REQUEST:

I refer to your official information request of 30th April 2014, requesting the following information:

1. Copies of any documents, reviews or audits documents which relate to Oravida Kauri Limited and NZ Forests Limited.
2. This information should include but not be limited to any information, documents or reports which relate to site/sawmill inspections of both Oravida Kauri Limited and NZ Kauri Limited.
3. This information should include but not be limited to any documentation or site/sawmill inspection information and reports completed or compiled by AsureQuality which relate to the above companies.

The following information is released to you under the Official Information Act 1982:

- sawmill inspection reports for the registered indigenous sawmill 00/0121 owned by Oravida Kauri Limited for the period this company had their sawmill registered;
- sawmill inspection reports for the registered indigenous timber mills 00/0084, 00/0130 and 00/0131 which are owned by the company New Zealand Forests Limited;
- sawmill inspection reports for the registered indigenous timber mills 00/0120 and 00/0122 which are owned by the company New Zealand Kauri Limited;
- a Milling Statement inspection report for a swamp kauri extraction site related to New Zealand Kauri Limited;
- notebook entry taken during a export inspection relating to New Zealand Kauri Limited;

- AsureQuality inspection forms for consignments exported by New Zealand Forests Limited. Also included are AsureQuality inspection forms for consignments exported by associated companies of either New Zealand Forests Limited or New Zealand Kauri Limited acting under a different name. There are no export inspection forms for Oravida. Although Oravida notified MPI of their intention to export in December 2013, they did not follow through with their intention.

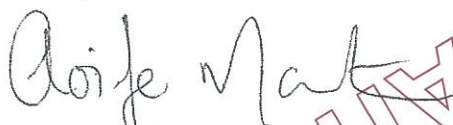

Information has been withheld under section 9(2)(a) of the Official Information Act; to protect the privacy of natural persons, including that of deceased natural persons, and section 9(2)(b)(ii) on the basis of confidentiality.

You have the right under section 28(3) of the Official Information Act to seek an investigation and review by the Ombudsman of our decision to extend the time limit / impose a charge / withhold information / refuse your request. A request must be made in writing to:

The Ombudsman
Office of the Ombudsmen
PO Box 10 152
WELLINGTON]

I trust that this information is helpful to you.

Yours sincerely

Aoife Martin
Director, Spatial, Forestry & Land Management

Forest and Land Operations

1

Subject: [] mill inspection

59(2)(a)

Date/time 14-02-2012

10/02/2012

12.20hrs

Arrived at Mangonui ITM asked for [] in the shop showroom was informed he no longer owned the shop and would be in his yard below the shop. Went down to the yard text Mr [] to inform him I was onsite and proceeded to tally and photograph swamp Kauri logs onsite. There was around 200 logs onsite of varying sizes, estimated total volume ~500m³.

[] Mahoe supermill was onsite with a macrocarpa log in front of it. Roughly 2m³ of sawn kauri was next to the mill.

Mr [] arrived onsite around 12.40, FO identification presented. I asked Mr [] whether he had received the letter informing him of his requirement to reapply for a milling statement in order to continue milling indigenous timber. He said he had not properly read it and considered it was a reminder to send in his sawmill return. I explained what was required and informed Mr [] that I knew about the Enforcement Order requiring him to cease excavation operations on the property from where he was extracting kauri. Mr [] went at lengths to convince me the extraction of the logs was legal and therefore an application for a milling statement should be accepted. During the conversation I made Mr [] aware that we would continue to require the logs to be sourced from non indigenous land regardless of decisions made by the Northern Regional Council through the Environment Court. [] assumed that [] had made me aware of the enforcement order, I did not deny this.

Prior to leaving the site I showed Mr [] some photos of examples of finished table tops that would be acceptable for export. Mr [] then showed me a sanding and polishing machine he intended to use to bring the table tops up to a standard fit for export.

1430hrs

Left the property

S9(2)(a)

Inspection report 07-00-01480

Location: []

Landowner and Milling statement holder []

[] of Sovereign Station trustee

Operation Manager []

Mr [] was given notice of the inspection on the afternoon of the 1-12-2011. He said he would be onsite. At 1200 hours the following day let Mr [] know I would be arriving onsite at around 13:00 hours. He said he would not be able to make it onsite but the gate should be open and to head on in. The gate was closed when I arrived at 13:00 so I continued on foot.

I found the areas that had been excavated had encroached on land could be considered indigenous flora and was not the farmland originally indicated on a previous inspection as the class of land that would be excavated. There was very little remnants of vegetation that existed prior to excavation therefore areas adjacent to excavation sites were assessed. These contained mixed manuka/kanuka/acacia spp (i.e. mixed indigenous/exotic) some areas predominantly acacia and some predominantly manuka kanuka. There were areas that appeared ready for cultivation with very little or no evidence of kauri salvage

I spoke to Mr [] subsequent to my inspection and let him know he was pushing the boundaries of the Forests Act in regard to excavation in indigenous land. He said he would get the operators to pull back into the acacia. Another inspection is required to ensure the operators are restricting their activities to non indigenous land.

Date: 12/03/2012 3:04:38 p.m.

Attachments: [swamp-kauri factsheet.pdf](#), [swamp-kauri factsheet.pdf](#)

S 9(2)(a)

Hi []

Thank you for your time in showing me your kauri projects on the 7th.

As a follow up, I would like to confirm that MAF does not regard the 2 kauri timber slabs viewed at [] to be finished products. The fact that the timber had not been planed flat and had gouges, machining and rasping marks inconsistent with a finished product lead me to conclude that further manufacture was intended.

I said I would get back to you on MAF's view on the cracks on these items. MAF expects that filling of cracks, and installing of staples and bracing to be part of the manufacture process that must also be completed for these items to be regarded as finished products.

I regarded all the items viewed in the Great South Road are either finished products and/or stumps, and to be permitted for export. In the case of the lacquered display log with the burl, this was a fine call which applied to the distinct situation of that item, you should note that this decision will not automatically apply in the future to any similar proposed exports. MAF will evaluate any subsequent requests of this nature on their individual merits.

As discussed I have also attached a sawmill registration form for your use, and swamp kauri factsheet for your information.

Kind regards

[] Senior Programmes Adviser

Subject: RE: Indigenous Forestry Invitation

Hi []

The best time for me to drop in is on the afternoon of 5 March or Morning of 7 March.

My preference would be to meet at [] at say 9am on Wednesday 7 March and we could continue on to your office after.

How does this sound?

Regards
